There's a Reason for Everything

The reason we enjoy the largest dental practice in Oregon City is because we try to excel in our work. Our work lasts, we never do poor work. The people know it. Our constant effort is to give not "just as good" but the best work, and that for as little money as possible. Our recent trip East to the great centers of dental education, was for the purpose of giving you the latest and best, up-to-date dentistry. Our seventeen years of successful practice in Oregon City is the best guarantee any dentist can give you. A guarantee is good only as long as you can find one who gives it, and then not always. We are careful not to hurt you, as we have feelings ourselves. We want your work and want you to send us your friends. Have an eastern expert graduate assistant dentist. We put our own name back of our practice. Our prices are the lowest in the city for good work.

GOODS AS ADVERTISED

The wise merchant soon learns that it is a useless expense to expend money for advertising unless the public profits by it. He must promote the interests of the buying community as well as his own. He must sell the class of goods he advertises, and he must tell the truth—all the truth and nothing but the truth, about them. If you find it convenient to trade at our store, and don't find goods as advertised, come to the "head of the store" and prove your claim and the matter will be speedily righted.
