OPINION OF A GRANGER.

Something About Brownell and Precinct Assessors Bill.

In the letter printed below there is given the opinion of one Granger to another relative to Senator Brownell and the Precinct Assessors Bill. The letter was written by Jacob Voorhies, of Woodburn, in response to a request from Wm. Grisenthwaite, of this county, State Master of the Grange. Mr. Voorhies is himself past master of the State Grange, and was a member of the legislative committee that had been appointed by the Grange to look after bills before the legislature in which the Grange as an organization

Oregon Water Power and Railway Company Furnishes Brownell with Special Car to Carry Audience From Eagle Creek to Barton.

NOT A SINGLE MAN ACCEPTED OFFER OF FREE TRANSPORTATION

Clackamas County's Corporation Senator Introduces an Innovation in His Desperate Campaign

Brownell, by means of a special car that was furnished him by the Oregon Water Power & Railway Company, sought to break up a political meeting that was held at Eagle Creek last Friday evening by L. L. Porter and C. H. Dye, candidates for State Senator and Representative, respectively, on the Republican ticket.

The car was sent to Boring and placed at the disposal of Senator Brownell. It was then sent to Eagle Creek shortly before the time for convening the Porter-Dye meeting. Arrived there, the announcement was made and the statement was given in circulation to the effect that the car had been provided for such of the Eagle Creek people who wished to go to Barton and attend the Brownell meeting.

In the same connection, the information was given out that no charges for fare would be asked of Eagle Creek people who took passage in that car.

A man was sent to the hall in which Porter and Dye were making ready to hold their meeting and here the news of the special car to Barton with free transportation was given out. But not a single man left the hall at Eagle Creek. Not a voter accepted the offer of a free trip to Barton, but the entire audience remained and with interest, listened to the addresses of the two

corporation. To make these claims after having read, publicly, letters from the management of both the Oregon Water Power & Railway Company and the Southern Pacific Company, indorsing his candidacy and pledging the support of these corporations, would actually make one smile.

Of course, these corporations are with Brownell. They have been with him in the past and they are with him in his present fight. The only difference in the situation is that heretofore the corporations have quietly supported Brownell, but this year they are making no pretense of hiding their hand. They are openly supporting Brownell and doing all they can towards bringing about his renomination and re-election. They have assured the Senator that he has their support and they are giving him material assistance. He is too useful a man for them not to be interested in. They wish to retain him in the position in which he has been able to render such valuable services in their behalf.

But the voters have awakened to the situation and it remains to be seen if corporations or the people themselves are going to nominate and elect the legislators from this county. The people are demanding cleaner and better things, politically, in Clackamas county. If officials now representing

CANDIDATE FOR REPUBLICAN NOMINATION AS STATE TREASURER

TO THE VOTERS AND CITIZENS OF CLACKAMAS COUNTY:—

Nearly two years ago, after consultation with many of the citizens of this county, I made the announcement that at this time I would be a candidate for the Republican nomination as State Treasurer and from all parts of the county I received encouragement and proffers of support, as it seemed to be nearly the unanimous opinion that Clackamas County, the oldest in the State, should have recognition by the selection of one of its citizens for a state officer, it having as yet never received that honorable distinction; since that time I have also corresponded with many of the most prominent members of the Republican Party in all parts of the State and have received much encouragement together with the acknowledgment that in their opinion our county is entitled to a place upon the state ticket; they have stated however,

JUDGE THOS. F. RYAN, OF OREGON CITY

Conceded now to be the people's choice for the office and as far in the lead of his competitors.

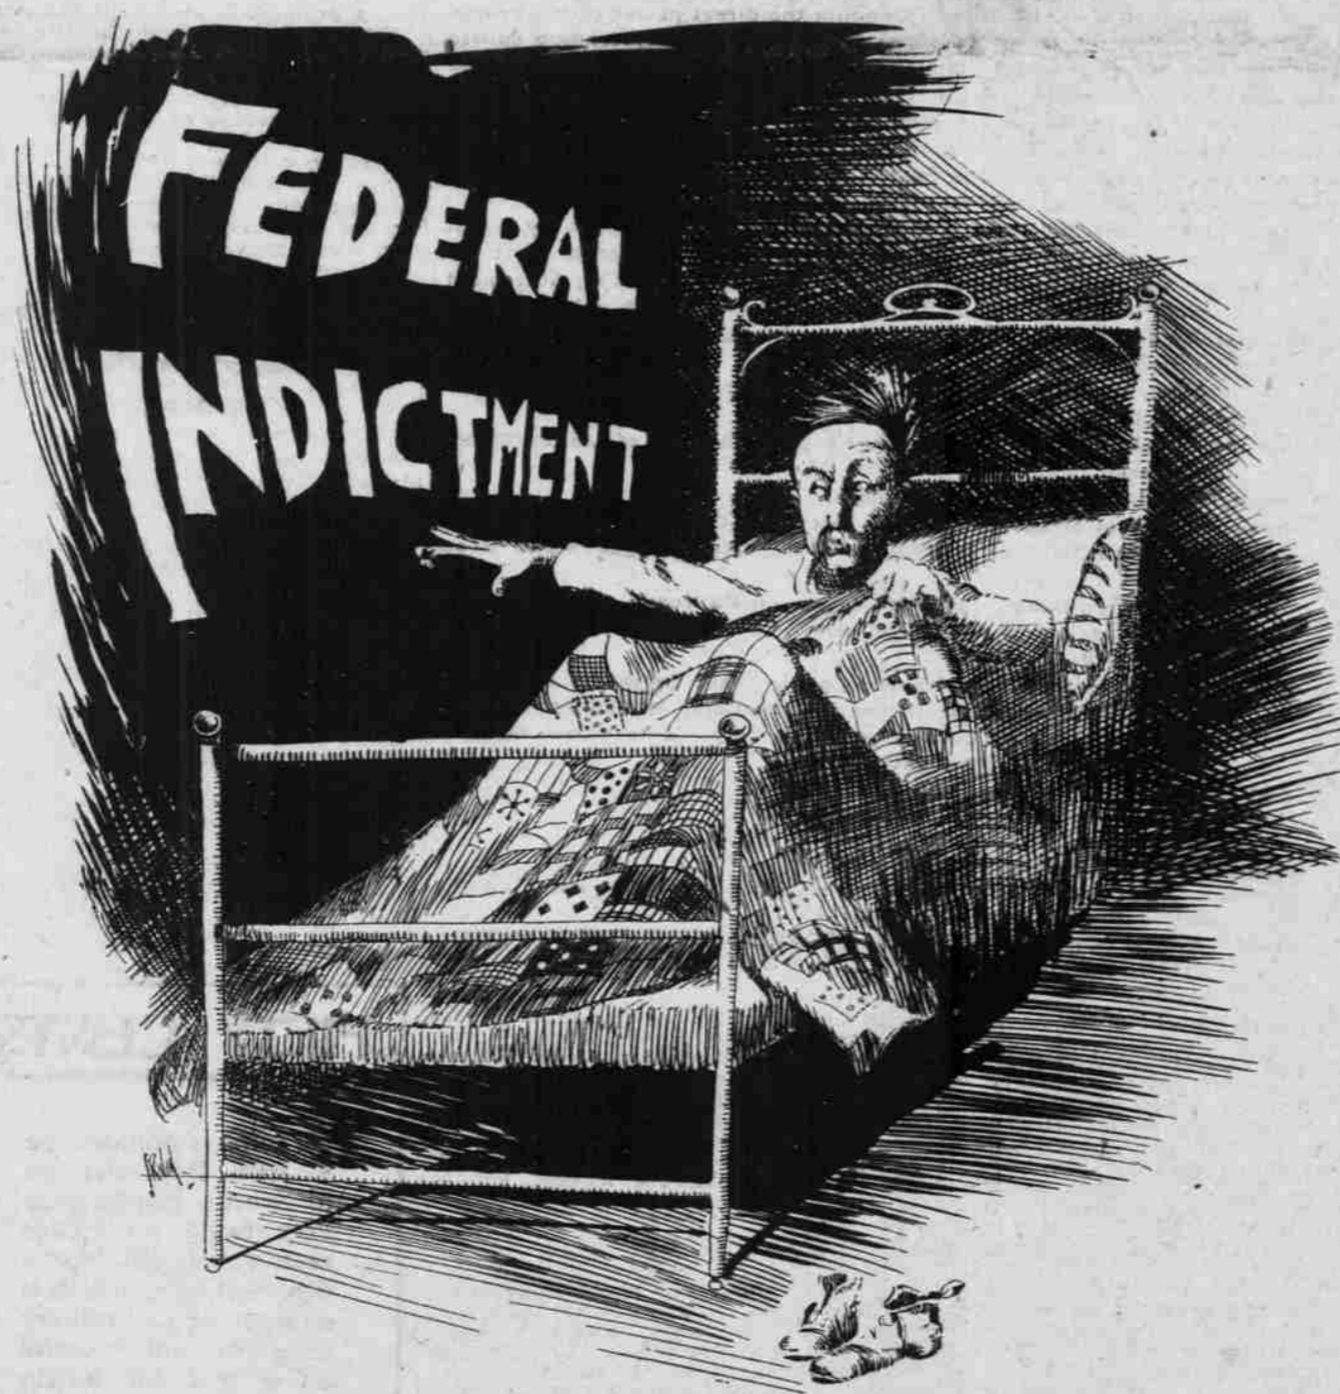

Judge Ryan is neither officer, stockholder, agent or employee of any banking concern and stands squarely on the platform that

"The funds of the State should not be used for the benefit of any particular bank or money loaning institution; that all moneys of the State deposited in banks by the State Treasurer should draw interest which should be paid into the State Treasury. That the State Treasurer be prohibited from speculating with the state funds in any manner, and that he receive no other salary or remuneration for his services than the salary allowed him under the law; that the State Treasurer be prohibited from having interest, directly or indirectly, either as officer, stockholder, agent or employee of any banking institution in which any of the moneys of the State are deposited or loaned."

that the reason that we have not been recognized in this matter before is that we have never been united in our demand for recognition; that jealousy and faction prevails among us to the extent that no good man can receive the united support of old Clackamas. Wherever I have been I have denied this statement as false and malicious, and that with a few exceptions, no man more loyal and true to the interests of their county and its inhabitants than you men of old Clackamas. I have been twice honored by you in being elected as your county Judge and I can assure you that I have appreciated your kindness.

might have an interest. The letter follows:

"Friends: Grisenthwaite: 'In reply to your inquiry: 'If the work done by Geo. C. Brownell in favor of the Precinct Assessors Bill was hard work, he is too easily tired out to make a good Representative of the people. Better leave him at home so that he will not appear to be working for the farmers' interests and keeping his pledges to them, when in reality he was doing the opposite. I have seen humbugs before, and that kind has been very common in the Oregon Legislature.'"

speakers.

This innovation, introduced by Brownell, is most decidedly a departure from the usual manner of conducting campaigns in Clackamas county. But in this instance it netted the promoter nothing but the deserved contempt of an insulted audience which preferred rather to remain and hear an exposition of the Senator's unenviable record than take a complimentary ride to Barton.

But still Brownell has the unadulterated nerve to stand before an intelligent audience and deny that he is in any way associated with, interested in or employed by a single cor-

the people in legislative capacities are not going to take the initiative and divorce themselves from their corporation alliances and influences, the voters themselves will perform the dissolution act. The vote in the primary election next week promises to be a revelation in this direction.

Alum baking powders are unhealthy. Do not use them for raising food under any circumstances. So detrimental are alum baking powders considered, that in most foreign countries their sale is prohibited. In many States in this country the law compels alum powders to be branded to show that they contain this dangerous acid, while in the District of Columbia, Congress has prohibited the sale of all food that contains alum.

Alum baking powders are sold to consumers at from 10 cents a pound to 25 ounces for 25 cents, or 25 cents a pound, and when not branded may generally be distinguished by their price.
