Mr. Myers visited his daughter, Mrs. Sam Francis, this week. Mr. J. Morey, of Silverton visited a

day or two among acquaintances here. Seventh street grocery.

feeble condition

last Sunday.

present in Oregon City.

The sick are all improving. Mr. Elmer Dixon has built a commodious brooder-house for his increasing poultry business.

Who says poultry does not pay does had but a limited experience in this several years, but last year started in not understand the business. I have with 14 hens, and kept an account of receipts and expenditures. The fol-lowing summary may give the reader an idea of the value of poultry raising.

I sold \$14.70 of eggs. One hen and 12 little chicks just hatched for \$1; raised 48 young chickens; sold 18 that averaged 35 cents each or \$6.30 for all; ate 18 and kept no account of eggs I used; lost 4 chickens; my feed cost \$12.20. So it leaves a nice cash bal-ance for the poultry. Try it, ladies, and you will have health and happiness in the work.

E. C. Selby came home this week from the logging camp and is sick at his home.

SPRINGWATER.

March is the time set for Rev. Montgomery, Rev. Hayes, of Portland, and the pastor of Oregon City Press at Esta byterian church to install Rev. Blair Stubbs. as pastor of the Springwater Presbyterian church.

Mr. Sutto

Mr. Strattin, of Estacada, has bought interest in the Springwater Mill Co., a short visit. and W. H. Kandle one-sixth interest. Dubois Mill Co.

PLEASANT HILL.

Lots of rain, a little sun And wind mixed up together.

Fall grain looking first-rate since the rain, although during the recent dry spell it had begun to look rather sickly. A number of farmers have planted some early garden, such as potatoes, onions, etc. Grass growing, frogs croaking, hens cackling, roosters crowing, days lengthening all indicates Spring, notwithstanding the ground hog's prophecy. The first buds are swelling, the cherries, especially early ones, having a great many blossoms. It is feared the frosts will destroy the fruit. A petition will have to be circulated asking the weather man to forego frost for this year. A. J. Douglas made a business trip

to Portland the latter part of last week.

Mr.and Mrs. J. P. Woodle accompanied by Misses Mytrle and Mary Woodle spent Thursday of last week at Estacada as the guests of Rev. Mr. and Mrs. Albert Cook, of Da-

mascus, spent Sunday and Monday in our vicinity visiting relatives.

REMARKABLE EXPERIMENTS AND STUDIES ON THE STOMACH.

How To Eat Properly.

BY DR. VALENTINE.

Not long ago Horace Fletcher pub-lished a book called "The A. B. Z. of Our Own Nutrition," in which he advocated, "Do right the feeding of your body; Nature will do all the rest for you Nature will do all the rest for you aright." After a dozen years of uninter-rupted experiments upon himself and upon dogs, cats and other animals, Mr. Horace Fletcher concludes that the aver-age human being eats three times as much as is good for him; that by eating only one-third as much and masticating it even more thoroughly than by Glad-stone's famous thirty-two bltes of each mouthful, a person is assured of unfailing health, strength, contentment, and lonfavor. Dr. Roberts Bartholow, Professor in Jefferson Medical College of Philadel-phia, a recognized authority on *Materia Medica* and Therapeutics, says of Hy-drastis (Golden Seal root): "Very use-ful as a stomachic tonic (stomach tonic) and in atonic dyspepsia. Cures gastric catarrh (catarrh of stomach) and head-aches accompanying same. Constipa-tion, dependent upon different deficient secretions, with hard and dry stools, may be overcome by the remedy. Chronic eđ. secretions, with hard and dry stools, may be overcome by the remedy. Chronic catarrh of the intestines, even if it has proceeded to ulceration, is remark-ably benefited by Hydrastis. It may be given as a remedy for intermittent, chronic and malarial poisoning, and enlarged spleen of malarial origin. It diminishes mucous in catarrh of the biadder." From "Organic Medicines," by Grover Coe, M. D., of New York, we extract the following: "Hydrastis (Golden Seal root) exercises an especial influence over mu-cous surfaces. Upon the liver it acts with equal certainty and efficacy. As a cholagogue (liver invigorator), it has few equals. In affections of the spleen, and abdominal viscera generally, it is an efficient and reliable remedy. Also in scrotula, glandular diseases generally, cutaneous eruptions, indigestion, de-bility, diarrhœa and dysentery, constipa-tion, piles and all morbid and critical discharges." bladder." tion, piles and all morbid and critical discharges." The "Golden Medical Discovery" not only produces all the good effects to be obtained from the use of Golden Seal root, in all stomach, liver and bowel troubles, as in dyspepsia, billousness, con-stipation, ulceration of stomach and bowels and kindred allments, but the Golden Seal root used in its compounding is greatly enhanced in its curative action by the other ingredients mentioned above. Each of its ingredients has the endorsement of those medical writers and teachers most eminent in their pro-fession. A little book of extracts treating of all the several ingredients entering into Dr. Pierce's medicines, being extracts from standard medical works, of the different, schools of practice, will be mailed *free* to any one asking (by postal card or letter), for the same, addressed to Doctor R. V. Pierce, Buffalo, N. Y., and giving the writter's full post-office address, *plainly* writter nerves, blood and all the tissues feel the favorable effect. Although some physicians were aware of the high medicinal value of the above mentioned plants, yet few have used pure glycerine in combination, or as a solvent, and usually the doctors' prescriptions called for the ingredients in varying amounts, with alcohol. Nearly forthy years ago, Dr. Pierce found that chemically pure glycerine, of proper strength, was best for extracting the medicinal properties from these roots and that it gave added value to a tonic compound in restoring tone and vigor to the entire system without the detrimen-

and Roy Douglass Sunday

Our mail carrier met with quite an accident that was rather comical inasmuch as it was not serious. Wednes day, the 21st, on his return home, just as he passed through Eagle Creek, his Mrs. Sadie Cary has gone to Port-land to work. Mr. Hofman, from New-berg may rent her farm. buggy separated at the coupling, the hind wheels remaining while the front ones proceeded onward. He took the remaining mail and completed the journey on horseback. No one being hurt, the accident happening directly in front of the bdacksmith shop, and the next day a holiday, all indicated another lucky catastrophe.

day or two among acquaintances here. J. E. Seely removed his stock of goods from this place back to his swanth street means.

CURED CONSUMPTION.

Mrs. W. B. Evans, Clearwater, Kan. writes, My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without u. it has no equal. 25c, 50c and \$1.00. without it. For coughs and colds

FRANK BUSCH THE HOUSE FURNISHER

Do you remember the "sight unseen" trades or "swaps" of boyhood? One of the par-ties to the transaction usually got the worst of it, didn't he? And it wasn't usually the one who proposed the deal, was it?

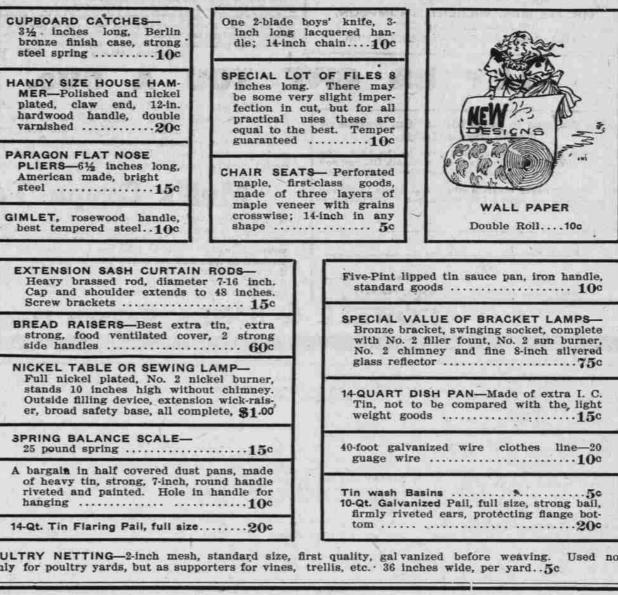

There's a lot of the same sort of "sight unseen" trading going on to-day. Only nowa-days it is called Buying by Mail. The pictures in the advertisements of the mall order houses look nice; the talk sounds nice and sometimes the deal turns out all right. But even supposing it does—wherein is the buyer any better off than if he bought of a home merchant?

Take any article you chose from the long list of things sold by mail, and you can buy it just as cheaply and just as well here at home. The expense of selling it by mail is just as great, if not greater, than the expense of selling it over the counter. Where we have rent, taxes and clerk hire to pay, the mail order dealer has all those

-and rents and taxes are higher in the large cities than here-and in addition he has to pay a small army of bookkeepers, stenographers, shipping clerks and other employes, besides the immense cost of advertising.

We can do business on a smaller margin of profit than the mail order dealer can: we know our people and their desires ,and we know that we have sold and will sell better goods for the money than the other fellow does.

If you wish to buy a new extension table, bureau, stoves, chiffonier or a new carpet, or doors and windows, come and see us, we will figure with you and can save you money. Following we itemize a few of our bargains and prices speak for themselves:

OREGON CITY ENTERPRISE, FRIDAY, MARCH 9, 1906.

mouthful, a person is assured of unfalling health, strength, contentment and lon-gevity. In a word, he will have annihil-ated the chief cause of all disease-indi-gestion. Mr. Fletcher conducted experi-ments at Yale and Cambridge Universi-ties, and made tests under the auspices of the United States Army. As a result of his experiments he advocates that people should ignore false appetite and wait for a return of normal appetite, which is indicated by a desire for some particular simple food, accompanied by a watering of the mouth-all of which is good advice, but a great many Ameri-cans, both men and women, are thin, pale and pury, with poor circulation, because they have already ill-treated their stom-achs by hasty eating or too much eating, by consuming alcoholic beverages, or by too close continement to home, office or achs by hasty eating of too much eating, by consuming alcoholic beverages, or by too close continement to home, office or factory, and in consequence the stomach must be treated in a natural way before they can rectify their earlier mistakes. The muscles in many such people, in every weary, thin and thin-bloeded per-son, do their work with great difficulty. As a result fatigue comes early, is ex-treme and lasts long. The demand for nutritive aid is ahead of the supply. To insure perfect health every tissue, bone, nerve, tendon or muscle should take from the blood certain materials and return to it certain others. It is neces-sary to prepare the stomach for the work of taking up from the food what is necessary to make good, rich, red blood. We must go to Nature for the remedy, which shall be simple but effective. There were certain roots known to the Indians of this country before the advent of the whites which later came to the knowledge of the settlers and which are new crowing randity in professional knowledge of the settlers and which are now growing rapidly in professional favor for the cure of obstinate stomach and liver troubles. These are found to be safe and yet certain in their cleansing be safe and yet certain in their cleansing and invigc.ating effect upon the stomach and blood. These are: Golden Seal root, Queen's root. Stoue root, Bloodroot, Mandrake root. Then there is Black Cherrybark. The medicinal principles residing in these native roots when extracted with glycerine as a solvent makes the most reliable and efficient stomach tonic and liver invigorator where there is bankrupt vitality—such blood the body acquires vigor and the nerves, blood and all the tissues feel the

ARE YOU A FARMER?

If you are, then you need a good farm paper. The Enterprise has a splendid offer. We will furnish the Enterprise and the Oregon Agriculturist and Rural Northwest, the best agricultural paper in the large section it serves, both one year for only \$1.50 -the price of the Enterprise alone. This farm paper is highly recommended by the leading experts on farming, stock raising and fruit growing. This offer is a snap. Call at the office or mail us your subscription.

YOU CAN'T GET WET.

Clackamas County Man Has Remark able Preparation.

All dread of a wet Oregon winted can be dispelled in the use of a prep-aration that has been manufactured by Wm. J. Schneider, a recent arrival from Bavaria.

Mr. Schneider, who lives at Fruitdale, this county, has compounded a preparation for the treatment of cloth ing of all kinds and by the process all apparel is made positively waterproof. Mr. Schneider is the sole possessor of Transfer and Express the formula for this remarkable preparation and expects to make application for a patent.

The finest of fabrics, as well as coarse garments, may be treated with RATES REASONABLE the same degree of satisfaction as to results. By the process clothing is rendered absolutely water-proof without discloring or in any way damaging the material.

After being treated by this preparation, these garments may be worn all day in the exposure of a continous drenching rain and will not be even so much as dampened. One treatment is suecient to last for the life of the garment.

Mrs. Osborne, of Oregon City, was visiting with her sister, Mrs. A. J. Burdette, on Wednesday of last week, remaining over night.
