**FURNITURE FACTORY BEHIND  
ITS ORDERS.**

The Oswald Furniture company, which was formerly operated by Frank Busch but which is now leased by Frank Oswald, is doing a rushing business, to such an extent that local business has become a thing of the past. Orders from all over the West are being received every day and the plant finds a market for its products in Oklahoma and Oakland, California. Since the San Francisco fire a great impetus has been given the business which the present management has been quick to take advantage of. At the present time the company can not make furniture fast enough to supply the orders that should have

been filled by firms in the burned city. The plant has its limitations on account of machinery smallness of equipment but such as it is a full force of men are being kept busy.

The principal product of the mill is extension dining room tables and all case furniture.

**The Breath of Life.**

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens, of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung trouble." Guaranteed by Howell & Jones, druggists. Price 50c and \$1.00. Trial bottle free.

**J. P. NOT QUALIFIED  
TO TRY THE CASE**

Estacada, Sept. 25—Before Justice of the Peace Worner the assault case, in which Chris Kelly, George Simmons and Frank Brown, of Oregon City, were defendants, was argued Monday night, and the case dismissed. Attorney George C. Brownell of Oregon City appeared for the defendants, who were arraigned on information supplied by Marshal John Lovelace. The case was thrown out for the reason that the Oregon City attorney proved that the justice of the peace in question had no jurisdiction over that court while he was in the office of city recorder and for the further reason of not taking oath of office by the constitution of the state.

**BRIDGE AT SCOTTS  
MILLS IS UNSAFE**

Structure Across Butte Creek Has Been Condemned—New One Ordered.

County Judge Grant B. Dimick announced Monday morning that bids were being advertised for today for the construction of the new bridge at Scott's Mills, which is to be built jointly by this county and Marion county. The plans and specifications are on file at the county judge's office and it is estimated that the bridge will cost about \$1200.

The bridge will be built about 20 feet below the present structure and will have an 80-foot span, which is 18 feet shorter than the old one. The bridge will be thoroughly modern in every particular and will be supported by concrete abutments.

The old bridge has been condemned and is unsafe for traffic. Jack screws have been put under it to prevent its collapse. Scott's Mills is located in the southern part of the county on Butte creek, which is the boundary line between this county and Marion. The point is one which requires a good bridge as there is much travel between the agricultural sections of the counties which are adjacent.

**PLANT TROUT FRY  
IN MOLALLA RIVER**

Stream Stocked With Game Fish Thru Efforts of Oregon City Men.

The sportsmen of this city are beginning to realize the fact that unless the fishing streams of this county are occasionally re-stocked there will come a time shortly when there will be no more fishing for them. Accordingly, on application made to the Government Fish Commission, several kinds of trout fry have been furnished the local lovers of the sport who have planted the young fish in various streams in the county.

Saturday, C. G. Huntley and Fred Humphrey received 12,000 Black Spotted trout fry, which were planted in the Molalla river in the afternoon. This stream is one of the best haunts of the trout, but of late years has been pretty well fished out and would have been but for the work of such devotees of the sport as Mr. Huntley and Mr. Humphrey.

Clear Creek is beginning to be fished out as is also Milk Creek. Both of these streams have been planted with fish during the past few years and the result is already seen by the fly casters.

In this connection the Government is doing a great service and with the co-operation of the sportsmen of this city there should be no danger in the future of the streams reaching the "fished out" stage.
