from Bertha L. Clark to whom he was married as long ago as February, 1891. He says that along in the middle of 1905 she began to correspond with James Clark and continued in the letter writing habit in spite of his protestations all the while James was away from Portland. When James returned to Portland, Bertha was constantly in his company until their undue intimacy became notorious. Mr. Moore further alleges that he and Bertha have not lived together as husband and wife for two years.

J. C. PADDOCK, County Treasurer.

Summons.

In the Circuit Court of the State of Oregon for the County of Clackamas.

Loyd R. Flagg, Plaintiff, vs. Allise Flagg, Defendant.

In the name of the State of Oregon: You, Allise Flagg, are hereby required to appear and answer the complaint filed against you herein on or before Tuesday, the 18th day of June, 1907, that day being six weeks from the first publication of the summons herein, and if you fail to appear and answer herein, plaintiff will apply to the Court for the relief prayed for in the complaint on file herein, to which reference is hereby made, and more particularly as follows: For a decree dissolving the bonds of matrimony now existing between plaintiff and defendant on the ground of defendant's willful desertion of the plaintiff for the period of more than one year, continuously, immediately prior to the commencement of this action, and for such other or further relief as may be equitable.

This summons is served upon you by publication thereof for not less than six successive weeks in the "Oregon City Enterprise," published in the County of Clackamas, State of Oregon, and by order of the Honorable Thomas A. McBride, Judge of the above entitled Court, which order is dated the 17th day of April, 1907.

The date of the first publication of this summons is Friday, the 26th day of April, 1907, and the date of the last publication of this summons is Friday, the 7th day of June, 1907.

Terms: All sums under \$5 cash; over \$5, six months' time will be given with approved security.

FRANK GRIMM, Owner. W. W. H. SAMSON, Auctioneer.

Summons.

In the Circuit Court of the State of Oregon, for the County of Clackamas.

Dyvie A. D. Knotts, Plaintiff, vs. Wm. B. Knotts, Defendant.

To Wm. B. Knotts, defendant above named:

In the name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled court and cause on or before the 8th day of June, 1907, that being the time fixed by the court for you to appear and answer herein and six weeks from the first day of publication of summons and if you fail to appear and answer, the plaintiff will apply to the court for the relief demanded in her complaint, to-wit: For a decree of divorce dissolving the bonds of matrimony now existing between plaintiff and defendant herein, awarding plaintiff the care, custody and control of the minor children of plaintiff and defendant, namely, Harvey Edward Knotts and Lola Anna Knotts, and for such other relief as to the court may seem meet and proper.

This summons is published pursuant to order of Hon. T. A. McBride, Judge of the above entitled court, made and entered therein on the 24th day of April, 1907, which order directs the publication of this summons not less than once a week for six weeks prior to the 8th day of June, 1907. The date of the first publication of this summons is April 26, 1907, and of the last publication of this summons June 7, 1907.

Ordinance No.—

An ordinance providing for the time and manner of improving Fourth Street of Oregon City, Oregon, from the East line of Water Street to the West line of Main Street, and from the East line of Main Street to the Stone wall of the Oregon and California Railroad Company on said Fourth Street.

Oregon City does ordain as follows: Section 1. The proposed improvement of that part of Fourth Street of Oregon City, Oregon, lying between the East line of Water Street and the West line of Main Street, and between the East line of Main Street and the Stone wall of the Oregon and California Railroad Company on said Fourth Street, shall be completed within ninety days after the signing of the contract by the parties thereto, due notice thereof having been given by publication of notice as will more fully appear by proof thereof duly presented and filed in the office of the City Recorder.

Section 2. The improvements shall consist as follows:

Grading. The street shall be graded down or filled up to the sub-grade as given by the City Engineer; said sub grade shall be 8 inches below the finished surface at the center of the street and six inches below at the curbs after being thoroughly sprinkled and rolled.

Care must be taken to preserve the proper crown and all soft and spongy places not affording a firm foundation shall be dug out and the space filled with good earth, sand, gravel or crushed rock, carefully rammed or rolled so as to make such filling compact and solid.

The full width to be paved shall be sprinkled and thoroughly rolled or compacted with a steam road roller, of not less than 10 tons weight, or by ramming in such places as the roller cannot reach, and if during the process of rolling, indentations or sunken places appear, such shall be filled with proper material and then again rolled, until even surface is secured.

Such rolling shall be completed in sections of at least one block, and shall be tested and accepted by the City Engineer before any material for the pavement is placed thereon.

Macadam. On the roadbed thus formed and completed will be spread a layer of clean, broken stone, free from dirt, not less than 4 inches in depth after being thoroughly sprinkled and rolled.

The stones shall be of square faced quarried rock, uniform in quality and as nearly approaching the cube in form as practicable; of not less than one inch in diameter, nor of greater diameter than will pass through a two an one-half (2 1/2) inch ring.

On the above layer of stone will be spread a layer of screenings, in sufficient quantity to fill up all interstices, and to bring the street to the proper grade after being thoroughly rolled and compacted. And such screenings shall be sprinkled and rolled until a firm unyielding and thoroughly even surface is obtained, which surface shall be the finished grade of the street. Macadam will be paid for per cubic yard in place.

Obstructions. The surface of the street will be cleared of all obstructions including timbers, planks, side walks and cross walks not on grade and otherwise in good condition. If such obstructions are not removed by the owners of the adjacent property within three days after having been notified by the Superintendent of Streets they shall become the property of the contractor and shall be removed by him without additional compensation therefor.

Fills and Embankments. No material of a perishable nature will be placed in the embankment. The earth taken from the excavation will be used to bring the street and side walk to grade when necessary, the remainder will become the property of the contractor and shall be re-

moved by him. Grading will be paid for per cubic yard for excavation and embankment. The waste earth, rock, or other material will be paid for in the excavation only.

Transporting Material.

The contractor is required to have the beds of all wagons, carts or other vehicles used in transporting earth, rock or other material to and from the site of the work sufficiently tight to prevent leakage; and to cause all loose material clinging to the beds or running gears of such vehicles to be brushed or scraped off after loading and unloading and take every precaution to prevent the unnecessary straggling of such material upon the streets.

Lumber and Timbers. All lumber and timbers used in the work must be of sound fir timber, square edged and free from all large loose or unsound knots, waxy edges, splits, and generally free from sap.

Removal of Rubbish. All rubbish that may accumulate during the performance of the work or by reason of the work herein provided for shall be removed by the contractor and the street left in a clean and good condition.

Settlements. All settlements that may appear in any portion of the macadam or other work before the final acceptance of the work by the city shall be repaired and made good by the contractor at his expense.

Sidewalks. A side walk will be constructed on either side of the street as follows, to-wit:

The planking will be 1 1/2 inches thick, 8 inches wide and 7 1/2 feet long, dressed on the upper surface and laid upon three stringers. The stringers will be 4 x 6 inches and not less than 12 feet long and will be set on edge and laid with broken joints. The stringers, when not resting upon the solid ground will have a firm bearing every six feet in length of walk.

The planking will be securely nailed to the stringers using two, four and one-half (4 1/2) inch wire nails in each bearing.

The walk will have a grade or fall towards the center of the street of one-fourth (1/4) inch to each foot in width of walk.

A line of concrete curbing will be constructed on either side of the street 22 feet from the center line thereof as follows: The curb will be 6 inches wide on top, 8 inches wide on the bottom and 18 inches deep.

In the event of the owner or owners of any or all of the abutting property desiring to lay or construct walks, or gutters of concrete in lieu of wood as herein specified, the right is hereby reserved for them to so lay or construct the same, in which event the entire additional cost of such concrete walks, or gutters, over and above the contract price for the same as constructed of wood, shall be borne by the said property owners and the contractor shall look to such owner or owners only for such additional compensation.

All concrete walks, curbs and gutters shall conform to the standard specifications for same as provided in ordinance No. 326.

Cross Walks.

Cross walks will be constructed

leading from the westerly entrance to the pedestrian subway to and connecting with the sidewalks on either side of the street. Such cross walks will be constructed in the same manner as the side walks.

Obstructions to Travel. The work must be done in such a manner as to obstruct public travel as little as possible. As soon as the macadam is complete it shall be thrown open to travel, but such opening shall not be deemed the final acceptance of the work.

Colored Lights. Colored lights and if necessary night watchman are to be maintained at all obstructions or other places of danger.

Classifications.

Earth. This will include clay, sand, loam or other earthy material and loose stones containing less than one cubic foot.

Loose Rock. This will include all loose stones containing one cubic foot to one cubic yard.

Solid Rock. This will include all loose rocks or boulders containing one cubic yard and upwards, also all rock lodged or other material requiring to be disintegrated by blasting.

Superintendence. All work herein provided for will be done in strict conformity with these specifications and plans accompanying same in a thorough and workmanlike manner to the satisfaction of the City Engineer, and his decision as to the meaning and intent of these specifications, measurements, computations of quantities, the quality of material to be used and all other matters pertaining thereto, whether freely specified herein or not shall be final and conclusive between the parties.

All unfit or condemned material shall be immediately removed from the site of the work. In the event of any workman employed by the contractor refusing to comply with the instructions of the City Engineer or his assistant or the inspector in charge of the work in regard to the removal of rejected material or for doing his work in an unworkmanlike manner shall be discharged by the contractor as soon as notified in writing by the Engineer of such neglect or refusal.

Responsibility. The contractor shall take entire charge of the work during the progress and shall be responsible for any loss, damage or injury to water and sewer pipes to adjacent property, or accidents resulting from blasting or from any carelessness or neglect in doing the work set out in these plans and specifications, and will hold the city of Oregon City and any and all officials thereof free and harmless therefrom.

The contractor must protect his work until it is completed and duly accepted, and he must repair any damage done to it by freshets, rains or other accidents at his own cost. In case of any accident to water or sewer pipes the contractor shall immediately notify the proper authorities.

Staking Out Work. The work provided for under these specifications will be staked out by the City Engineer or his assistants and the contractor will be required to carefully preserve all such stakes set.

Alterations. The right is reserved by the city council to make such alterations as may be found expedient during the progress of the work, and in such event there shall be added to or deducted from the contract price such sum as shall represent the cost of such additional or subtracted work to be estimated by the engineer.

The City reserves the right to lay or relay all or any water or sewer pipes or connections during the progress of the work.

Extra Work. The contractor shall not be entitled to demand or receive payment for any work as extra work, unless ordering of these specifications shall be referred to the Engineer and Street Committee whose decision shall be final and conclusive.

Disputes. All disputes as to the intent and the same and as to the price agreed upon and named in the written order or in writing by the Engineer to do for such work previous to its commencement.

Proposals. Parties bidding on the work provided herein must state in their bid the time required for the completion of the entire improvement as herein specified after the approval of the contract by the Mayor and should the contractor fail to complete the work within the time specified in the said contract the city shall have the right to charge the contractor the sum of five dollars per day as liquidated damages for each and every day that the work shall remain uncompleted after said specified date and such sum shall be deducted from the amount of the final payment.

No proposal will be considered when not accompanied by a certified check equal to five per cent of the total estimate, which check shall be forfeited to the city upon the failure of the successful bidder to execute the agreement provided for herein within ten days after the award of the contract.

Blank forms upon which all proposals are to be submitted will be furnished upon application to the City Engineer.

Payments. Upon final acceptance of the work the Engineer will make a final estimate of the cost thereof and a payment of seventy-five per cent of such estimate will be ordered at the first regular meeting of the City Council thereafter.

The remaining twenty-five per cent to be made in a lump sum within thirty-five days after such final acceptance.

Bond. The contractor will be required to furnish a bond with approved security in the full amount of the contract price, conditioned on the faithful and complete performance of the work in accordance with all the stipulations of the contract and within the time named therein.

Engineer. Wherever the word "engineer" is used in these specifications it is understood to refer to the City Engineer or to any Engineer employed and authorized by the city council to superintend such work.

Committee. Wherever the word "Committee" occurs in these specifications it shall be understood to refer to the Committee on Streets and Public Property of the City Council of Oregon City.

Contractor. Wherever the word "contractor" occurs in these specifications it is understood to refer to the contractor, or firm of contractors (or any member thereof) or any contractor undertaking the work herein specified.

All the above work and material to be furnished, shall be done and furnished to the satisfaction of the City Engineer.

The City Council reserves the right to reject any and all bids.

Section 3. The committee on Streets and Public Property are hereby authorized to advertise for and receive proposals as aforesaid, and the Mayor and Recorder shall enter into contract with each person, firm or corporation to whom the contracts are let by the City Council for the improvement or parts thereof as specified in this ordinance.

Section 4. Each contract shall contain a stipulation to the effect that the person, firm or corporation to whom said contract is let shall look for payment only to the sum to be assessed upon the property liable to pay for such improvement, and collected and paid into the City Treasury for that purpose, and they will not require Oregon City by any legal process or otherwise to pay the said sum out of any other fund.

Section 5. Whereas the condition of said street is dangerous to the health and safety of the city, and its improvement is necessary for the immediate preservation of the same, in the judgment of the Council of Oregon City, Oregon, an emergency exists, therefore this ordinance shall take effect and be in force immediately upon its approval by the Mayor.
