THE COUNTY PRINTING.

Benator Brownell would have the people of Clackamas county believe they are being robbed in the matter of county printing. Other than personal abuse, which at no time consti-tutes argument, this is the only charge of any kind that Mr. Brownell has even attempted to prefer against his opponent for State Senator, L. L. Porer, the editor and publisher of the Enterprise, who does the county print-

Now what are the facts? In the first place Clackamas county is paying for its printing less in proportion than is any other county in the state. For instance, Washington and Columbia counties have been paying 25 cents per line for publishing delinquent tax lists. This same advertising this year cost Clackamas county 71/2 cents per line. The Enterprise received \$156.75 for printing the list. While the cost of printing the delinquent tax list in the past has been coniderably greater, during the administration of the late ex-Sheriff Ganong having cost nearly \$3000, the cost under the present tax law, by which property owners are compelled to liqui-date their taxes, is very materially reduced. The editor of the Enterprise was a member of the committee that framed the present tax law bill and assisted in getting the bill through the legislature.

Every order for even the smallest job of county printing is made directly through the members of the County Court, each county officer being obliged to make application of the court for all supplies that are needed. Upon proper request being made, the Court the only part the printer plays in the matter is to supply the order as it is given him by the Court. As to the charges that are made for this work, ability to the remainder of the Ruef only current prices are received, and, ticket. In his desperation, a little exaggeraion from the Senator is expected and night be tolerated but we must take xception to the gross, wilful and maicious misrepresentation that is being esorted to. Not only do these false tatements do the Enterprise and its editor an injustice but they constitute serious indictment of the conservaive executive ability of the present nembers of the County Court, a more pareful and economical board than which never met for the transaction of county business.

1	THE RESIDENCE OF THE PARTY OF T	ENT 3

The bills of the Enterprise for county printing for each and every month are on file in the office of the County Clerk and may be inspected at any time by any one desiring to do so. Each bill is itemized, showing the various items of work done and the charge for the same. As we have already stated, the charges for all county printing have been right and rea-sonable. In fact it is not a matter of sending in any old charge for printing and having the account promptly audited by the members of the County Court and a warrant immediately is sued in payment. On the contrary, every bill against the county, is thoroughly scrutinized by the members of the County Court, before the account is finally audited and a warrant ordered drawn in payment thereof.

If any one for a minute thinks a gold brick can be sold Clackamas county or a padded bill or an unreasonable charge pass the critical in-spection of Judge Ryan and Commissioners Brobst and Killin, let him experiment.

NEED SPRAYING BADLY.

The people of Clackamas county are uniting their efforts to defeat George C. Brownell, who is a candidate for the nomination of state Senator from that county. As has been the habit of Brownell, he has promised every-thing, and if elected, will do as he usually does, deliver nothing. There never has been a man in state politics who has promised as much and done as little as Brownell. He gets on the popular side of everything, "stands in" with everything, and has an excuse for everything that he did contrary to his promises. There is an indictment hanging over his head as a party de-frauding the government.* * * He plays the game of politics with "marked cards" and is a corruptionist of the deepest dye. Oregon has been too long cursed by such law-makers as Brownell. In these days of accounting it is best to kill the worm that has injected will be the undoing of George C. Brownell.—Portland Labor Press.

But while of this increase about 30 per cent belonged to the United States three was a 70 per cent gain for Europe It appears that our trade was best with Ecquador where this country really sold the bulk of all the imported goods. But the large general increase on the continent went not to Americans but to French and German dealers. This indicates that the United States has commerce and points more than ever to the necessity of regular consulate training and to the education of American firms and American commercial travellers if we are to take our rightful share of the immense Pacific commerce that the completion of the canal will open to the world.

> Judge John H. Judge Scott says that he and his fellow workers are arranging to run excursion trains to Salem during the period of the demonstration, and intends to make of it a gala day, when as many of the people of the state as can, will be instructed in road building. Senator Fulton has not yet caught the trick of foreign expressed his purpose of attending the meeting if Congress adjourns in time, but is unable to say definitely now in this respect. Many Senators and leaders of the House believe an adjournment will be had even earlier than forecasted a few weeks earlier, and hope that the session will close about May 1.
