GRILLING GEER.

Ex-Governor Geer, editing the Pendleton Tribune, is in a hot controversy with Valley papers over whether the late legislature was spottish or the worst ever, he contending the members were like the lady in white who traveled on the road of anthracite.

First. Does he think the legislature did right in expending \$100,000 for armories?

Second. Does he think it did right in passing a bill paying Jeff Myers \$2500 for services that he was to do for nothing; in fact in the face of a law which declared he should do the work without any compensation whatever?

Third. Does he approve of appropriating \$2000 for every graduate our state university turns out in a year; in short, for appropriating \$125,000 a year to a college that does little more work on that sum than Willamette University does on \$20,000 a year?

Fourth. Does Mr. Geer favor the official pass bill—a bill that has made Oregon the laughing stock of the world—a bill passed in defiance of the will of the people as expressed by referendum vote?

Fifth. Does Mr. Geer think the late lamented night-mare, mis-called legislature, did right in appropriating a million dollars more than any legislature that ever met in Oregon?

Sixth. Does Mr. Geer think Mr. James U. Campbell was right when he publicly declared that the only way to get the late legislature to pass any bill, was to tack on an appropriation, and then it would go through like a shot?

HONESTY IS AN ENIGMA.

President Roosevelt is an enigma to the Albany Democrat, because he does not travel in the groove some men follow. It cannot understand, yet it believes, that Roosevelt is sincere in declining another nomination. It approves of his policies and excuses its approval by saying they are Democratic policies. It finally concludes that Roosevelt is a pretty good Democrat and that the real Republicans are Platt, Depew, Harriman, Morgan, Rockefeller and Fairbanks, "the real party now being plutocratic."

There is partisanship of the 30 years ago variety. Didn't know it survived in Oregon. The editor of that paper knows that nine-tenths of the Republicans north of the Ohio river are Roosevelt men—that is believers in and insistent upon the policies for which he stands. And to tell the whole truth, probably three-fourths of the Democrats believe likewise, one-eighth of the remainder being more radical while the other one-eighth, the Ryans, Whitneys, Belmonts, Ferrys, Davises, and their ilk are of the "safe and sane" variety and herd with the Republican plutes.

UNION HIGH SCHOOL.

One of the best features in the Dye union high school law is the authority given the union board to maintain a department of manual training in connection with the high school.

Men who are closely in touch with the trend of public school courses of study are saying it will be only a few years until most of the so-called "fads" are dropped and a good course of manual training, and even full apprenticeship course in trades will be deemed

indispensable parts of a common and high school education.

The bill is a good one in all its main features. Read the summary of it by Mr. Dye, published in this paper, and judge of it for yourself.

The move started by the graduates of the Barclay school for a union high school here, is a grand one, and should succeed as no doubt it will.

The children of Gladstone, Park-place, Mt. Pleasant, Canemah, Willamette, the West Side and Oregon City are entitled to as good an education as furnished by any community of like size in the state. We can afford it as well as any; we surely are as enlightened as any. The expense is comparatively small.

The government experts, backed by President Roosevelt and the Attorney General, have decided that blended whisky is not whisky at all, but an imitation composed of neutral or cologne spirits, a little whisky to flavor it and burnt sugar to color it. As "blended whisky" constitutes about four-fifths of what is sold as whisky a lot of people who have been drinking what they supposed was whisky for years, will be surprised to learn they have never really taken a drink of whisky.

Books for Oregon's public schools will be selected by the State Text-book commission next June. Several exchanges are likely to be made in texts for the primary and grammar grades, says the Ashland Tidings. There is general sentiment among educators that the Thomas history, the Cyr first and second readers, Wentworth arithmetic, the Reed speller, the Reed and Kellogg grammar and the Frye geography should give way to newer books.

On account of an error in the University of Oregon referendum petitions in Linn county it is necessary to recirculate them. The certificate that it is believed the names are all those of legal voters under a new law has to be made by the person circulating the petition. This was omitted and the work will have to be done over.

New York papers are less concerned about where the truth is in the Harriman-Roosevelt controversy than they are about what Europe will think of the row. New York city, disloyal in war time, corrupt and contaminating during peace, is the most un-American spot between the Atlantic and Pacific. It is a cankerous sore on the body politic, and the only cure for it is the knife.

The Salem Capital Journal runs daily about eight or ten items of current news designed for public school children. It is feeding the pupils false statements if this one published Thursday is a sample: "The Clackamas county grange refused to recede from its determination to take a referendum vote on the State University biennial appropriation of \$250,000."

The last several weeks of intermittent showers in the Willamette valley would not be considered a "wet spell" over on the coast where they have had twice as much rain during the same period.

BOLTON.

Clyde Hughes has hired M. T. Washburn to build him a house on his land adjoining John Graw. Don Shaw has purchased four acres of the Latour-ette place and will build this summer.

M. T. Washburn had his goats sheared last week. The cold rain which began to fall the next day was pretty hard on the shorn animals.

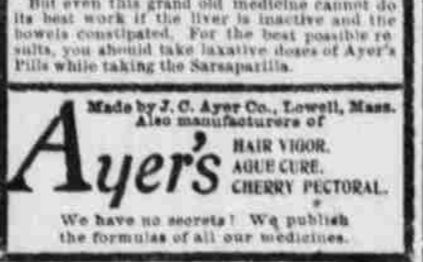

Mrs. Lula Yager of Woodstock visited her parents, Mr. and Mrs. Washburn, Wednesday.

Miss Merle Shelley after a visit with her mother, Mrs. M. T. Washburn has gone to Portland where she has work.

William Boerner and family have

For Thin, Poor Blood

You can trust a medicine tested 60 years! Sixty years of experience, think of that! Experience with Ayer's Sarsaparilla; the original Sarsaparilla; the Sarsaparilla the doctors endorse for thin blood, weak nerves, general debility.

Moved to Clackamas Heights near his wife's parents, Mr. and Mrs. Zinsler, John Graw bought his house and four acres of land.

WILLAMETTE.

A merry crowd of young people met at the home of Conductor Mass of the Willamette Falls street car line, Friday evening, to celebrate the thirtieth birthday anniversary of his son Ernest. There were twenty of Ernest's friends present to enjoy the evening with him, and all had a splendid time, with a variety of games. When the refreshments were served, which were especially enjoyed, a beautiful birthday cake was cut containing four dimes and a penny. The slices with the dimes went to Rosa Lynn, Lizzie Roddy, Genevieve Capen and Raymond Olson, and the penny slice to Carrie Warner. The cutting of the cake made lots of fun. The company wish Ernest many happy returns of the day.

EAST CLACKAMAS NOTES OF INTEREST

From the Estacada News.

Born, on Sunday morning, April 7, to Mr. and Mrs. R. S. Coop, a boy.

The cow that kicked J. P. Irvin, and by doing so laid him up for more than a week, is no gentleman.

T. Paulson was over from Dodge and wanted rural phone and mail route over his way.

Miss Florence Buchanan, teacher in the Tracy school, closed her school for this week on account of grip, and will stay with her sister in Portland till she recovers.

In spite of a hunting expedition organized last Monday at Currinsville that coyote is still at large.

L. W. Van Dyke has purchased a 40-acre fruit ranch one mile from Red Bluff, Cal., on the banks of the Sacramento river. The place has several acres of bearing fruit trees of different varieties. Mr. Van Dyke will remain there. The family intends going about the 23d.

David Bridenstine, road overseer for Garfield district, has secured all necessary help from the county to build a good bridge over the Wade creek just north of town. Some grading will be done and gravel or plank will be laid to connect with the improved road in both directions.

Fern Hive was awarded the second prize at the Maccabee convention in Portland, for having the largest delegation of members present, 22 ladies going down; also the 3d prize for having secured the largest number of benefit members since January 1, 1907, six new members having been added. When the prizes (\$10) were awarded, Mrs. Hollister said, "Evidently there is something more out at Estacada than dolls stuffed with sawdust."

Oregon Eighth in Lumber.

The national forestry service has made public its estimate of the annual production of lumber in this country at 100,000,000 cords, valued at \$1,020,000,000. The state of Washington ranks first, with an output of 4,000,000,000 feet, and next in order come Wisconsin, Louisiana, Minnesota, Michigan, Arkansas, Pennsylvania, Mississippi, Oregon, North Carolina, California, Texas, Alabama, Maine, Virginia, Georgia, West Virginia, Florida, New York, Tennessee, South Carolina, Kentucky, Missouri, Indiana, New Hampshire, Ohio, Vermont, Massachusetts, Idaho, Montana, Maryland, Iowa, Illinois.

The people of Brownsville, Linn county are going to have a fruit and vegetable cannery, and to secure an adequate supply of produce the promoters of the factory have 150 acres of land adjoining the site of their cannery, which they have sold out in small tracts with the agreement that produce for the establishment will be raised thereon.

CIRCUS IS COMING; JOY FOR EVERYBODY

NORRIS & ROWE'S SHOWS BILLED FOR OREGON CITY—JUBILEE SOUVENIR SEASON.

Circus is coming! That's joy enough for the little folk, and very few of the older ones bear the announcement without a tinge of fond remembrance, followed by immediate plans to take their youngsters to "see the animals," for what parent is so selfish as to deny his own children the innocent joys of his own youth?

Mr. Norris, brother of the senior member of Norris & Rowe, was in Oregon City, Friday, contracting for grounds, feed, advertising, etc., for an exhibition of that well known show in Oregon City on Friday, May 3.

The proprietors say their show this season has many innovations and improvements. It will mark the 20th year of their co-partnership and to fittingly celebrate the occasion, the tour will be known as "The Jubilee Souvenir Season." They have had made to their order, hundreds of thousands of costly and pretty souvenirs that will be distributed free to their patrons. It is the first season they travel in three sections of fifteen cars each, making their circus train forty-five cars in all. It is a fact that the Norris & Rowe circus has grown larger and faster than any other show in the world. It was always a railroad circus and never a wagon show as all other American circuses were at their inception. The parade this year will be a gorgeous pageant. They will have more bare-back somersault riders, both male and female than ever before and more gymnasts, acrobats, aerial and mid-air acts, trained wild and domestic animals, bicycle acts, marching Shetland ponies, drilled Arabian stallions, camels, dromedaries, llamas, hippodrome races and arenic features of a sensational nature than they have ever presented before.

The menagerie has grown greatly by purchase and numerous births at the winter quarters. A pair of tiny cub lions, four Siberian bear cubs and a baby tigress are among the native sons and daughters of most interest. The show has the greatest spread of all new canvas that they ever exhibited under. This western circus has always received a cordial welcome here and the coming season should prove no exception.

The Albright pasture north of town has been secured for show grounds here.

Uncle Hiram and the Circus. I've said it time an' time agin. Goin' to circus ain't no sin. A circus is a moral show. I can't convince Malviny though.

I've argued up an' argued down. But all she'll say is: "Hiram Brown. What would you think, supposin' I should wear such skirts an' kick so high?"

Down East, where circus folks is from. It's style to skip the pattern some; And I've been told that 'evenin' dress' is always lackin' more or less!

But I've g'n' up; so here I be A-trimmin' this dum'd apple tree. With all this fun agoin' on, And half the dad-blamed county gone!

The finest sight I ever see, Is what they call the grand en-tree. With the horses pawin' up the ground, And elephants cavortin' round.

The band a-playin' lickety-split, The big drum just agoin' it— You can't keep still. You toss y'r hat; "Kee! Yee!" you holler—just like that!

The flutterin' flags, the tanbark scent, The lions roarin' in the tent, The crowds of people ev'rywhere— Oh, drat the luck! Wish't I was there!

You goin' say? You needn't be Surprised if you get sight of me, About the time them fellows gets To turnin' twistin' summersets! —F. L. Rose.

BLOODED HOUNDS KILLED BY POISON

Two of the blooded Kentucky hounds owned by John Vaughan on the Vaughan ranch southeast of town were poisoned, Thursday. The hounds had been taken over to Beaver Creek for a wolf hunt. One wolf was run down and the dogs started another and followed it toward the Vaughan ranch. On the way they found poison that had been put out for coyotes and carelessly left. One dog was found dead. The other has not been found but it is probably lying dead in the woods as both hounds were together when last seen. The hounds cost \$100 each in Kentucky and it cost \$30 to bring them to Oregon City.

"Cherry-Blossom."

THE JAPANESE GIVE GOOD EXAMPLE

It is a proverb of Cherry Blossom Land that a healthy stomach is the basis of all strength. Good nature is also recognized as of great importance. The Japanese as a people are remarkable for their health, endurance, patience and skill.

The cherry tree is the most highly prized of all in Japan. It not only gives forth a beautiful blossom but the wild cherry tree furnishes a bark which is most highly prized in medicine.

Wild Cherry (Prunus Virginiana).

The UNITED STATES DISPENSATORY, which is an authority on medicines, says of the properties of this Black Cherrybark: "Uniting with a tonic power the property of calming irritation and diminishing nervous excitability. Adapted to the treatment of diseases in which there is debility of the stomach or of the system." Another authority, KING'S AMERICAN DISPENSATORY says, "it gives tone and strength to the system, useful in fever, cough, and found excellent in consumption." This ingredient is only one of several very important native, medicinal roots in Dr. Pierce's Golden Medical Discovery. This is a remedy which has enjoyed the public approval for nearly forty years, nothing new or untried about it, has cured thousands of people of those chronic, weakening diseases which are accompanied by a cough, such as bronchitis and incipient consumption. More than that, by reason of the other ingredients, Bloodroot, Mandrake, Golden Seal, and Queen's root, all of the medicinal virtues of which are scientifically extracted and combined in Dr. Pierce's Golden Medical Discovery, remarkable cures of dyspepsia and stomach disorders have been accomplished.

Nearly forty years ago, Dr. Pierce discovered that chemically pure glycerine of proper strength is a better solvent and preservative of the active medicinal principles residing in most of our indigenous or native medicinal plants than is alcohol. As its use is entirely unobjectionable, while alcohol is well known when used even in small portions, for a protracted period, to do lasting injury to the human system, especially in the case of delicate women and children, he decided to use chemically pure glycerine instead of the usually employed alcohol in the preparation of his medicines. He found that the glycerine, besides being entirely harmless, possesses intrinsic medicinal properties of great value. Its nutritive properties, and its ability to soothe the inflamed and irritated mucous membranes, in all cases of incipient consumption and other wasting diseases. It is an invigorating, tonic alterative and owes its virtues to Nature's vegetable garden. Dr. Pierce is only the scientific gardener who knows how to combine the plants given us by Nature to cure our diseases. This preparation is of pleasant taste, agrees perfectly with rebellious and sensitive stomachs, and is extremely effective in restoring tone and vigor to the entire system. It cures inflammatory troubles of the stomach as well as indigestion and dyspepsia arising from weak stomach. One reason why it restores the health of run-down, pale and emaciated people is because it first throws out the poisons from the blood through the liver and kidneys. It then begins its reconstructive work in building up flesh by first making good, rich, red blood.

The "Golden Medical Discovery" is made in a large laboratory, thoroughly equipped with every scientific appliance, at Buffalo, N. Y. Qualified chemists are in charge of the laboratory, with nearly a score of skilled physicians and surgeons employed to scrutinize, determine and prescribe these remedies and other means of cure as seen best suited to many thousands of cases of chronic diseases which come before them for treatment each year. It costs you nothing to write to Dr. R. V. Pierce—the head of this Institution, at Buffalo, N. Y. and get an accurate medical opinion in your special case and wholly without charge.

Nature's Garden.

The Imported German Coach Stallion

PFIEL 1671

A beautiful bay, 16 hands high weighs 1545 pounds, splendid coach action, that was admired so much at the Lewis and Clark Show, where he stood third in a class of Coach stallions that could not be beaten on either continent. Pfiel won first prize and championship at the Oregon State Fair in 1903-4, and is considered by good judges to be the highest class coach stallion in the state. His colts are uniformly good, and out of trotting bred mares they look like pure bred coaches. Will make the season of 1907 as follows: Monday at Hubbard; Tuesday at J. N. McKay's; Thursday, Friday and Saturday at Oregon City. Terms \$20 to insure with foal. J. N. McKay, Owner, R. F. D. No. 1—Woodburn, Oregon.

DUANE C. ELY General Dealer Just received a Swell Line of John Deere Buggies for the Spring trade. The John Deere buggy is giving the best wearing value of any buggy in the market of equal price.
