EXTEND POWERS OF PEOPLE. Bill Introduced to Provide Amendments to Constitution. Washington, Dec. 8.—The new State of Oklahoma offered today, through Representative Fulton, to engraft the principles of the initia-

tive and referendum and the recall upon the Constitution of the United States. One of several bills introduced by Mr. Fulton provides that in "all general elections for representative or delegate in Congress, the voters shall have the right to have printed on the ballot and to exercise their

judgment on the ballot and to exercise their judgment upon any political questions." Request for the submission of questions must be by petition to the President, and must be signed by the National chairman or secretary of some political party, or by one-half of

per cent of the voters of any 10 states. To the President the bill gives "the final authority to pass on any question provided for." Mr. Fulton's proposal took the form of a joint resolution for an amendment to the constitution of the United States, as follows:

"Eight per cent of the voters of not less than 15 of the states shall have the power to propose by petition any legislation, and 10 per cent of not less than 15 of the states shall have the power to propose amendments to the constitution, and 5 per cents of not less than 15 states shall

have the power to petition the President." LOST—On Seventh street hill, Oregon City, Nov. 27, a dark brown calfskin handbag. Had red poppy design with order for paintings and postal cards inside. Ida May Garmire, box 84, R. F. D. 3, Oregon City.
