### IF HEARST WINS.

Such an impartial and experienced newspaper correspondent as "Sunner" of the Chicago Record-Herald, says Hearst will probably win in New York next Tuesday.

If Hearst wins, close observers of the political trend will not be surprised. And some men who have no use for Hearst and deplore the class feeling he creates, will not be displeased at his victory.

The sooner the false antagonism between capital and labor is brought to a crisis, the easier it will be to kill that animosity forever.

Nothing will so quickly clear away the mists of falsehood and misunderstanding as responsibility put upon those who have conjured up the fog.

### GOULD WISDOM.

George Gould says he's willing, as a railroad man, to sell his roads to the government. Price not stated.

As a citizen, however, Mr. Gould is opposed to government ownership, because, in his opinion, private ownership is better able to rob the people by exorbitant freight and passenger tariffs, and rob the laborers by lower wages. Of course Mr. Gould did not use those words but that is the plain English of what he did say.

He also professes to believe that the collective wisdom of the country is less than that of single citizens who make up that country. In other words, a part is greater than the whole.

George is a very wise man.

### IN PRAISE OF BOOKS.

If anybody would make me the greatest king that ever lived, with palaces and gardens, and fine dinners, and wine and coaches, and beautiful clothes, and hundreds of servants, on condition that I would not read books, I would not be a king—I would rather be a poor man in a garret with plenty of books, than a king who did not love reading.—Macaulay.

It is asserted that money is pouring into Colorado from all over the United States, and other countries, at the rate of \$500 a day, to assist Haywood's campaign for the governorship. Haywood is in jail. The Denver Post, commenting on the situation says the Socialists differ from the average Republican or Democrat, or Independent, in that, if they are truly sincere, they will contribute out of small incomes to their cause, whereas the regular parties have to milk corporations, or put up rich candidates or assess office-holders, to pay campaign expenses.

The proposal, originating with The Dalles Optimist we believe, for the legislators to ignore the selections by the people for United States Senator, is bad advice. Bourne and Mulkey are no worse now than when they won at the primary. A legislator who pledged himself to obey the primary result would perform a dishonest act if he broke that pledge.

Good men are being put up for city offices. There seems to be no live, local issue just at present to test whether the prospective officials are progressive as well as good, but that qualification should not be ignored. The test may come long before the men elected in December complete their terms of office.

John D. Rockefeller accuses the Japanese of commercial treachery. If there is anyone who should be a judge of commercial treachery, John D. is the man. Expert testimony always carries weight.

If every thing that is being said of the New York campaign now is true, the grand jury ought to indict both candidates for felony. And if it isn't true, it ought to indict them for perjury.

A mob down in Arkansas admits that it made a mistake and lynched the wrong man. But it promises to repeat the operation as often as is necessary till it gets the right one.

"Healers," "Holy Rollers," and all that ilk need a six months' sentence to a hand wood saw and saw buck.

That would sweat most of the nonsense out of them.

Attorney General Moody will be appointed an associate justice of the supreme court to fill vacancy made by retirement of Henry B. Brown.

why your baby should be thin, and fretful during the night. Worms are the cause of thin, sickly babies. It is natural that a healthy baby should be fat and sleep well.
