**Measuring the Children.**  
They used to stand on the door-stone gray.

By the side door, worn and old,  
And we made a pencil mark for each,  
For the brown heads and the gold.  
Low, indeed, was the earliest mark,  
For Bessie could scarcely stand;  
But we held her safe, and marked her height  
With careful and loving hand.

For many a year the game went on,  
We made it a merry match,  
And the one should win who grew  
the most  
And who first should reach the  
latch.

And Harry grew slow, and Nell grew  
fast,  
And Johnnie grew plump and round,  
And no one could tell which little  
head  
Would first at the latch be found.

But Harry it was that won at last  
By the very smallest space;  
And Nellie, with all her shining curls,  
Held only the second place;  
And Bessie, the oldest little child,  
Was away beyond our sight  
Where we could not tell how fast she  
grew  
Nor measure again her height.  
And all the rest of the children now  
From the farmhouse old have gone;  
Far above the latch now rise the  
heads  
Of Harry, Nellie and John.  
Happy and strong in the world they  
work  
For their childhood days are o'er;  
But when they come back they still  
can see  
The markings beside the door.

### PIGEONS FOR PROFIT.

Give pigeon keeping the same close attention you would bestow on your business affairs.  
Systematize your work; keep strict account of both debit and credit.  
Kaffir corn can be used as a substitute for Canada peas, when the latter can not readily be secured.  
A good spray for the loft is a mixture of twenty parts kerosene oil and one part crude carbolic acid.  
Ewald says that there is no truth in the idea that cracked corn is the cause of canker in pigeons.  
Pigeons do not dust themselves as poultry do. Frequent bathing is their method of keeping in good condition.  
A double floor, lined, and an air space of about the thickness of a lath

between the floors, is the warmest and best for the loft.  
Success comes from careful and thoughtful work.

Neglect will invite and develop trouble never dreamed of.  
Successful rearing of pigeons will continue for those who have the qualifications which command success in this work.

Good care will overcome much inconvenience and many unfavorable conditions.  
New birds should never be put in the loft before being dusted with good louse powder.

### Spring.

There's a song of birds on the morning air,  
There's a glint of green at your feet,  
There's violets blossoming everywhere,  
With perfume dainty and sweet.  
There's a brush of brooms at the back doorway,  
And the housecleaning path we clear,—  
And the ragman called again today,  
Sure, we know that spring is here.

**Violins Aged by Electricity.**  
A noted violinist and violin maker believes he has discovered a method for giving, by the aid of an electrical machine, the same quality of tone to a violin that age has been credited with providing. The theory of the violinist, says Popular Mechanics, is that it is not the age of the violin which really gives it its superior tone, but the amount of "bowing" or vibration it has received. By the use of the electrical machine the violin is expected to get as much bowing in thirty days as the same instrument would receive in fifty years of ordinary use.

## TWO GAMES BREAK EVEN

LEAGUE BASEBALL SEASON IS OPENED BY PIONEERS AND PAPERMAKERS.

## CROWD ROASTS UMPIRE

Albina Team Will Play Against Oregon City Next Saturday and Sunday Afternoons at Canemah Park.

Oregon City had her first taste of league baseball this year on Saturday and Sunday, when the Papermakers and Pioneers of Vancouver broke even on their first series. The attendance on the opening day was far from a large one, but the Sunday crowd was fairly good, and at times was very demonstrative. This last is especially true of the reception accorded Umpire Burnside after the game. Burnside made several decisions that were far from right, but it might be said that he favored neither side, he threw it into one team as well as the other, and caused considerable wrangling, and enough fabric was masticated to make suits for the whole league. At the close of the game the crowd surrounded the official, and talked threateningly, but that worthy escaped with a hit in the face. The first game was won by splendid team work on the part of the locals, and the work of Havernicht and Kelt, both of these little men working like Turks.

For a time Pender pitched good ball for the Pioneers, but the locals soon got next to his style and he was replaced by Onley. The score by innings:  
Vancouver . . . . . 0 1 0 0 0 0 0 0—1  
Hits . . . . . 0 1 1 1 0 0 0 0—4  
Oregon City . . . . . 2 0 0 0 1 3 0 1—7  
Hits . . . . . 2 0 0 0 2 1 1 0—6

In the Sunday game the Vancouver crowd succeeded in turning the tables and at the end of the game, the score board read 8 to 3 in their favor. Concannon, the former Woodburn star did the twirling for the visitors, while the box was filled for the locals by Rummel till the eighth, when he was replaced by Long, "the pride of Canemah." The visitors started off right in the first inning, by making the desired connections between the willow and horsehide five times, succeeded in chasing four men across the plate before they were smothered. They duplicated the performance in the seventh inning. The daring base stealing of Kruger, the local third baseman, was responsible for the Papermaker's first run, when in attempting to put him out, the Pioneers allowed Rummel to score. In the ninth, with one man down, the locals took a brace, and by timely hitting and clever playing landed Hill and Chaplin in home. In an effort to worry Concannon, Griffith, who was on second, played too far off, and Tim soon had him waltzing between second and third, and finally forced Adams, who was resting on third, off that sack, with a double out resulting.

The score was as follows:  
Vancouver . . . . . 4 0 0 0 0 4 0 0—8  
Hits . . . . . 5 0 0 0 1 1 5 2—15  
Oregon City . . . . . 0 0 1 0 0 0 0 2—3  
Hits . . . . . 0 2 1 0 0 0 1 1—4—9  
Next Saturday and Sunday, the Papermakers will play the Albina team at Canemah Park. Albina was defeated twice by St. Johns, but since that time, they have been improving their lineup, and a close game is expected. Shea, who caught for Vancouver, left Monday for Tacoma, where he will be second catcher for that city in the Northwest League.

### GEORGE F. HORTON.

Man Who Made a Clean Record as County Clerk a Candidate for Assessor.

George F. Horton, who is so well known to the people of Oregon City and Clackamas County that he needs no introduction, is a candidate for the Republican nomination for County Assessor, and is soliciting the votes of the members of the Republican party at the primary nominating election next Friday. Mr. Horton several years ago was County Clerk and made a clean and economical record while in that office, demonstrating his ability. When he was a candidate for a second term he received one of the largest majorities ever given to a candidate for a Clackamas County office. Mr. Horton is a veteran of the civil war, having served in the 148th Ohio, and is a member of the Meade Post G. A. R. He has been a resident of Clackamas County 22 years and if nominated and elected he promises an equal assessment to the taxpayers and a strictly economical administration. He is in the race for Assessor to win and expects a close fight.

The infant child of Dr. and Mrs. J. B. Moore, of Lents, died there and the body was brought here for interment in Mountain View cemetery. Dr. Moore formerly resided in Oregon City and conducted a drug store on Seventh street, where the store of C. W. Friedrich is now located.

### MOODY FOR ASSESSOR.

His Manly Fight Is Winning Him Many Votes.  
It is generally conceded that Mr. Moody will be the nominee of the Republican party for Assessor. A vote for him means a total break-up of the old machine and political ring in Clackamas County. The riddance of political hacks and hangers-on.  
The assessment of all property at its true cash value as required by law, that railroads will not be assessed

ed in Multnomah County at \$47,000 a mile and in Clackamas County at only \$19,000 a mile.  
That the office will be run, and the assessments made on the best judgment of the assessor, and not at the instance of the corporation attorneys of Oregon City.  
The carrying out of the rule adopted for many years by Clackamas County, that two terms is the safe limit to keep any man in a county office.
