The advance of dental science has been so rapid and the improvements so numerous in all branches of the work that few people realize to what an extent the pain accompanying dental operations has been minimized. This has been accomplished not alone by improvements in the agents employed for producing anaesthesia, both local and general, but in methods and appliances used for their administration. The work of filling teeth has been so improved as to allow of its performance in much less time, and with little or no pain as compared with the work of former years.

The Imported German Coach Stallion

A beautiful bay, 16 hands high weighs 1545 pounds, splendid coach action, that was admired so much at the Lewis and Clark Show, where he stood third in a class of Coach stallions that could not be beaten on either continent. Pfiel won first prize and championship at the Oregon State Fair in 1903-4, and is considered by good judges to be the highest class Coach stallion in the state. His colts are uniformly good, and out of trotting bred mares they look like pure bred coachers. Will make the season of 1906 as follows; Monday at St.Paul;
