## IS YOUR HOUSE WIRED

If not don't delay, but get it wired at once. The wires put you in touch with a world of comfort that the dweller in a wireless house can never appreciate. Good light alone is sufficient reason for having it wired, but there are many other reasons. When you have electric connection you will find a dozen uses for the current, all contributing so much to the pleasure of living that you'll wonder how you ever did without them.

At odd times you'll pick up little electric devices, rendering one service or another economically and quickly, and presently you'll be living in an electric home, amid greater comforts and conveniences than you ever dreamed of.
