

## LARGE ATTENDANCE AT CHAUTAUQUA FIRST DAY

Fourteenth Annual Session Opens Auspiciously at Gladstone Park

### IMPROVEMENTS PLEASE

Street Car Service Adds Greatly to Comfort of Going and Coming  
—Many Electric Lights.

The Willamette Valley Chautauqua opened with impressive ceremonies at the hour announced in the auditorium Tuesday morning. Several hundred of the advance guard of speakers, instructors and campers were in attendance, while many from Oregon City and Portland gathered to add to the interest of the occasion.

The Chemawa Indian band played several stirring numbers as an opening prelude. The audience applauded the opening number and the band responded.

President Hawley, who was on the program for the opening address—the address of welcome—was detained by the lateness of his train and Dr. Heritage was called upon to occupy the president's chair. He spoke but briefly.

Rev. E. C. Oakley, pastor of Oregon City Congregational church, led the invocation exercises.

Dr. Clarence True Wilson of Portland, was on the program for an address in response to President Hawley's. He combined the two addresses in one, and his pleasing remarks were met with frequent applause.

The auditorium was very prettily decorated with bunting and foliage. The Stars and Stripes were artistically entwined in the festoons of bunting.

Four arc lights have been placed in the auditorium and there are a total of 12 arc lights on the grounds. These and the many incandescent lamps will make the central court a brilliant scene by night.

President Hawley arrived late Tuesday morning but reached the platform in time to deliver his address. Following him each of the instructors made the announcements of their work and classes.

Tuesday afternoon's program opened with a number by the band. President Hawley made brief remarks.

Prof. W. Eugene Knox was late and his number was passed. Dr. Stanley L. Krebs then entertained the big audience with his lecture on "Wonders of the World Within."

There is a large opening day crowd on the grounds.

Next Saturday night will be given the beautiful rustic cantata, "The Months and Seasons." Daily rehearsals are being held for the large number of children, mainly from this city and suburbs, who will participate. The cantata is in four acts. Following is the argument: There are 12 soloists, one for each month. Three of these soloists represent a season and the entire chorus sings a chorus appropriate to each season. There are four tableaux: "Winter Sports," "Crowning the May Queen," "Harvesters and Gleaners," and "Thanksgiving." The chorus will also sing "The Soldiers' Chorus" from Faust, "The Anvil Chorus" from Trovatore, with four anvils and eight strikers, the state song, "The Oregon Grape," by Mrs. Eva Emery Dye.

### SPECIAL CARS TO CHAUTAUQUA.

Arrangements for travel to the Chautauqua grounds at Gladstone are very complete. There will be a special train between Oregon City and the grounds at frequent intervals, the running time contingent on the number of people to be accommodated. Special trailers will be run from Portland and switched to the spur at Gladstone. One car, called a dummy, will run between Gladstone station and the park, picking up the special trailers from Portland and accommodating all passengers from the main line. Passengers from the main line will not need to wait long for a car from Gladstone, and no transfer is needed.

The management wishes to call special attention to the fact that only clean ball will be allowed on the athletic field, and assure the public that only clubs that are known for their gentlemanly conduct have been en-

gaged to participate in the tournament this season.

Dr. Krebs occupied the platform in the auditorium at the evening session and made an address on spiritualism and spiritualistic fakes. The auditorium was well filled and the speaker's remarks and demonstrations often applauded. Those who are familiar with the local Chautauqua and its past success, say that the address and the enthusiasm of the audience has rarely been equalled so early in the history of each summer event.

Principal among the demonstrations by the Doctor were the speaking trumpet, the violin playing with unseen hands, communication with friends beyond the grave, the medium bound in the dark room, and other minor phenomena. Each demonstration was a success, and each was given hearty applause.

The number of campers at Chautauqua this year is very large, and new "homes" are being added to the "white city" hourly. The grounds are in splendid condition and camping accommodations were never better.

## GIVE UP ISLANDS

Is the Demand of the Anti-Imperialist League of Boston

### PHILIPPINE FREEDOM

The Only Thing That Will Satisfy These People—Filipinos Sure to Welcome the Change.

Boston, July 9—The Anti-Imperialist League today made an appeal for action against the "continued and indefinite retention of the Philippine Islands." The appeal says in part:

"The immense and unprofitable burden of these possessions has never been felt more strongly than today. But in the popular apprehension that the United States might become involved in war, it is now realized that their defense would demand an almost impossible military and naval force on the other side of the globe.

"There is one simple, just and practical method of relief for both countries, which we urge with renewed emphasis, viz:

"A pledge of early and complete independence to the Philippines, together with a 'neutralization' by all the great powers, including Japan. It is clearly demonstrated that there is a large and influential class of educated Filipinos who are able to guide their fellow citizens in self-government."

The appeal is signed by M. Field Story as president, and Irving Winslow as secretary of the League.

### ESTEEM IS SHOWN SUPERINTENDENT

Saturday afternoon, the overseers of the Oregon City Manufacturing company gathered in the office of the retiring superintendent, W. U. Hanke, H. Tietze, in behalf of the overseers and officers of the company, after a little speech, presented Mr. Hanke with several valuable gifts as a remembrance and to show their esteem and god will towards him. Mr. Hanke leaves with the best wishes of all and much success is wished him in his new position.

CHAS. WARREN FAIRBANKS

Yellowstone Lake, Yellowstone Park, Wyo.—July 9—Vice President Fairbanks is a hero. His long legs and presence of mind stood him in good stead Sunday evening, when he plunged into a lake and rescued Miss Lena Wallace, a waitress at the hotel where he is staying. It so happened that she is the girl who is attending his table, which makes the incident all the more pleasing.

Mr. Fairbanks and J. E. Gibbs, proprietor of the hotel, were sitting on the piazza overlooking the lake, exchanging stories, when they saw a boat coming across the lake containing several persons. The Vice President was laughing boisterously at some remark made by Gibbs when a piercing shriek alarmed both of them and they noticed that the boat had

capsized. Two women and two men had managed to gain their footing and were making for the pier, but another woman was floundering in the water.

Mr. Fairbanks leaped over the railing of the piazza and ran to the pier. The woman had sunk twice and was going down for the third time when he reached her, half swimming and half wading, and seized her clothing. The water was over his head, but he managed to hold to the woman until one of the men on the pier realized the situation and swam out. He and Fairbanks brought in the woman, who was resuscitated at the hotel.

It required a half hour's work to restore her to consciousness, after which Mr. Fairbanks went to his room and changed his clothing.

### THREW CANDLE AT HER MODEL HUBBY

WIFE CRUEL TO HIM SAYS J. C. MEDLIN IN DIVORCE COMPLAINT.

At least one person has a poor opinion of Adda L. Medlin, and that person is her spouse, J. C. Medlin, who has filed divorce proceedings against her.

He states that he and the woman who was the object of his affections, were married April 17, 1906, at Hamilton, Or. She soon began to treat him inhumanely cruel and to call him the vilest epithets, with no cause whatever, for he was a model hubby. On July 18, in the presence of a third party, she again flew off the handle—while she was carrying a candle and cup, threw the candle at him and would also have used him as a target for the cup, had not the third party interferred.

The following day, while he was away from home arranging for the sale of some cattle, he received his clothes and a letter of explanation from her stating that she forbade him to return, that she never wanted to see him again. Since that time he has received letters from her, reiterating these statements, and demanding money with which to sue him for a divorce. He prays the court to dissolve the bonds existing between them, and to give the wife the custody of their child, a boy one year old.

### REDLAND WEDDING ALL OREGONIANS

Redland, July 9—The wedding of Miss Maude Stone and Daniel Mosher at the home of the bride's parents, at this place, July 3, was one of the most unique affairs of recent years in this vicinity. The bride, groom and officiating minister were all native-born Oregonians. All were at one and the same time students of Willamette University, and their parents were among the early pioneers of the Willamette valley.

The presents given the contracting parties were many, various and of good value. Several of the invited guests and relatives left the choicest of articles to the bride and groom, and so gave currency or checks instead. One check consisted of \$100 on one of our local banks.

The guests and relatives from a distance were, Mr. and Mrs. Barney, Mr. and Mrs. Newkirk and family, and Miss Irene Johnson, all of Portland, Charles Mosher of Salem, Miss Christine Hamilton and Mrs. J. J. Patton and son of Viola.

Miss Hamilton played the wedding march and Rev. Patton performed the ceremony.

Mr. and Mrs. Mosher left on the evening train for Salem where they will make their future home. Mr. Mosher is proprietor of a local tailor shop and the pressing parlors in our capital city.

The faces of these two young people will be much missed in our midst. Miss Stone had been one of the most successful teachers ever in this part. Both had been prominent in social and religious circles and until her marriage the bride was organist and teacher of the little girls' class in the Sunday school and Methodist church of this place. Their many friends have only best wishes and high expectations for their future welfare.

## NEW TOWN OF POMPEII

Veteran Mt. Hood, Guide, O. C. Yocum, Becomes Founder of City

### TWO LOTS ONE PRICE

Every Buyer of Lot and \$50 Worth of Lumber Given Deed for Adjoining Lot Free.

O. C. Yocum, the veteran Mt. Hood guide, and founder of the city of Pompeii, the plat of which has been filed in the county recorder's office, on Monday recorded the deeds for the sale of 35 of his lots to 16 different persons.

Pompeii, situated on Mr. Yocum's claim near Government Camp on Mt. Hood, makes liberal offers to the home seeker. To any one who will buy a lot and \$50 worth of lumber from Yocum's saw mill, Mr. Yocum will make a present of the lot adjoining the one purchased.

The site of Pompeii is more particularly described as being part of fractional section 23, township 2 south, range 8 1/2 east.

The streets of Pompeii are all 60 feet in width, with the exception of First street, which measures 30 feet. There are three streets running east and west: First, Second and Third; and eight north and south named as follows: Meldrum, Yule, Olive, Church, Union, Montgomery, Alpha and Beta. The initials of the second, third, fourth and fifth of the last named spell the name of the founder.

The blocks are 200 feet square, and are subdivided into lots measuring 100x200 feet.

### HOME COMPANY STRINGING CABLES

The Home Telephone company has begun the work of stringing the underground cables in the conduits on Main street. These cables are constructed of 150 pairs of fine copper wires encased in a lead tubing. They were especially manufactured for this work by a Rochester, N. Y., firm. A series of iron rods with notches in the end to fit into each other, are used to push the end of a wire from one manhole to the other. As soon as one end reaches the manhole towards which it is being pushed a heavy rope is tied on the other. After this rope is pulled through a team of horses is hitched to it, and the cable is laid for another block.
