BIG POWER PLANT NEAR MOUNT HOOD

WATERS OF ZIGZAG RIVER TO BE HARNESSSED TO PRODUCE ELECTRIC POWER.

The waters of Zigzag River, on the Mount Hood road, will be harnessed and made to turn out electric power, if the plans of the promoters are carried out.

General plans of the promoters of this enterprise have been kept quiet, but it is no secret that a power plant of considerable magnitude is contemplated, and that there is ample means to finance the undertaking.

It is conceded that the Zigzag stream, with its tributaries, for power purposes is almost ideal because of its great fall and well-sustained volume throughout the year.

Work was resumed last week on the Rhododendron Tavern, on Zigzag river near the tollgate on the Mount Hood wagon-road.
