FOR COUNTY CLERK.

1. D. Taylor is Qualified and Asks For the Nomination. I. D. Taylor, of Parkplace, candidate for the Republican nomination for District No. 12-County Clerk is thoroughly qualified

for the office to which he aspires. He is well known throughout the county, having for several years been employed in the hardware store of Wilson & Cooke in this city. Mr. Taylor has had some experience in clerical work,

having served at one time as deputy clerk of the court before coming to

Mr. Taylor speaks the German language fluently and this is to his advantage in a county like Clackamas where there is such a large German population. If nominated and elected Mr. Taylor promises to conduct the office in the interest of the people and give fair and courteous treatment to District No. 18—

JUDGE E. B. WATSON, OF PORTLAND

14.25 is one of the candidates for the Republican nomination for United States Senator, for the long term commencing March 4, 1907, at the primary election to be held April 20th, 1906. He was born at Garnavillo, Iowa, but came to Oregon with his parents when eight years of age, and has lived in the 10.00 state ever since. He is a lawyer by profession and well-known both in pro fessional and political circles, and has an honorable record in the public service. Upon his admission to the bar, he located at Jacksonville, where he advanced rapidly both in his profession and in popular favor, and during the period of twelve years, filled several important offices and was honored with a place on the Supreme Bench, which he filled with credit to himself and satisfactorily to the public; he then removed to Portland, where he has since lived.

Judge Watson has never been in favor with the corporations. His efforts during the last ten years to compel the railroads to pay their just proportion of the public taxes; to supplant the harsh and unjust rules of the law of negligence relating to fellow servants and contributary negligence with provisions for the liability of employers for the carelessness or incompetency of their employees in charge and control of their operations, and the equity doctrine that contributory negligence of the injured party shall be considered by 12.50 the jury in reduction of the amount of his damages, but not as a bar to his recovery altogether; and, finally, to compel the railroad and military wagon road companies in Oregon to open their grants to settlement and purchase by actual settlers only, in quantities not exceeding one quarter section to any one purchaser and at prices not exceeding two dollars and fifty cents per acre, and which he is now urging as one of the strongest features of his platform, all of which are well known and easily verified.

The records of the courts will show that he has conducted many cases against corporations, and none for them. But his position on the railroad and military wagon road grants in this state, is most convincing proof that he is not the choice of corporate interests. The railroad grants were made upon the express condition, the lands granted aggregating between 4,000,000 and 5,000,000 acres, "shall be sold to actual settlers only, in quantities not greater Justice Pea than one quarter section to one purchaser, and for a price not to exceed two 1.50 dollars and fifty cents per acre." The railroad companies have held these lands for over thirty years, without offering them to settlement and purchase in accordance with this provision. And they do not intend to let them go on such terms, but on the contrary, to hold them on speculation and ultimately dispose of them to whom they please, and in such quantities and for such prices as will advance their own interests. This means, of course, that no considerable portion of these lands will ever go to actual settlers, but that the great bulk of them will pass into the hands of other corporations, which .75 can afford to pay the highest prices. The policy of this provision was to give every man an equal chance to settle on and purchase a quarter section of these lands and make a home on it for himself and his family, and while conferring this great benefit upon the individuals to confer an equal benefit on the public by developing the natural resources, and business enterprises of the country, is well understood and universally acknowledged. These railroad companies by withholding this right of settlement and purchase from the people and attempting to absorb all the benefits of these magnificent grants for their own exclusive advantage, have not only disobeyed the law, but done the individual, as well as the public a great wrong. This right according to the present view of the courts cannot be enforced without further action by Congress, and Judge Watson pledges himself, if chosen to the Senate to make every effort to secure such action by Congress as will make the right available to settlers and purchasers, in good faith, and believes that with a strong endorsement by the people of Oregon, he will be able to accomplish this ob-

Besides these there are four military wagon road grants in Oregon, containing in the aggregate over 4,000,000 acres of land. The Coos Bay Military Wagon Road Grant, contains a provision similar to the above, the Dalles Military Wagon Road, Willamette Valley and Cascade Military Wagon Road and the Oregon Central Military Wagon Road, grants do not contain it, but each was made in consideration that "said road shall be and remain a public highway for the use of the government of the United States, free from tolls or other charges upon the transportation of any property, troops or mails of the United States.' The roads were never built in fact, nor any pretense made of keeping

them up as public highways for free use by the government. There are decisions of the courts in regard to them, which increase the difficulties of opening them up to settlement and purchase by individuals. But these grants were obtained by fraud, and Judge Watson pledges himself, if elected to the Senate, to spare no effort to set them aside, if Congress still retains the power to do it by appropriate action. These subsidy land grants traverse the state in every direction, and furnish the greatest obstacles to the development of the natural resources, and business interests of the state; and they ought to be opened up to settlement and purchase, in the same manner and upon the same terms, as the public lands within the same boundaries; and that Judge Watson will do all within his power to accomplish this object, no one who knows him, has the least doubt.

He is on the right side of all the other great questions now before Congress., which it is needless to enumerate here, as he has already stated his position on them, in his platform, which has been widely published, and for which he asks the earnest consideration of all the Republicans, wherever they may reside, or whatever their calling or pursuit in life may be.
