Council Transacts Large Amount of Business—Sidewalks Wanted at Top of South Hill Road.

The session of the council Wednesday evening was marked by the amount of work that was accomplished and the length of time it took to do it. As it was the regular monthly meeting and the end of the quarter, the reports of the officers were read and the meeting did not adjourn until 11 o'clock.

Mayor Caulfield called the meeting to order and the following councilmen responded to roll call: Andresen, Brandt, Harrington, Justin, Knapp, Straight and Williams.

The question arising as to what was to be done with the city water cart, it was ordered that Chief of Police Charles Burns be instructed to find some suitable place for it to stay during the winter. The chief has in mind a barn in Greenpoint and if the wagon can be taken inside it is

likely that there is where it will remain until the dry season of next year.

It has been proposed to open Washington street between Second and Third, but the property owners on that part of the street were ready with a remonstrance and the matter was referred to the street committee. On the South End road the people living at the top desire a sidewalk and Mr. Telford was ready with a petition asking that the city extend one to the city limits. The city is willing to do this if the county will respond with one to the top of the hill.

The Oregon City Aerie, Order of Eagles, purchased the J. Q. Adams street improvement bonds for \$356.16. The reports of the City Treasurer and City Recorder were read and ordered filed. The report of Treasurer Latourette was referred to the finance committee.

A big grist of the accumulated bills of the month were examined and ordered paid.

The only bid for a street culvert was left with the street committee.

The bond resolution advising the cancelling of the Center street bonds in the sum of \$270 was read and adopted.

Councilman Knapp introduced his bank resolution, which provides for the establishment of Postal Savings banks.

On the report of Engineer H. A. Rands a warrant for a portion of the contract amount was ordered drawn in favor of the contractor for the bridge over the gulch on Madison street. The bridge is one-fourth completed. The estimate of the engineer for

the improvement of Sixth street was read and the amount, \$299.06, was ordered paid. The contract entered into by the mayor and recorder with Harry Jones, for removal of rock on Washington street, was approved. The work will cost 75 cents a yard, the city to pay one-third and the property owners two-thirds.

The matter of conducting the next city election was brought up and the question referred to the finance committee and City Recorder W. A. Dim-

ick, who will look into the law of the election. It is assumed that the primary method will not have to be used as it will cost the city in the neighborhood of \$125. It is thought that by the candidates running on a citizens' or independent ticket there will be no expense of registration as the primaries would require and that candidates would be provided as in former elections.

After instructing the city attorney to advise the collectors of road poll tax to use the law in collecting from delinquents, the council adjourned.
