DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Buy Hair at Auction?

At any rate, you seem to be getting rid of it on auction-sale principles: "going, going, g-o-n-e!" Stop the auction with Ayer's Hair Vigor. It certainly checks falling hair; no mistake about this. It acts as a regular medicine; makes the scalp healthy. Then you must have healthy hair, for it's nature's way.

AID TO HOMELESS PUPILS.

Clackamas Students Will Contribute To Their Relief.
The pupils of the Clackamas County schools are going to make contributions toward the relief of the unfortunate pupils of San Francisco, whose school buildings were destroyed by the fire. The plan of lending aid is outlined in a circular letter that has been sent to the parents, teachers and school officers of Clackamas County by Superintendent Zinser. The letter suggests the following plan of action:

A letter has been received from the Superintendent of Schools of San Francisco, stating that in the recent disaster that city has lost 34 school buildings which will cost about \$6,000,000 and that the teachers who have taught in these buildings cannot be employed, nor the buildings replaced for some time to come, without aid from other sources.

In order to help the children of San Francisco in their great misfortune it is suggested that the children of Oregon be allowed to make contributions of small sums to be used for the erection of school buildings. Many cities all over the United States are interested in this movement, foremost among them the school children of Galveston, Texas, whose public schools were rebuilt and maintained after the storm of 1900 by voluntary contributions from the school children of the United States.

A circular letter from the State Superintendent, endorsing such contributions, has also been received. I therefore suggest that parents and teachers allow children below the high school to contribute not more than 5 cents each, those above that age not to exceed 10 cents each. The Bank of Oregon City and the Commercial Bank have kindly consented to receive such contributions.

SUMMER NORMAL.

The Second Session of the Clackamas County Summer Normal

Will open Monday, June 25, at the Y. M. C. A. Building, and continue for six weeks, up to the August examinations. A thorough review is offered in all the branches required for County Certificate.

Instructors:—J. C. Zinser, County Superintendent, T. J. Gary, Prin. Willamette School, L. A. Read, Prin. Parkplace School.

Portland Evening Telegram, daily, and the Weekly Enterprise, both one year, for \$5.50.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N. Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

Rewards For Churchgoing.
At Holsworthy, in Devonshire, England, the prettiest girl who attends church gets well rewarded for doing so. About fifty years or so ago it struck the Rev. Thomas Meyrick, who was then vicar of the parish, that the young ladies there did not attend church so often as they might do. So he left a sum of money, and this, according to the terms of his will, was to be put out at interest. The annual income from it was to be given each year to the prettiest young woman at Holsworthy who had attended church regularly for that year.

MARCUS DALY'S PLUCK.

The Story of a Loan That Brought Success and Wealth.

When the outlook was the blackest and this indomitable captain of men, Marcus Daly, had exhausted his resources and his credit a fortunate accident placed in his hands a small but sufficient sum of money to transform inevitable defeat into certain victory. Lloyd Tevis, the California lawyer, and his mining partner, J. B. Haggin, who had been visiting their properties at Homestake, stopped at Butte on their way home to California to take a look at the new camp. Marcus Daly knew Messrs. Haggin and Tevis well, for he had worked for them in the old California days. He visited them at their hotel, not the gorgeous palace of granite, marble, precious onyx and mahogany which adorns Butte today, but a lumbering wooden structure more in keeping with the squalid surroundings of the new camp. In Haggin's bedroom, the only place available for a private conversation, Daly made a clean breast of it to his friends and appealed to them for aid, explaining his theory fully and citing many additional facts which had developed during his mining operations in Anaconda that went to strengthen it.

It was thoroughly characteristic of the man that he did not attempt to haggle over the terms of the loan, but stated merely the facts and closed his negotiations with the words: "Now, gentlemen, that is a correct statement of the situation of my affairs and the condition of my mine. I must have \$20,000, and I must have it at once to meet next Saturday's payroll and current bills and to provide for the expenses of operation for another six months or so. If I do not get it I am flat broke and will have to close up. I have told you what I have got and what I think and what I think I am going to get when that shaft is down another 100 feet or so. Make your own terms, but let me have the money."

They gave him the \$20,000, and, of course, being astute business men, a contract was drawn up and signed then and there transferring to them the controlling interest in the property. But up to the date of his death Lloyd Tevis always declared that, though he believed thoroughly in Marcus Daly's integrity, both he and Mr. Haggin thought that he was chasing a chimera, that the theory upon the elaboration of which Marcus Daly had spent so many sleepless nights and all his substance was fallacious and that no gold-copper deposit would ever be discovered in the bowels of Butte mountain. In fine, Haggin and Tevis let Daly have \$20,000 because they liked him. They certainly never dreamed that Anaconda would prove a more veritable bonanza than the Comstock lode. As for Daly, he had never doubted his ultimate success, and when three months after that meeting in the hotel bedroom the main shaft of Anaconda penetrated, as he had always believed it would, the richest and most extensive gold-copper deposit in the known world he conveyed the intelligence to his partners in California in this most matter of fact telegram: "We have reached it. Come out and look at it."—Public Opinion.

An Indian Legend.

There was once a man who lived in the forest far from the rest of his tribe. He lost his wife and was very lonely. After awhile he made a wooden doll about her size, dressed it in the clothes she used to wear and set it up in front of the fireplace. Then he felt better. So a year passed away. One night he came home, and there was his wife sitting in a chair in place of the doll. She spoke to him, saying, "The Great Spirit felt sorry for you, so he let me come back to see you, but you must never touch me, for if you do you will kill me." They lived thus together for a twelvemonth, but one night he attempted to clasp her in his arms. Behold, he was holding a wooden doll! She did not come to life again, and he was very unhappy ever after.

Welsh College Yells.

The Welsh is a language that looks peculiarly fit for college yells. The Welsh yells are fully up to the level of those of this country. The University of North Wales has a yell something like this: "Bravo, bravissimo, ray, ray, ra-rock! Ray-ray-ra-rock! Ray-ray-ray-rock!" Cardiff has a somewhat similar yell, while at Aberystwyth the cry is: "Hip-hip-hur-aher! Hip-hip-hur-aher! Hip-hip-hur-Aberystwyth! With a pip and a pang and a yip and a yan. Yak! Yak! Yak!"

Overcome.

Timson—I never fainted away but once, and that was just a few days ago. Simson—What was the cause? Timson—My wife told me that she had trained herself so she could walk through a store full of bargain counter sales with her purse full of money and never buy a thing.—Detroit Free Press.

Paradoxical.

Smith—You remember Muggins, who used to bore us with his long winded stories? Jones—Yes. What of him? Smith—He was arrested yesterday for being short in his accounts.—Chicago News.

Work.

"Anyhow you can't deny that Hewlign is a self made man. He worked his way through college."
"He certainly did. He worked nearly every student in the institution."—Chicago Tribune.

His Floundering.

"Isn't Mr. Teelus a deep thinker?"
"He must be," answered Miss Cayenne. "I never heard him try to say anything without getting beyond his depth."—Washington Star.

ELECTRIC LIGHT AND POWER

A talk with us will convince you that ELECTRIC LIGHT is the only light you can afford to use in your home, or put in the house you are building. Your property will rent more readily, will pay a higher income on the investment and attract a better class of tenants IF IT IS EQUIPPED WITH ELECTRIC LIGHT.

ELECTRIC POWER never tires. It serves faithfully, never complains. Requires little or no space, less care. Absolute adaptation to all conditions. Expense starts and stops at your command.

The use of ELECTRIC POWER means: Great saving in machinery and initial cost of installation of plant, high ECONOMY in cost of operation, and an INTENSIFIED PRODUCTION possible only where ELECTRICITY is used.

Advantages in the cost of producing power in Oregon City, in comparison with other cities of the country, enables us to make terms exceptionally favorable to manufacturers, and to furnish unequalled service at lowest rates.
