# Truths About Artificial Teeth

The great majority of dentists represent to their patients that a rubber plate with fourteen teeth set in a half circle is just as good as anything else for a set of artificial teeth.

Some make such representations knowing them to be false, others because they know no better. The responsibility for this condition rests with the dental profession.

A great many people would not accept a rubber or celluloid plate if they only understood the superiortty of a metal plate in cleanliness, healthfulness and durability.

We would like to talk to with you about metal plates for artificial teeth.

Seventeen years in dentistry in Oregon City. Post Graduate Haskell & Chicago School of Dentistry.

# REPORT ON CROPS AT RUSSELLVILLE

PRUNES AND PLUMS PLENTY-POTATOES AND APPLES ARE A LITTLE SHORT.

Russellville, July 24 .- The hot weather has terminated at last, and we are having Oregon weather again. Haying is about over in this vicinity. The crop is rather above the average and the farmers are jubilant. The apple crop is a little short; prunes and plums are an over-production. The spuds may be a little short, but they are good just the same.

We have been wishing for rain, even praying for it in a half-hearted way.

Roy Pelkey and Benny Johnson have the measles; Benny is having a double dose. He thinks he is having gonian, one year, \$2.25 cash.
