# To Clean Hard Wood.

Spread paraffine oil on the soiled woodwork and let it stand for an hour or more to soften the dirt, then wash with soap and warm water and

Next rub on a mixture of paraffine oil and turpentine-one-third turpentine and two-thirds oil. Polish with soft flannel. Let it rest an hour or two, then polish with soft old linen.

If the surface is very dull, dirty and scratched, instead of washing with soap and water, add more oil and sprinkle powdered rottenstone over it. Rub gently and regularly first with a circular motion and then with the grain of the wood. When the surface is smooth and bright wipe off the rottenstone and finish as you would after washing with soap and water.

"Make Hay While the Sun Shines." There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal.
