HORSE KILLED OVER \$1100 PLEDGED ON MAIN STREET FOR BUILDING THE McLOUGHLIN SCHOOL

ANIMAL OWNED BY R. PETZOLD FRIGHTENED BY BAND AND RUNS AWAY.

Slips and Strikes Hydrant With Force to Bend it to Pavement—Internal Injuries Causes Death.

The band of "Jerry from Kerry" while giving a free open air concert on the streets and while parading Monday, scared the horse of R. Petzold, the butcher. The horse, a beautiful bay, was so frightened at the music, that it broke loose while standing in front of the meat market and tore at terrific speed up Main street.

The frightened animal could not be stopped by many men on the street and ran for several blocks at a break-neck speed. On coming to the corner of Fifth street opposite to the Mount Hood Cafe it shied to the left as if attempting to run up Fifth street toward the railroad track. So fast was it traveling on the slippery pavement around the corner its legs gave way landing the animal against one of the fire hydrants. The force was so terrific that the hydrant was bent nearly double, almost touching the sidewalk. The horse lay there for some time until the owner came down to the scene. The horse was raised to its feet with difficulty, having suffered severe internal injuries. It was slowly and with difficulty led to the Moody livery stable where it was examined. The animal was in bad shape and had to hobble along on three legs to the barn. About two o'clock the horse was reported dead.

LIBERAL SUBSCRIPTION ALREADY ENCOURAGES THE COMMITTEE IN CHARGE.

Architects Plans Show Handsome Structure Will Be Erected—Building Operations to Begin April 1.

The committee in charge of the finances for the building of the McLoughlin Institute on the property of the St. John's Catholic church, is receiving very much encouragement and donations have begun to come in. By the time that the building is ready to be begun, much of the money needed will have been subscribed and the institute placed upon a good financial basis.

Up to this date the persons in charge are able to give to the public the names of the following generous donors: Archbishop Christie, \$500; Rev. Hillebrand, \$200; Frank Busch, \$200; Rev. A. Lainck of Sublimity, \$100; and many others for the first year \$25 and who also have promised a similar amount during the next four years.

These donations are indeed very encouraging and no doubt persons from every part of the state will contribute to the cause of such a monument to the memory of the old pioneer that had so much to do with the founding of our city.

Reports of other donations will be given from time to time in the pages of the Star.

As the first floor is to be built of concrete, good weather will be required for such work, but the building committee expects to have operations begin by the first of April.

The "McLoughlin Institute of Learning" will be mostly of stone with a basement of concrete. The general appearance of the building gives a beautiful square effect and gives one the impression of the Portland Library building. The building will contain five recitation rooms, a recreation room for the boys and girls during the rainy days of the winter and a hall for the different school meetings, socials and entertainments. The building is to be three stories—two upper floors and a large roomy basement. A picture of it is in the corner window at Frank Busch's.
