

# Help! Help! I'm Falling

Thus cried the hair. And a kind neighbor came to the rescue with a bottle of Ayer's Hair Vigor. The hair was saved! This was because Ayer's Hair Vigor is a regular hair medicine. Falling hair is caused by a germ, and this medicine completely destroys these germs. Then the healthy scalp gives rich, healthy hair.

The best kind of a testimonial—  
"Sold for over sixty years."

Tonight. If you would enjoy tomorrow take Chamberlain's Stomach and Liver Tablets tonight. They produce an agreeable laxative effect, clear the head and cleanse the stomach. Price 25 cents. Samples free at Howell & Jones' drug store.

### HOLD UP! and consider

THE FISH BRAND SLICKER

LIKE ALL TOWERS WATERPROOF CLOTHING, is made of the best materials in black or yellow fully guaranteed, and sold by reliable dealers everywhere. 417 STICK TO THE SIGN OF THE FISH TOWERS' RUBBER SHOES, 417 STICK TO THE SIGN OF THE FISH

#### Tetter Cured.

A lady customer of ours had suffered with tetter for two or three years. It got so bad on her hands that she could not attend to her household duties. One box of Chamberlain's Salve cured her. Chamberlain's medicines give splendid satisfaction in this community.—M. H. Rodney & Co., Almond, Ala. Chamberlain's medicines are for sale by Howell & Jones.

#### Jones:

The one month old baby daughter of Mrs. Thomas Jones died Wednesday morning at the home of its grandparents, Mr. and Mrs. R. E. Woodward, 215 High street. The burial took place at Beaver Creek, Thursday morning. Mrs. Jones only recently came to the home of her parents with the baby from Green Lake, Wash. The baby had never been strong and its death was brought on by weakness.

#### IDEAL NEWSPAPER FICTION.

Stories of newspaper scoops on matters of current news are many, but it is seldom that a newspaper can claim a beat upon a popular novel. Such a triumph in the discovery of a popular novel was recorded recently by the Chicago Record-Herald when it printed serially "The Wings of the Morning," by Louis Tracy. The judgment of the paper has since been verified by the unprecedented sale the book has had both in the United States and in England. The Record-Herald's keen judgment in fiction enables its readers to get the best novels often before they reach the book stands, while its policy of giving just the right amount daily and Sunday makes it a pleasure to follow its serials.

## There are all Kinds of Tea

Good tea—bad tea—artificially colored tea and pure tea.

They may all look alike but there is a vast difference.

### Folger's Golden Gate Teas

are pure—flavorful—healthful. Six flavors

Ceylon	English Breakfast
Gunpowder	Oolong
Japan	Black & Green

Packed flavor-tight in dust-proof cartons to protect the delicate leaf from exposure.

The choice of flavor is a matter of taste.

### J. A. Folger & Co. San Francisco

Importers of Pure Teas

A radical departure in Sunday journalism was marked by the advent of the Sunday Magazine of the Record Herald. It is particularly strong in fiction, both serials and short stories, and it has all the other attractive features of the famous illustrated weeklies and monthlies and challenges comparison with them.

Tom Davies, who lives near the Maple Lane school house on the Highland road, fell out of a cherry tree Friday and hurt his head and neck.

Mrs. Charles Nash and two sons were out at the farm of Ed Howard at Carus Friday, picking cherries. Norman Howard drove in after them.

Mrs. L. L. Hoyt of Hillsboro came Saturday for a visit with her parents, Mr. and Mrs. R. H. Taber, and sister, Mrs. Ralph Miller.

### S. P.'s CHEAP PLAN TO HELP OUT NO. 12

Salem, July 6—Without giving notice to the commission, the Southern Pacific announces it will run Overland No. 11 out of Portland in two sections, the second section to double back from Albany, on No. 12's time, and pick up all the fruit and other heavy express.

This is the railroad company's plan to relieve the distressing situation as regards passenger traffic northbound, especially on No. 12.

### SIX MONTHS BIZ AT WATER WORKS

During the six months ending June 30, there was collected as water rates and premiums on warrants the amount of \$6749.83, according to the semi-annual report of the Oregon City water commission. The disbursements were \$10,197.81, and warrants outstanding amount to \$34,497.

The disbursements include \$3730 paid for the new filter of 500,000 gallons daily capacity. Labor cost was \$2410, and salaries of superintendent, assistant, secretary and night watchman amounted to \$1200.

### YALE SENIORS' QUALITIES.

Young Truesdale Laziest, So Say His Classmates—Landon Handsomest.

In the class annual of Yale seniors, which was recently published, Calvin Truesdale of Greenwich, Conn., son of the Lackawanna railroad president, is put down as having been voted the laziest member, says a New Haven special to the New York Times. Edward H. Hart of Brooklyn, the intercollegiate debater, is declared to be most likely to succeed in life.

Charles Pomeroy Otis of Andover, Mass., is the greatest grind; Captain Samuel Morse of the football eleven the most popular member; Stephen Leshner Landon of New York city, the handsomest; George Harold Wloss of Schuylkill Haven, Pa., the "nerviest and the windiest;" L. A. Doherty of Murray, Ida., the most scholarly; William F. Knox, who will be head football coach next fall, the all around athlete and member who has done most for Yale; Harold Sherman Wells of Scranton the best natured; Theodore Ives Driggs of Waterbury the best dressed and Jeremiah H. Jones of Haverhill the wittiest.

The class voted that, next to Yale, Princeton was the favorite college. She received 178 votes to 57 for Harvard, 23 for Williams and 8 for Cornell.

Professor William Lyon Phelps was the favorite professor, the brightest member of the faculty and the pleasantest; Professor Charlton M. Lewis the best lecturer and most polished, and Professor Kreider the best teacher.

The favorite amusement of the class is stated to be theater going.

## LOCAL COMPANY MAKES RICH STRIKE IN IDAHO

### Ore From Mines of Oregon City Mica Company Assays \$110 Per Ton, Including Nearly \$24 of Gold, \$71 Silver

A company under the name of the Oregon City Mica company, composed of Dr. C. A. Stuart, Ira and Harry Rambo, M. P. Chapman, Farr Brothers, Elmer Farr, William Rambo, Amos Wilmot, E. Morrow, J. E. Hammer and George Reddaway are jubilant over rich prospects of a mine they are interested in. The mine is located near Soldier, Idaho, in the Rocky Bar country. The mine was first located by Rambo brothers, "Capt." and Ira Rambo, some time ago while in a surveying party. It was then thought by these men to contain a good yield of mica. Nothing was done with it at the time. Since then the value of mica has increased and it is now worth \$7 a pound in the sheet.

The Rambos came to Dr. Stuart for aid in the enterprise of developing the mine that looked good to them. They were given the necessary financial backing at once by the company and began work. About four weeks ago they sent what was considered one of the poorest samples to Dr.

Stuart to be assayed. The sample showed no outward signs of gold but proved to contain ore that in the assay shown gold valuation per ton \$23.77, silver valuation \$70.86, lead valuation \$15.60. Total valuation, \$110.23.

The company has ten claims. In three they have been working the ore comes from a six foot vein where they are starting in.

The company forwarded more money Monday for further developments and instructions to locate everything around there. They are right on the lucky find. They have their log cabin built and are prepared to stay right with it. The Rambo brothers said at a rough estimation the claim was worth ten thousand dollars the way it stands. They have not been heard from since word was gotten to them of the result of the assay. The company has sent for more samples.

There is no stock in the mines for sale at present. The present stockholders of the company will develop the mines themselves.

## UNCLE SAM'S GOOD WORK

### Restocking Oregon Rivers With Gamey Salmon and Other Fine Fish

#### Superintendent Harry O'Malley Gives Figures Showing Over 17,000,000 Fry Placed in Oregon Waters.

Harry O'Malley, superintendent of the United States Bureau of Fisheries in Oregon, has completed and mailed his report of the operations of the several stations for the six months ending June 30. The following shows the operations throughout the year of the different stations, periods of operations and species hatched:

Clackamas, entire year, chinook salmon, lake trout, brook trout, rainbow trout, black spotted trout.

Big White Salmon, August 1 to February 1, chinook salmon.

Little White Salmon, August 1 to March 1, chinook salmon.

Eagle and Tanner creeks on Columbia river, August 1 to October 15, chinook salmon.

Eagle Creek, on Clackamas river, March 15 to June 1, steelhead trout, Applegate Creek, February 1 to April 30, steelhead trout.

Rogue River, entire year, steelhead and black spotted trout.

Willamette Falls, May 28 to June 30, shad.

Following are the details of the operations during the last six months at the stations in this county:

#### At the Clackamas Station.

On the first day of last January there were at the Clackamas station 2,132,000 chinook salmon fry. Seven hundred and ninety brook trout and 520 rainbow trout and the salmon fry were liberated from time to time as they became of proper age, being completed by the end of January. In the same month 50,000 lake trout eggs were received from Northville, Mich., and in February 400,000 Eastern brook trout eggs were received from the Leadville, Colo., station, but were in bad condition, having hatched on route, giving good evidence that they were too old for shipment. In April 232,000 rainbow trout eggs were received from Baird, Cal., and the Nevada State Fish commission. On April 23, 229,700 eyed steelhead trout eggs were received from Amel Oldenburg, who took the eggs on Applegate creek, southern Oregon. Of these, 200,000 were placed in refrigerator cases and shipped to Fern points, and the remainder were shipped to Elk Creek station, on Rogue river.

The last of May preparations were made for the collection of shad eggs on the Willamette river, the battery being set up at Willamette Falls, where the gravity supply was secured, having a fall of about seven feet. The fish that have been hatched and liberated from Clackamas station are:

Brook trout	582
Rainbow trout	440
Black spotted trout	79,700

Quinnat salmon	2,650,000
Steelhead trout	226,640
Lake trout	5,000
Brook trout	51,900
Rainbow trout	42,000
Shad	874,000

There is at the station 59,450 rainbow trout fry on hand; 8,330 land-locked salmon, 89,330 brook trout and 24,590 lake trout.

#### Eagle Creek Station.

Early in March racks and traps were placed in Eagle Creek to stop and collect the steelhead trout. The creek remained low until April 9, when a sudden raise from heavy rains caused the loss of a portion of the rack. As soon as the water fell the rack was repaired, only to be lost again April 29 by a second high water. It was again repaired and remained in place until the last of May, when it was removed for the season, the run of fish being apparently over. The smallest number of fish known in many years ascended this stream this season, being attributed to the unusual climatic conditions that existed. The total collection was 11,156 steelhead trout, and of this number 10,343 were shipped to Clackamas station.

#### FINED FIFTY DOLLARS.

The cases of E. R. Case and A. B. Schoenborn, arrested on the night of the Fourth for assault and battery, were brought before Justice Stipp at 10 o'clock, Saturday morning. Schoenborn was dismissed, but the jury found Case guilty, and a \$50 fine was imposed upon him. As yet he has not paid the fine, and he is talking of appealing the case.

#### GONE A-FISHING.

A crowd of boys from Mulino left Friday on a fishing excursion to Eagle Cliff, Wash. They expect to be gone about three months.

#### LARGEST OREGON HOTEL.

Two 10-story additions or annexes will be erected alongside the Oregon Hotel at Portland to cost a half million dollars. When completed that hotel will be the largest in the Pacific Northwest.

#### BOUDOIRS FOR FINE STEEDS.

Lavish Decorations at Horse Show in London—Arena a Sylvan Scene.

Among the many lavish features of the horse show at Olympia in London, not the least noticeable is the decoration of the stalls prepared for the competing horses, says a London cable despatch to the New York Sun. Some of these suggest boudoirs. Immense flower baskets filled with roses and other blossoming plants hang from the ceiling, while the walls are draped with rich colored hangings.

Mr. Armour's champions repose in stalls lined with white chiffon, the outside being covered with red and yellow plush. Mr. Vanderbilt's twenty-six horse boxes are draped with maroon plush. Mr. Wilnans has covered the walls of his stalls with crimson cloth edged with gold braid. The Guinnesses, the Dublin brewers, have decked theirs with Cambridge blue cloth.

Large sums have been paid to west end upholsterers to carry out the work. This arena is quite a rural scene. Hundreds of tons of earth and turf have been laid down in which growing chestnut, willow and oak trees twenty-five feet high have been planted, besides shrubs and flowering plants innumerable.

#### SONG FOR CORTELYOU.

##### Fellow Westfield Alumni Hail Him as the Future President.

The Westfield (Mass.) Normal School Alumni association, of which George B. Cortelyou has been president until recently, has composed an alumni song which they propose to sing at every alumni association meeting, says a Westfield special dispatch to the New York Times. It is sung to the tune of "Auld Lang Syne," and the lines are: Once more we gather, schoolmates dear, Our friendships to renew, At normal, dear, where all may hear, Our own George B. Cortelyou. Though Westfield now can claim no son, We must not all forget That she sent out one shining day The future president.

The line "Though Westfield now can claim no son" is an allusion to the fact that there are no men students, and there has only been one male graduate from the school since 1897.

#### Austrian Boy's Extraordinary Grit.

A fourteen-year-old boy of the name of Tucek has astonished the prominent surgeon Baron von Elsberg by the remarkable grit he displayed in undergoing an operation, says a special cable dispatch from Vienna to the New York Sun. Tucek's arm had to be amputated. He refused to take an anesthetic because he wanted to watch the operation. He resisted all the persuasions of the surgeon, who ultimately yielded. The boy did not wince and made no sound throughout, but watched the surgeon's work with keen attention. He said afterward the sight was so interesting it was well worth the pain. Dr. von Elsberg recognized his pluck by giving him a watch.

## RAILROADS TO KEEP CAR REQUEST RECORD

### CHECK ON DELAYS AND DISCRIMINATION PROVIDED BY R. R. COMMISSION.

Salem, July 6—The railroad commission's rules governing applications for cars went into effect July 1. They provide that shippers make applications for cars in writing, and are designed as a check against delay or discrimination on the part of the railroads in furnishing cars. The rules provide:

1. At each station on every railroad in this state where an agent is maintained, and where freight is received and delivered, there shall be kept and preserved a register or record of all applications for cars by shippers, and said register or record shall give substantially the following information, to-wit:

- (a) Name and address of the applicant for cars.
- (b) Number of cars applied for.
- (c) When cars will be required.
- (d) Kind and size.
- (e) Kind of freight to be shipped.
- (f) Destination of freight.
- (g) Date cars are furnished and set for loading.
- (h) Number furnished.
- (i) Kind and size.
- (j) Initials and numbers of cars furnished.

All applications for cars made at any such station shall be immediately and correctly recorded in such register or record in chronological order of application. Such record shall be kept in a suitably bound book, and be subject to the inspection of any bona fide shipper during business hours.

2. A record of car distribution shall be kept at the office of each chief dispatcher of all the railroads doing business in this state, subject to the inspection of any bona fide shipper during business hours. This record shall be made up from daily reports of all station agents on such division and shall contain the information set forth in the preceding rules. It shall be so kept as to show the shipments of principal commodities. The names of all persons ordering cars on such division shall appear in alphabetical order and must show cars loaded for foreign roads, whether on company's cars or foreign cars.

#### A. B. KLISE IS DEAD.

A. B. Klise, the former Molalla man who was taken sick here a week ago on his way to his old home from Nevada where he had resided for a number of years, died in the Good Samaritan hospital at Portland, Friday night. Burial will be in the Adams cemetery near Molalla some time between 10 a. m. and 2 p. m., Sunday.

#### NOVEL CATTLE BRAND.

##### Evanston (Ill.) Man Painted His Telephone Number on His Cow's Flank.

A new method of marking cows has sprung into use in Evanston, Ill., says a Chicago correspondent of the Kansas City Times. Instead of bearing a symbol burned upon the flank the cows have their owners' telephone number painted upon their sides. William C. French, 1414 Hinman avenue, who owns a "mulley" named Mary Jane, invented the idea. Mary Jane was peaceful until she was taught to lose herself by an imported Texas cow, and as a last resort Mr. French labeled her in bright paint, "Tel. 46."

So successful has been the experiment that several cows now carry telephone numbers.

#### Success of a Blind Student.

Francis A. Lockford of Newton Lower Falls, Mass., a member of this spring's graduating class at Bates college, is doubtless the first blind man who has ever made his way through a Maine college, says the Kennebec (Me.) Journal. He has been blind from birth and is a good example of what pluck and courage can accomplish. He is a graduate of the Perkins School For the Blind in Boston and entered Bates in the fall of 1903. He has been active in college affairs, being a leading member of the Eurotophia society, where his musical ability has been freely at the disposal of his associates. He has been a most enthusiastic supporter of athletics, attending all the games and adding his voice to the cheering section. He has taken good rank in his studies and expects to become a teacher or tutor in the classics and in French and German.

When you require an Abstract of Title to lands in Clackamas County, have it accurately and reliably prepared by a responsible company incorporated for the purpose. Our rates are reasonable. We invite you to examine our complete set of Abstract Books.
