

NEWS OF THE COUNTY

SHERWOOD.

Pernella Baker was born in Tennessee, Murray county, May 3, 1821; was married to N. J. Tuckness April 5, 1846. Mrs. Tuckness, who died at the home of her daughter, Mrs. Geo. Bally, of Sherwood, September 11, was an old Oregon pioneer, having crossed the plains with her husband and three small children, one a babe of six weeks, in an emigrant train of ox teams; starting in May and arriving in Oregon November 1853. Residing on the donation land claim of John Zumwalt on the Willamette River in one of the then famous log cabins 10x20, with mud and stick fire place. The first winter they took up their land claim on the Parrott Mountains in Yamhill county, where they continuously resided for fifty years, when their home, in which they had passed their fiftieth wedding anniversary was consumed by fire. At this time the old people barely escaped with their lives and a few of their many cherished keepsakes, among them some old pictures, and a very little bedding and some clothing. They then moved to the home of their daughter, where the husband died in January 1905.

There was born to this union seven children—two sons, Thomas and William. Thomas died at the age of five months and William at the age of nine years—five daughters, one, Sarah, having died at the age of two years, and Mrs. Eliza E. McConnell, who died August 17, 1892, leaving nine children. Grandmother was of very small stature, at her best weighing 105 pounds, but for the past few years 69 and 70 was her usual weight. She was seldom ill, and at most times was able to attend to her own wants.

She died of an attack of grip and old age. She was confined to her bed only five days. She passed away so easy they thought her simply sleeping a little when death had claimed her. She leaves one sister, Mrs. Adams, now living at Wilsonville, 76 years old; three brothers—U. P., Matt and Melvin Baker, all of Sherwood, and three daughters, Mrs. Elizabeth Bally, Mrs. Saphronia A. Jones of Sherwood, and Mrs. Jane Bonney, of Hubbard. Twenty-six grandchildren and twenty-three great-grandchildren mourn their loss.

Grandfather and mother Tuckness had always lived the good and honest lives of the farmer, and were devoted Christian people, having joined the United Brethren.

Raining as it almost always is the middle of September. As I have lived in Oregon 40 years it might be interesting to give the dates that we may look for rain and sunshine. From the last week in September to the first week in November, sunshine, may have some showers; from the first week in November to February look for rain and mostly see it; then two weeks fair weather, then somewhat blustery weather, until the last of April; then sunshine until the middle of June, then one week rain, then sunshine until middle September, occasionally nice showers.

We notice with much regret along the public highways many obnoxious weeds, such as burdock, bull thistles, etc. The road supervisors either can't see good or are woefully negligent of duty. The Canadian thistles need some attention also in certain localities. These weeds are a nuisance, are unlawful, are propagated only by indifferent and careless people, and the public at large, the careful, innocent people, should be protected from their encroachment. If the road supervisors

would read the road law occasionally and act in accordance, these things would not exist.

There's a Reason for Everything

The reason we enjoy the largest dental practice in Oregon City is because we try to excel in our work. Our work lasts, we never do poor work. The people know it. Our constant effort is to give not "just as good" but the best work, and that for as little money as possible. Our recent trip East to the great centers of dental education, was for the purpose of giving you the latest and best, up-to-date dentistry. Our seventeen years of successful practice in Oregon City is the best guarantee any dentist can give you. A guarantee is good only as long as you can find one who gives it, and then not always. We are careful not to hurt you, as we have feelings ourselves. We want your work and want you to send us your friends. Have an eastern expert graduate assistant dentist. We put our own name back of our practice. Our prices are the lowest in the city for good work.
