### BIG SLASHING FIRE AT BEAVER CREEK

Hay, Straw, Fences and Poles Burned—Many Acres Devastated by Flames.

Beaver Creek, Aug. 22.—Nearly everybody here is through threshing. A fire started here Tuesday noon from a slashing set by Wm. Lewellyn. It got away and burned up about 6000 feet of rail fence and a lot of board fence, also hay and stubble fields were burned. Only for the mutual telephone many dwellings would have been burned. Help was immediately called. Baling and threshing crews came with water tanks and rendered great help. Mrs. Fane Edwards suffered the most loss, including two stacks of straw and about ten tons of hay. The fire is now under control.

Miss Laura Parry was visiting the Davis brothers a few days last week. Rev. R. M. Jones of Portland, was visiting friends here last week. Rev. Wm. Mason, who has been living here for a few years, started for his old home in Wales, Tuesday.

#### Unnecessary Expense.

Acute attacks of colic and diarrhoea come on without warning and prompt relief must be obtained. There is no necessity of incurring the expense of a physician's service in such cases if Chamberlain's Cholera, Colic and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before the doctor could arrive. It has never been known to fail, even in the most severe and dangerous cases and no family should be without it. For sale by Howell & Jones.

### SUNNYSIDE AND ROCK CREEK

Three threshers are working close to here; grain turning out well. Some are commencing to bale their hay and straw. J. H. Reed has a new steam baler and is intending to start to work with it as soon as he is through threshing. Mrs. Emma Chitwood has been enjoying herself for a month at the coast. Mr. and Mrs. Geo. Deardorf are enjoying the company of Mrs. George Harvey and son for a few days. Mrs. Deardorf has a very sore thumb. Milton Donley will start away to work Wednesday. About all the houses have been numbered, and the street signs are up. Now if the weeds and thistles were cut down and a few people would keep the papers and rubbish out of the street we would feel like we were living in the city.

I noticed one of our town council and the water commission with a string going along the street and surmised they were measuring for a water main toward the cemetery. Hope they will put in a water main; it's needed. Our part of the city pays its share of the city expenses and we need some of the benefits derived.

### CASTORIA.

The Kind You Have Always Bought Bears the Signature of **Chas. H. Fletcher**

Too Much For Him.

The proprietor of a tanyard built a stand on one of the main streets of a Virginia town for the purpose of selling leather and buying new hides.

When he had completed the building he considered for a long time what sort of sign to put up to attract attention to the new establishment. Finally a happy thought struck him. He bored an auger hole through the door-post and stuck a calf's tail into it with the tufted end outside.

After a while he saw a solemn-faced man standing near the door looking at the sign, his eyes in a round, meditative stare behind his spectacles. The tanner watched him a minute, then stepped out and addressed him.

"Good morning, sir," he said. "Morning," said the other without taking his eyes off the sign.

"Want to buy leather?" asked the tanner.

"No."

"Got any hides to sell?"

"No."

"Are you a farmer?"

"No."

"Merchant?"

"No."

"Lawyer?"

"No."

"Doctor?"

"No."

"What are you, then?"

"I'm a philosopher. I've been standing here for an hour trying to figure out how that calf got through that auger hole."
