

NEWS FROM VIOLA

Clara Sevier has been on the sick list for a few days. A. L. Copeland started for Puget Sound, Tuesday. Mr. Oberstaller expects to go with his family to Grand Rapids, Michigan, in a few days. Messrs. Carlson and Demson intend to go to Alberta about the middle of August. An ice cream social will be held on the lawn at A. L. Copeland's Saturday evening. James Sevier will begin the threshing season at Redland, the first of the week.

IDEAL SUMMER DAYS IN OREGON.

General Summary by Weather Bureau for Week Ending July 30.

The week was dry except Saturday, when clouds formed and in a number of places thunderstorms occurred, with very light rain. In the coast counties the nights and mornings were generally cloudy or foggy and the afternoons clear. East of the Cascade mountains and in southern Oregon the sunshine was excessive. The temperature averaged above normal, with the coolest weather during the closing days of the week. In the Willamette valley the warmest day was Friday, when the maximum temperature was above 90°. In southern Oregon, Tuesday and Friday were both hot days, with maximum temperatures above 90°, but the remaining days were only moderately warm. East of the Cascade mountains temperatures of 90° or more were common during the first five days, after which lower temperatures prevailed. The winds were generally light and their prevailing direction was northwesterly.

Summer Diarrhea in Children

During the hot weather of the summer months the first unnatural looseness of a child's bowels should have immediate attention, so as to check the disease before it becomes serious. All that is necessary is a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by a dose of castor oil to cleanse the system. Rev. M. O. Stockland, pastor of the M. E. church, Little Falls, Minn., writes: "We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years and find it a very valuable remedy, especially for summer disorders in children." Sold by Howell & Jones.

APPORTIONMENT OF STATE SCHOOL FUND

Salem, Aug. 1.—The apportionment of the school fund interest to the several counties was made yesterday by State Treasurer Moore, in accordance with the recent school census, which showed 156,466 persons over four and under 21 years of age. The total amount divided was \$265,992.20. Clackamas county's share is \$14,433. Only three counties receive a larger sum—Multnomah \$57,434.50; Marion \$17,667.80, and Lane \$14,813.80.

STAFFORD NOTES

We are all looking for rain yet dreading its coming, since lightning struck Mr. Hodge, poor fellow. People begin to fear that Oregon is not so exempt from electric storms as it was supposed to be in the early days. It did not rain here that day.

Mr. Weddle is traveling in hard lines. One of his young sons had the measles a couple of weeks ago. His wife, who had been in California for a bad cough, returned with the cough still troubling her and now the whole family, including Mr. Weddle himself, are down with the measles, and harvesting in full blast and help not plentiful.

Mrs. Agnes West, formerly of West Oregan City, but now of Willis, near Riverville, Washington, arrived at the old home with her children Thursday, and is visiting her parents, Mr. and Mrs. Gage. Her husband is a prosperous wheat grower of Adams county.

The dance at Mr. Pomperine's new hop house passed off very pleasantly. Sam Mosier's little girl, who broke her collar bone, is not getting along very well. It seems to have been a very bad fracture.

Mr. Waehle has had the house on the Clowder place painted, making it a pleasant little cottage.

Arthur Barnes, late of Dunsuir, Calif., went to Portland seeking work in a mill.

Stomach Troubles and Constipation.

No one can reasonably hope for good digestion when the bowels are constipated. Mr. Chas. Baldwin, of Edwardville, Ill., says: "I suffered from chronic constipation and stomach troubles for several years, but thanks to Chamberlain's Stomach and Liver Tablets am almost cured." Why not get a package of these Tablets and get well and stay well? Price 25 cents. For sale by Howell & Jones.

THE CANNY WAY OF SO-CALLED HOP KINGS

OVERPLUS OF PICKERS RETURN THEIR WAGES DURING ENFORCED LAY-OFFS.

Marks Prairie, July 31.—I notice that the Krebs Bros. are again at their old game to secure about twice as many pickers as they can use so as to allow a picker to only pick about one box of hops a day and then lay off, spend what he has made with the firm. The Oregon hop growers are not all such men as are Krebs Bros., and do not systematically aim to get back every dollar paid to the pickers. The average hop grower does not go to the north end of Portland and Seattle and get the scum of such places to pick his hops, but aims to get decent and respectable people to harvest his crop, and he does not aim to get 90 per cent back from the hop pickers as is done by a great many of the so called hop kings of Oregon.

RUMOR AT BARTON OF FOREST FIRES

Barton, July 31.—A forest fire is reported at Donahoe's mill. Harvesting everywhere. Watch Barton grow wheat and saw logs. Mrs. H. Ward is at Dover at her mother's bedside. Mr. Keith, who recently came to Dover, died there and was buried at Sandy cemetery, Saturday. Roy Davis was hastily summoned to Portland Monday morning. His mother died suddenly Sunday night. H. Ward carried mail on R. F. D. No. 2, last week. Mr. J. Cluster and Mr. Freeman have gone to Mt. Rainier, prospecting.

Unnecessary Expense. Acute attacks of colic and diarrhoea come on without warning and prompt relief must be obtained. There is no necessity of incurring the expense of a physician's service in such cases if Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before the doctor could arrive. It has never been known to fail, even in the most severe and dangerous cases and no family should be without it. For sale by Howell & Jones.

BUYING SPUDS FOR THE ALASKA TRADE

Commission Man Paying Growers at Stone 75 Cents Per Hundred.

Stone, July 31.—Our last hot day was July 27th—99° in the shade. People are busy—some digging potatoes, some stacking grain.

Most of the large hay crop is in stack and barn in fine shape. Wheat and oats are being harvested as fast as fit to care for; quality fine.

Commission man here from Portland, contracting spuds to ship to Alaska, paying 75 cents per hundred. That beats Portland prices. The dry weather and the blight have injured the spuds.

Between our county judge and the Multnomah county officials the Canada thistle and the Russian thistle will be annihilated and then the Oregon thistle can spread itself to perfection. Oregon thistles are not much of a pest if they do grow three or four feet up and spread out three or four feet wide in many places on the side of our public highways, and a good many other places we might mention.

CLACKAMAS GRANGE MEETS SATURDAY

Clackamas, August 1.—The regular day meeting of Grange 228, P. of H., will be held Saturday, August 4. Rev. W. H. Meyers and wife went to Portland, Monday.

King Spurgeon and family returned from the Rogue river country last week. After a short stay in Clackamas they expect to leave for Big White Salmon, Washington. Thornton Strite went to Portland Wednesday, with a load of potatoes for market.

E. C. Chapman is putting a new fence around his premises.

James Wells has bought the Curtis place on what is known as Railroad street. Mr. Wells recently moved his family to Clackamas, and, for the present occupies the Bailey place.

The croquet ground in Maple grove is well patronized these days. An ice cream social in the grove is advertised for Wednesday evening, August 1. Mrs. M. E. Prettyman entertained friends from Portland Sunday.

SHOOTING DOGS EXPENSIVE FUN

Molalla, July 31.—When the five lads returned from their fishing trip there was a warrant awaiting for them here for shooting a dog. One pleaded guilty and settled his fine, promising also to settle with the old lady for shooting her geese.

J. V. Harless runs a transfer to Wilhoit, leaving here after the mail stage comes in.

The weather is very pleasant since the electrical storms.

THIS IS BOY YEAR SO SAYS MR. STORK

Wilsonville, July 31.—Born to the wife of E. L. Baker, of Wilsonville, a son.

ROCK CREEK AND SUNNYSIDE

Threshing has begun at Sunnyside, with good yield. Fall grain is about all ripe and cut. Farmers are very busy. James Reed will start around with his thresher this week. I hope he will do well.

Rhoda Smith was visiting Mr. Stolla Sunday, and Grandpa Johnson and Mrs. S. E. Reed spent the day at J. E. Deardorff's. Mrs. S. Davis and daughter were also visiting there in the afternoon. Mrs. Reed expects to go back to eastern Oregon soon.

There was quite a gathering of people at W. Smith's Sunday evening, to practice singing and learn new songs. All seemed to enjoy the music very much. I believe they intend meeting at Mr. Stoll's next Sunday evening. Sunday School was well attended at Rock Creek, Sunday.

THE CHARM OF A CLEAR COMPLEXION.

Nothing lends more to personal attractiveness than the clear skin and fresh complexion that comes to those who use Laxicola tablets, trial size 5 cents, a guaranteed cure for sallowness and constipation. Huntley Bros.

FIRE NEAR MOLALLA DUE TO LIGHTNING

Dead Tree Set on Fire by Bolt but Flames Now Under Control.

Molalla, July 31.—Lightning struck a dead tree in a clump of seven in a field, Saturday, setting the splintered tree on fire. Other trees took fire and burned down.

John Cross and Ray Davidson were running a binder 50 yards from the tree when the lightning struck it. The horses were dazed, John was shaky about calling on his maker, Royal was "whiter than snow," yet they managed to realize the situation enough to unhitch and flee for the house. At present the fire has been confined to the immediate vicinity, two miles southwest of Molalla.

Threshing machines have started to dispose of the great task before them. Peter L. Schamel has his new hay baler in constant operation.

There was a thunder storm Saturday and a few longest rain drops that we ever saw.

Robbins Bros. have purchased a National Cash Register, one that you press the keys and then turn a crank and it does all the rest without making a mistake. Then at night after the sales, the boss comes along with his two dozen keys on a ring, and unlocks the complicated machine when it shows up the work of each clerk for the day with the cash, which he transfers to a "byas skookum" safe for the night.

FIRST THRESHING REPORT FOR 1906

Robert Vorpahl Makes First Test of His Grain—Says Yield Fairly Good.

Union Hall, July 31.—Charles Pipka and two sons are hauling telephone poles to Canby.

People passed here Monday enroute to the Spiritualist camp meeting being held at the camp grounds at New Era.

Charles Thomas contemplates getting out some saw logs for Adkins' sawmill.

Robert Vorpahl has already thresh-

ed his grain. The yield was fairly good.

Mr. Grimes is helping Mr. Killen get out cedar posts, that are to be delivered at Canby.

James Wilkerson is peddling vegetables at Canby.

Alfred Smith of Prune Hill, was visiting Joseph Perringer, Sunday.

Mrs. Jane Parker, who has been visiting her son Calvin here, is going back to her home at The Dalles in the near future.

Alvin Phelps has been running his self-binder, cutting his own grain and also for some of his neighbors.

The hay balers have started up already.

John Thomas and son Rory made a business trip to Canby Saturday.

Mrs. Austin, who lives near Liberal, passed through here one day last week, delivering books that describe the San Francisco disaster.

W. S. Dunton, of Molalla, was calling on friends here one day last week.

Charles Bauman has several stacks of hay waiting for the baler.

There is more oats in these parts this year than there has been for a long time.

The dry weather is hard on all gardens.

Truths About Artificial Teeth

The great majority of dentists represent to their patients that a rubber plate with fourteen teeth set in a half circle is just as good as anything else for a set of artificial teeth.

Some make such representations knowing them to be false, others because they know no better.

The responsibility for this condition rests with the dental profession.

A great many people would not accept a rubber or celluloid plate if they only understood the superiority of a metal plate in cleanliness, healthfulness and durability.

We would like to talk to with you about metal plates for artificial teeth.

Seventeen years in dentistry in Oregon City. Post Graduate Haskell & Chicago School of Dentistry.

We guarantee to please you.

A square deal to everyone.
