The Oregon City Manufacturing Co. is having several windows placed in the northeast corner of their building, which will give much better light in the company's offices.

Mr. Cochran and Fred Younger of Portland, were guests Thursday of Mr. and Mrs. F. G. Lent. Mr. Younger is a son of the master mechanic of the S. P. lines in Oregon.

The millinery establishment of Mesdames Shively and Hatcher on Seventh street has its window beautifully decorated during the Christmas season with handsome hand-painted burnt wood novelties and potted plants.

A window that has attracted a great deal of attention on the hill is the one of the Seventh street Bakery, owned by Walter & Doring. All the good things in the eatable line are arranged around a beautiful Christmas tree set in a bank of snow.

Among the Seventh street stores who have taken pains of decorating their windows for the holiday recess are Robertson's, Jack's and Seeley's. All these have their windows filled with all the good things that are required to make out the Christmas dinner.

Many a young maiden has stopped in front of Little's confectionery store during the last week, wondering which of the beautiful boxes of bon bons Santa would bring. The effect in the window is especially neat—a pretty tree loaded with baskets of fruit and bonbons.

A carload of 24 heifers arrived in Oregon City for the Christmas trade. The lot was purchased in Eastern Oregon and certainly are the best looking animals seen in this city for some time. The buyer was Petzold, the butcher, who says he is going to give the people of Oregon City rich meat during the holidays.

"The Hesperian," the publication of the pupils of the Oregon City High School, was scattered among the pupils of the schools Friday morning and received the general approval of all. The issue contains a number of very creditable essays, poems and other literary efforts of the pupils. The editorial work and in fact all down to the local work shows much study. The December issue is brightened with several cuts, one of the Eastham school building and of Judge Thomas F. Ryan.

Bud Thompson of Hubbard was in Oregon City on business Monday, but found time to leave an immense turkey for his friend, County Judge Dimick as a Christmas gift.

A. K. Knapp of the firm of Knapp & Nobel, has received a letter from P. H. Killo, of Blue River. Mr. Killo is an experienced miner and has been employed by the Crown Boys Mining & Milling company to conduct their operations. He writes to Mr. Knapp that they have just started on the second one hundred feet of the tunnel. The miner speaks in terms of much encouragement and says the mine is a wonder and prospects fine. "It is a fine layout for a smelter as the mine has a big ore chute. The rock is rather hard at present but on the beginning of the second 100 feet it tends towards running into good stuff." Mr. Killo went on to say that the Crown Boys Mine is no doubt the best mine in the Blue River district today, and chances are that the ore will show in great quality. Samples of the ore are expected now any time.

The Oregon City Foundry Thursday afternoon installed an oil furnace to be used in conjunction with the making of brass castings. The same has proven very successful when experimented with and Mr. Roake will now place three others. The burners used up to this time have been coke burners and when brass castings are required to be made the loss of metal is very large. The new oil burning furnaces reduce the expense to quite a degree as the combustion is done much quicker and there is apparently no waste of the metal as with the coke furnaces. The object in putting the three other furnaces is to double the capacity of work and in doing it in perhaps less time than before. However for iron castings the old furnace will be brought into use.

Some time ago a new club for the boys and young men was undertaken by a few of the boys and business men. Mr. Young who runs a shooting gallery on the lower floor of the armory building was to let the boys have the rear half of the building and he had gone so far as to get donations of cash from business men and had received enough to have the plan paid for the first month. He had also secured the apparatus formerly in use at the Y. M. C. A. and some generous draymen had volunteered to haul the outfit to the Armory building, when the movement was knocked in the head. It is very doubtful now whether the boys will go on and perfect the organization. The plan seemed to have very good backing among the business men and after the first month the boys were to have the same on a paying basis. Friday morning a sign "a storage room for rent" was seen in the front window of the shooting gallery, indicating that the organization of the movement had fallen through.

**Choose Your Druggist Carefully**

A druggist can do more harm or good than most people give him credit for.

There are different qualities in drugs just as there are in dry goods, and to the outsider all qualities go by the same name. The difference between pure high-grade drugs and cheap, inferior drugs of the same name, means the difference between keeping sick and getting well.

When a doctor writes a prescription he means best quality. When some druggists fill a prescription they think only about big profits.

**Every Drop of Medicine . . .**

that goes in a prescription filled in this store is perfectly pure. Pure drugs mean a speedy recovery. Poor drugs mean a relapse. You want the best. Let us fill your prescriptions.

We are giving away free, while they last, a 25 cent box of soap with a 25 cent pair of scissors for 25 cents.

**HOWELL & JONES**  
Reliable Druggists.

**Spraying a Small Orchard**  
Requires a small spray pump—but a good one. You want just as good fruit as the owners of large orchards who use power sprayers—and you can have it. Any spray pump has done its part when it provides a high, even pressure, keeps the spraying material well stirred, gives no trouble, and works reasonably easy.

**Bean's Little Giant Pump**  
does all this and more. When we say it "keeps the material well stirred" we mean it too, and it's important if you want good fruit. And the "no trouble" feature lets you feel good natured after the days spraying is over. The valves can't clog, the stuffing box can't leak (because there isn't any) and the pump is so simple it is a pleasure to use it. Of course we have good pumps cheaper but **Bean's Little Giant** is altogether the best barrel pump ever offered for spraying small acreage. Also a splendid white-washer.

We have samples of these pumps in stock and will be pleased to show them to you.
