The Antiquity of an Egg. A simple method of finding out the age of an egg, says the Agricultural Epitomist, is by means of the air space which is situated toward the broad end of the shell. If the egg is held up between the hands before a light in a dark room the air space can be easily discerned, and by its size the age can be determined. In a perfectly fresh egg the air space is very small, but as age increases it extends, until when the egg is three weeks old the air space occupies about a sixth of the entire contents. With practice the age can be told to within twenty-four hours.

COUNTY COURT LETS BRIDGE CONTRACT

At the regular August session of the County Court, which convened Wednesday, a contract was entered into with a Salem firm for the construction of a bridge across the Pudding river, west of Barlow, the contract price being about \$1240. A settlement was also had between the county and these contractors for the building of the Sucker Creek bridge by the payment of a balance of \$219.40. The bridges on the Oregon City-Owego road were ordered placed in repair by J. W. McKay, subject to the directions of the court.

EVERYBODY TAXED BUT UNCLE SAM

Under the recent decision by the Supreme court, everybody must pay taxes except the government. Assessor Nelson, acting under the advice of the official legal lights of this county, has added the personal property exemptions of \$175,000 to the rolls, also the libraries of professional men, lawyers, doctors, etc. If the carpenter must pay on his tools, the lawyer's law book, the doctor's knife and the reporter's pencil should not escape. One pay, all pay. Just another step and the rolls will be equitable. See that every man or corporation pays on his or its entire property, tangible or intangible.

COWS KILLED BY EATING WILD PARSNIPS

Veterinary Surgeon W. E. Eddy reports that a number of cows have been poisoned from eating wild parsnips that grow along small creeks and ditches in this vicinity. The effect of the vegetable is to paralyze the digestive organs of the animal, which generally dies within a few hours. The intense itching characteristic of salt rheum and eczema is instantly allayed by applying Chamberlain's Salve. As a cure for skin diseases this salve is unequalled. For sale by Howell & Jones.
