MRS. M'KINLEY PASSES AWAY.
Mrs. William McKinley, wife of the late President McKinley, died at her Canton, Ohio, home, Sunday afternoon.

A Washington correspondent says:
"The report that Secretary Cortelyou is a secret enemy of Secretary Taft's presidential aspirations is wide of the mark."

Men desirous of belittling the president—for some private reason known to themselves—are advising him to have his third term declination phonographed.

Waive technical defects in those referendum petitions, Mr. Attorney General. The legal percentage of voters have asked for a vote on the question and it would be chicanery to refuse it because the name of the bill and not the act was used in the petition heading.

What's in a name. The new heir to the Spanish throne is named Alfonso Pio Christino Eduardo Francisco Fernando Antonio Venancio. There are enough goose eggs in that name to supply a baseball score board in Portland with cyphers for the home team for a whole series.

The Portland press has no right to call Oregon City a country town from this on. At last accounts the post-office lawn in that city was being used as a public cow pasture, with Uncle Sam's officials trying to repossess themselves of the premises.

H. C. Frick, the coke king millionaire, denies the story that he is to give Pittsburg five millions for an academy of fine arts. Well, any one who knew Mr. Frick intimately would want a confirmation of the story before he believed it.

Judging from the strenuous life in and about the New Zion establishment at Chicago there can be little religion in the Dowle association that is striving to bring about a revolution in the mode of living in this generation.

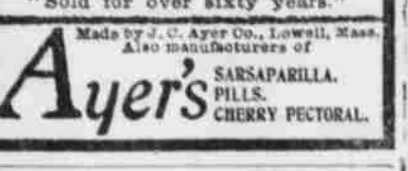

There's peace everywhere except in Honduras, Boise, Id., and the usual political squabble in Ohio. And any of those three wars is about as serious as the others.

Honey is reaching those "higher up" in San Francisco. Why not? Is the bribe-taker any worse than the bribe-giver?

A union high school may readily grow into a county high school.

BENEFITS OF A UNION HIGH.

Superintendent Zinser, speaking of the proposed union high school said that the plan was to support one good high school rather than six, each perhaps lacking in efficiency. As a further incentive to the union school comes the lesser cost to the taxpayers. It is his opinion that patrons with children ready for a high school would profit through a union effort—if it can be carried to successful conclusion.

RUNAWAY HORSE JUMPS INTO PLATE GLASS FRONT

A black mare owned by Grant Critzer of New Era and hitched to a light wagon dashed out of Railroad avenue back of the depot and down Seventh street to the block corner at 3:30 Friday afternoon. It plunged into the plate glass of the Block store, breaking two large ones on the Seventh street side. The animal broke its leg and cut itself fearfully on the glass. It reared out of the window and plunged across the walk to Main street where it lay until mercifully knocked on the head with an axe. The horse was a fine one and presented a horrible sight, viewed by hundreds. The wagon was demolished.

GLADSTONE GETS BETTER 'PHONES

The Pacific States Telephone company's lines in Gladstone, which connect with the central office in this city were cut over last night to the new central energy system. Instead of being ten party lines as heretofore, the lines are now of the four party type. This puts the telephone service of Gladstone on an equal footing with that of Oregon City.

RUNAWAY CAUSED NEARLY \$500 LOSS

The Methodist church, which owns the building occupied by W. L. Block, will be out over \$200 by the runaway of Grant Critzer's horse, Friday. Three big plate glass windows that cost \$68 each put in, were smashed. The horse was tied to a post on 6th street when it frightened at the cars, broke the strap, and ran around the block by way of Railroad avenue. The horse being tied relieves its owner from responsibility for damage.

ARMY HORSES HIGH IN PRICE.

Increased difficulty is being experienced in obtaining horses and mules for the Army. Bids which have just been opened show that prices generally have increased. The Quartermaster's Department says that Army mules are bought practically by the pound.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

There is probably no medicine made that is relied upon with more implicit confidence than Chamberlain's Colic, Cholera and Diarrhoea Remedy. During the third of a century in which it has been in use, people have learned that it is the one remedy that never fails. When reduced with water and sweetened it is pleasant to take. For sale by Howell & Jones.

FOR GREATER OREGON.

John Telford has accepted a position with the Portland Railway, Light & Power company in this city.

BAPTIST CHURCH EXTENDS CALL TO CHICAGO MINISTER.

The choosing of a pastor of the Baptist church has not been definitely settled as yet, but the pulpit committee, consisting of 15 members of the congregation, have voted and a call has been extended to Rev. John M. Linden, pastor of the Washington Park Baptist church of Chicago. Reverend Linden has been warmly recommended by several members of the local congregation in this city as well as several former members who are at present in Chicago and who have heard him preach. They all express themselves as highly delighted with his sermons. Though an able minister, Rev. Linden is a young man. He is a graduate of Denison college of Granville, Ohio, and of the Divinity School of Chicago University. So far the pulpit committee has received no reply to this invitation, but it is the general opinion that the Chicago minister will accept. The committee will hold another meeting tomorrow morning at ten o'clock in the church to make a further consideration of the matter.
