ACCUSED OF BURGLARY

EARL PADDOCK AND MORT LEWIS ARE BROUGHT BEFORE JUSTICE SAMSON.

CONFESS THEIR GUILT

Youths Break into Building of Canemah Park by Cutting Bolts, Taking Goods Belonging to Smith.

Earl Paddock, aged 9, and Mert Lewis, age 7, of Canemah, were brought into Justice Samson's court Wednesday afternoon charged with burglary. There are other boys implicated in the affair who have not been apprehended as yet. The boys seem to have made a full and honest confession of the affair. They broke into a building in Canemah Park by cutting off some of the bolts that held the building together, and took among other things \$9.90 worth of soda water, \$2.50 worth of cigars, 40c worth of oranges and 2 1/2 dozen glasses. The goods belonged to W. T. Smith, who signed the complaint, Frank Whitman, Al Cyr and Eugene Ogle. Paddock told the Justice the whole story of just how they got the goods. He said that he smoked one cigar and that it made him so sick that no one could hire him to smoke another. After lecturing the boys on the seriousness of the offense that they had committed, Justice Samson let them go until such time as he could get the rest of the boys before him. It is likely that the case will finally be brought up in the juvenile court.

They went by way of Scott's Mills, and also visited the mines at that place, where about 15 men are employed, including a day and night shift. A tunnel 500 feet long has been constructed, and from the present indications it will not be long before they will come to the gold. It takes two days to go to the Ogle Creek mines, and a great deal of this has to be done by pack horses. Charlie Early and Jim Hattan are working the mines at present. Miss Gertrude Fairclough and Miss Myrtle Buchanan, of this city, are spending the summer at the mines, and are enjoying the best of health. EXHIBIT BUILDING IS NEARING COMPLETION

Training Stable Will Be Constructed On Fair Grounds Where Horses May Be Wintered.

The Clackamas County Fair grounds at Canby are presenting an active appearance at the present time. The large building, which is to be used for the exhibits, is fast nearing completion. Superintendent of the building, W. P. Weinmandel, has a force of about ten men on. The building is 64 feet wide and 120 feet long with 20 foot sides. The building is two stories high, but the second story will not be completed this year, only the lower floor will be used. It will be a big improvement on the building used last year, as there is to be a flooring, while last year the dust was a disagreeable feature during the fair. The structure is ready for the flooring and roofing.

Opposite this building lies a beautiful grove of fir trees, which is in the east corner of the county fair grounds, lying about 300 feet from the Southern Pacific railroad, and is also about 300 feet from the county road. There's about four acres of land where those who wish to, can go and camp during the three days' session of the fair. George Penman, who has had charge of the digging of the well, has finished his task, and this is convenient to the campers. The well is about 30 feet deep, with planked sides, and the water is excellent. An engine was used in pumping while the well was being constructed, and water was pumped for 24 hours steady, but

the volume was so great that it had to be abandoned. A pump has been installed for its use. The race track, which is one-half mile long, has been completed, except the sprinkling and rolling. A great deal of grading was required, but W. H. Counsell, who had this in charge, has done his duty in seeing that this was put in first-class condition. No better race track on any county fair ground throughout the state could be found than here. Opposite the race track the ball grounds will be constructed and some excellent teams are billed for the fair. An immense grandstand will be the next building to go up as soon as the exhibit building is finished, and will accommodate many hundreds of people.

It has been decided by the Association to have training stables built on the grounds to accommodate all of the horses, that are brought for the winter training. These will be in close proximity to exhibit building. The site for the Clackamas County Fair at Canby is an ideal place for such an affair, which is both convenient to railroad and water transportation.

Some of the men of Canby who are taking an active interest in the County Fair are Judge Charles Wait, R. F. Coe, Wm. Cantwell, Howard Eccles, Harry Bair, and many other prominent citizens of Canby and vicinity.

PROGRESSIVE CANBY

Never before in the history of Canby has there been more of a boom than there is today. Many new buildings have been constructed within the past few months, and many are at present under construction. Canby is one of the rapidly growing little towns of Clackamas county, and the enterprising citizens of that place are uniting in their efforts to bring Canby to the front. The soil which is well adapted to the culture of all kinds of fruit, and it is one of the most important fruit centers of the county. There are three wholesale commission houses, the commission merchants being W. H. Bair, W. S. Hurst and W. H. Lucke. Mr. Bair's business has increased so that he is at present having constructed another commission house, at a cost of \$2500, opposite the Southern Pacific depot.

Another large building under construction is that of Andrew Koehler, the enterprising farming implement dealer. Mr. Koehler is at present occupying three buildings to accommodate his large stock of goods. Mr. Koehler also carries a full line of hardware, ammunition, farming implements, vehicles and graphophones. The building he is having constructed is at the end of Main street, one and one-half stories high, 50x120 feet, on the property he recently purchased from his brother, Henry Koehler. The building will be ready for occupancy by the opening of the fair. He has been in business for the past nine years, and was formerly connected with Staver & Walker Company, of Portland.

George Fletcher, who is connected with the firm of Carlton & Rosenkrans, is having a neat cottage constructed on his 14-acre tract. The house will cost about \$1100. Howard Eccles, who is one of the prominent instructors of the county, is building a modern house, which will cost about \$900, with Mr. Dodge as contractor. Mr. Eccles is also connected with the Adkins Lumber Company. The Colonial home being constructed by L. E. Grazer and J. E. Eckerson for J. L. Eckerson, on the south side of the rail road track, is to be one of the most attractive homes in the city of Canby when completed. Close to this is an attractive looking cottage under construction for George Meeks, which is costing about \$1100. The building is being constructed by Mr. Meeks, father of George Meeks. Frank Patch is occupying the cottage recently erected by J. H. Sutherland. The cottage cost about \$800. Ed Braddl and wife are occupying their handsome residence, recently completed. The property which consists of a block is one of the most desirable locations here. Mr. Braddl is connected with the firm of Carleton & Rosenkrans Company.

There are at present three churches in Canby, but the fourth is under construction, and is being erected by the Scandinavians. The building will cost about \$800, and the property which lies in the east part of town, was recently purchased by the members of that denomination. William Cantwell, the real estate

man of Canby, says that the value of property has increased considerably within the past two months, and many who have had property on the market are taking it off to await the higher prices. Attorney Charles Waite, who owns one of the largest and most valuable pieces of land in Clackamas county, will soon have it surveyed, and placed on the market in town lots, by William Cantwell. The property adjoins the county fair grounds, and the soil is excellent for farming purposes.

Regular services will be conducted on Sunday at the M. E. church as follows: Sunday school, 10:00 A. M.; morning service, 11 o'clock; Epworth League, 7:30 P. M.; evening service, 8 o'clock. Rev. W. J. Weber, pastor.

The company Mr. Armstrong is connected with does not belong to the trust, and has the only independent pottery traveling men west of the Mississippi river. Mr. Armstrong is the right man in the right place.

Editor George W. Dixon will leave next week for a week's outing at Newport. J. Lindsey, proprietor of the Valley Hotel at Woodburn, was in Canby on a business trip Wednesday. Mr. Lindsey before going to Woodburn, was the proprietor of the Magnetic Springs at Glenwood, Santa Cruz County, California, which was a large summer resort. Mr. Lindsey is doing a thriving business at Woodburn.
