She was a widow and her second venture was a widower. He was a gentle soul and hadn't much to say in response when his wife had a great deal to remind him of, especially when she compared him with her former spouse, but when he did speak it counted. One night he went to sleep, while she was telling him the old, old story. She followed him shortly. Along in the middle of the night, says the Lippincott's Magazine, she was awakened by his uneasy turning.

"John," she said, "are you awake?" "Yes, Susan," he replied, softly.

"What's the matter?" "Oh, nothing, Susan; I was just thinking if your first had married my first they would have been the only perfect couple on earth."

Then he went to sleep again—while she was talking.
