The people around here, especially the farmers, are considerably excited about the threshing of their grain and some of them will get considerable

"het up" before they all get their threshing done, if the haymaker keeps on at the rate of heat. It is heating up Mother earth and the Oregon dust clouds rising. Most every body is busy at some thing, even one trying to rest the flies won't let you rest. One has to bang and slam on couch. Well, well, we will have to put up with a little inconvenience.

The Portlanders are considerably interested near Clear Creek bridge. One outfit has been here for a month, and on Saturday and Sunday along the river autos and their drivers kick up more dust than a Kansas cyclone. We expect to have things different here when we get incorporated. Then we may have an Oregon cyclone.

There are some of the people living around here that expect to have more improvements started up. The wireless telegraphy for one improvement. Threshers will not make their everlasting fortunes this year, but there will be enough of everything for home use, for which all should be thankful.

To Make Chocolate Almonds.

Blanch the almond meats by pouring boiling water over them and let them stand a few moments; then turn the hot water off and throw cold water over them. The skin may then be easily rubbed off.

Break some sweet chocolate into small pieces, put them in a small dish and stand this dish over the fire in a pan of boiling water. When the chocolate is melted put a blanched nut meat on the point of a hat pin and dip it into the melted chocolate; then lay it on oiled paper to cool.
