

BLAST FIRED STRIKES CAR

PASSENGERS HAVE A NARROW ESCAPE FROM CARELESS WORKMEN.

WINDOW IS SMASHED

Mrs. Goodell and Children of Champep. Were Sitting Near Window When Stone Crashes Through.

Passengers on the 7 o'clock Oregon City car out of Portland Tuesday morning had a thrilling experience as the car passed the last turn before entering into the long stretch to The Oaks. A party of workmen were blasting along side the track and carelessly exploded a blast just as the car whizzed by. A huge rock struck one of the window frames, the report and shock startling every person in the car. One window was badly shattered and pieces of broken glass flew all over the car.

In front of the broken window sat Mrs. Goodell, with her two little children. Their home is in Champep, whence they were bound after having spent several days in Portland. They missed the steamer at Portland and took the Oregon City car to catch the boat here. Luckily they were not injured, though this is no fault of the workmen, who neglected to place signals to stop the car. Mrs. Goodell has a weak heart and was badly frightened.

Would Mortgage the Farm.
A farmer on Rural Route 2, Elmire, Ga., W. A. Floyd by name, says: "Buskin's Arnica Salve cured the two worst sores on my leg. It is worth its weight in gold, and I would not be without it if I had to mortgage my farm to get it." Only 25c at Jones' Drug store.

HOME FROM WASHINGTON.

Fisheries Superintendent Finds Hatchery Operations Satisfactory.
Henry O'Malley, superintendent of the United States Bureau of Fisheries operations in Oregon and Washington waters, returned Friday from the East.

He attended the International Fisheries Congress in Washington, D. C., from September 11 to September 26, and then went to his old home at St. Johnsbury, Vermont, for five days, going from Vermont to Boston and then coming West. Mr. O'Malley found the work under his direction in excellent condition. The egg take at the principal stations follows: Little White Salmon, 9,000,000; Big White Salmon, 5,500,000; Eagle and Tanner Creeks, 700,000; Clackamas, 1,040,000. These eggs are all from the Chinook run. Work at Rogue River has not yet been started.

GREAT WORDS DEFINED IN EPIGRAM.

(By William George Jordan, in Associated Magazine.)
Prejudice.
Petrified opinions, which ignorance on the warpath. The condemnation of the unknown. Packing the jury box of mind before the trial.
Loyalty to a dead judgment.
Moral cowardice that cannot look a fact squarely in the eye.
The kindergarten stage of bigotry.
Betting that our watch is a better timekeeper than the sun.
A cataract on the eye of judgment.
Someone has said that the only difference between a rut and a grave is its length. But there is a way out of the rut. Ask us.

'MAGININ' THINGS.

(By Berta Hart Nance.)
What gives us all our splendid books, 'bout love and war and famous crooks, Some fellow sits and looks and looks, 'Maginin' things.
What makes young Tompkins whistle so And often to the florist's go, And smiling greet a former foe? 'Maginin' things.
What makes Bill Bryan's smile so bright, A mellow gleam of happy light? Does he, too, sit up late at night 'Maginin' things? —The Bohemian.

MAKE THIS ACCORDING TO THE DIRECTIONS

PREPARE AT HOME BY SHAKING INGREDIENTS WELL IN A BOTTLE.

What will appear very interesting

to many people here is the article taken from a New York daily paper, giving a simple prescription, which is said to be a positive remedy for backache or kidney or bladder derangement, if taken before the stage of Bright's disease:
Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime.
A well-known druggist here at home when asked regarding this prescription, stated that the ingredients are all harmless, and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so. He further stated that while this prescription is often prescribed in rheumatic afflictions with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache, as it has a peculiar action upon the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter which cause sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial.

MAPLE LANE FAIR.

(Continued from Page One.)

A. J. Lewis, first.
Best collection of alfalfa—C. W. Swallow, first.
Best collection of dried fruit—Mrs. A. Mautz, first; Mrs. A. J. Lewis, second.
Best collection of English walnuts—C. W. Swallow, first.
Best exhibit of honey—Mrs. A. Mautz, first; A. J. Lewis, second.

Best exhibit of lounge throws—Mrs. Mary Shelby, first and second.
Best exhibit of sofa pillows—Mrs.

Mary Shelby, first.
Best exhibit of hand embroidery—Mrs. B. C. Cone, first.
Best exhibit of curios—Mrs. Mary Shelby, first.
Mr. and Mrs. A. J. Lewis' collection consisted of fruit, vegetables, etc. The display of 13 varieties of grain with the 13 blue ribbons, attracted no little attention. His dried fruit consisted of black caps, prunes, apples, butter, six varieties of jellies, 24 jars of fruit and vegetables, pickles, catsup, pie, cake, Northern Spy, Fall Pippin, Baldwin, Bellflower, King Davis, Sweet Apple, name unknown, Jonathans, are the variety of apples in their collection.
Mr. and Mrs. Swallow's collection was placed alongside that of Mr. and Mrs. Lewis, and they, too, had an excellent showing. The six varieties of grapes, consisting of the Worthens, Delaware, Concord, Moore's Diamond, Klatskan and Campbell's Early, were in excellent condition. There were 14 varieties of apples consisting of the Baldwin, Golden Russet, McIntosh Red, Hill's King, King Sweetings, Clavis, Swallow's Greening, originated on Mr. Swallow's father's place in Blaine, Me., Bismarck, Northern Spy, Scott's Best. There were two varieties of peaches, the Salway and the seedling peach, both of good variety for late peaches. The Oregon Champion quinces were those exhibited by Mrs. Swallow. Mrs. Swallow's exhibit of alfalfa was raised on high hill land without any irrigation, and the first, second and third crops were as good as that raised with the irrigation ditches. There was also a fine collection of squashes, sweet corn, walnuts, 22 jars of canned fruit, canned vegetables, grape juice, chow, chow. There were eight varieties of pears, the winter Bartlett, Cardwell, DeAnjou, Winter Nellis, Napoleon Butter, etc.
Mr. and Mrs. William Beard made a good showing from their farm, and won several of the blue ribbons. Their display consisted of apples, vegetables, nuts, cakes, jellies, canned fruit and canned vegetables, etc.
Mrs. Sarah Derrick had an exhibit, although not as large as some of the other exhibitors had, and was awarded three of the blue ribbons. Her display consisted of butter, bread, jellies, biscuits, canned fruit, and her display made everyone feel hungry, even if they had partaken of a hearty dinner.
Mr. and Mrs. A. Mautz' exhibit was splendid, and showed a great deal of energy on their part. Their exhibit consisted of apples, cakes, butter, dried fruits, canned fruits and vegetables, pickles, fresh vegetables, grapes, etc.
Mrs. Mary Shelby's collection of Alaska curios attracted attention, and the photos accompanying the exhibit gave the exhibitors an idea of the country where these were found.
The hall for the occasion was decorated with flags, Oregon grape and

BLOCKADED.
Every Household in Oregon City Should Know How to Resist It.
The back aches because the kidneys are blocked. Help the kidneys with their work. The back will ache no more. Lots of proof that Doan's

Kidney Pills do this.
H. H. McCarver, 201 Cherry St., Portland, Ore., inspector of freight for the Trans-Continental Company, a man who is well-known among the railroaders of the coast, says: Doan's Kidney Pills are among the few proprietary remedies which did all that is claimed for them, and they have my thorough confidence. I used them for backache and other very marked symptoms of kidney trouble which had annoyed me for months. I think a cold was responsible for the whole trouble. It seemed to settle in my kidneys. Doan's Pills rooted it out. It is several months since I used

them, and up to date there has been no recurrence of the trouble. I have recommended them to a number of the boys about the freight house and I know if they gave them a fair trial they certainly must have been pleased with the results.
Plenty of proof like this from Oregon City people. Call at Huntley Bros' drug store and ask what customers report.
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

Frank Busch, Oregon City

The Only Wood Preserving Paintstain WHERE AND HOW Avenarius Carbolineum Wood Preservative May Be Used to Advantage!

ON ANY WOODWORK ABOVE OR BELOW GROUND OR WATER SUBJECT TO DECAY.
To paint barns, granaries, stables, sheds, silos, cornerbeams, elevators, hogpens and other outbuildings.
Fenceposts, anchorposts, hitchingposts, etc., painted twice, as far as coming into the ground and a foot above it, will last twice as long.
Bureau of Forestry Dept. of Agriculture mentions our preparation in its publications as "an excellent preservative of posts, car-lumber, sills and structural lumber."
To paint bridges, tanks, troughs, cisterns, wind mills, sills, doors, porches, steps, sidewalks, etc.
Wagons, wheels, wheelbarrows, ladders, agricultural implements should be painted to prevent warping, shrinking of wood and loosening of hoops and tires.
ON SHINGLE ROOFS
It is especially well adapted to paint shingle roofs, every other paint increases rot of same by only coating part of shingle, forming a ridge stopping the water; two coats of Avenarius Carbolineum however, applied to finished roof, will penetrate through the entire shingles and prevent curling and cracking.
ON ROPES AND CANVAS
Ropes, canvas, nets, will become waterproof more durable, won't decay and remain soft and pliable in coldest weather.

On Silos.
Use Avenarius Carbolineum since Twenty Years with excellent satisfaction. I paint the woodwork in my two silos erected 10 years ago, once every two years, today the wood is in very best condition, not a particle decayed. It is certainly a great wood-preserved.
HILLY BEACH FARM, H. Riedberg, Proprietor, Hartland, Wis., Dec. 28, '05.

Stringers, Sidewalks.
Thirteen years ago I painted the stringers below sidewalk before my store once with Avenarius Carbolineum, they are now perfectly sound and while my neighbors renewed their sidewalks long ago mine is still perfect.
JOHN G. LEGEL, Charles City, Iowa.

Shingles, Sills.
Shingle roofs and sills painted 12 years ago with Avenarius Carbolineum are today as good as new, although the sills lay on the ground. I recommend its use to anyone.
RUD. RADEL, Glasston, N. Dak., Dec. 11, '05.

Waterproofs Wood, Stops Flies.
We use Avenarius Carbolineum continually since 15 years and will keep it at hand as long as I and my eight children are farming. It makes wood waterproof and more durable. Its use prevents vermin and same will not gnaw such wood. If mixed equally with castorol and rubbed onto the hair of horses, flies will not bother them.
JOS. SCHROEDER, JR., Timken, Kas., Nov. 25, '05.

Preserves Wood.
I use Avenarius Carbolineum since 18 years and find it to be the best wood preservative on the market.
GEARY MILLING & EL. CO., A. T. Kruse, Geary, Okla., Jan. 13, '04.

Preserves Wood, Nets, Ropes.
I use your Avenarius Carbolineum since 25 years and there is no better paint for woodwork exposed to dampness. It is also the best protective coating for ropes, nets, etc., and prevents mildew and decay of same.
JUL. SPREEMAN, Afton, Minn., Dec. 5, '05.

Shingles, Fenceposts, Watertanks and Wagonboxes.
A shingleroof which I painted with Avenarius Carbolineum 18 years ago is in good condition today while a part of it not painted completely decayed. Fenceposts painted with it are perfectly sound after 6 years. Also use it on stables, watertanks, wagonboxes, etc., and inside and outside of poultryhouse with best of satisfaction.
H. ANDERSON, Walnut, Iowa.

Preserves White Oak Posts.
I confirm that seasoned white oak fenceposts painted with Avenarius Carbolineum will stand in the ground for 18 years, otherwise they last 6 years, well I think this a good investment.
ROBERT HARTWIG, Hackney, Mo., Dec. 3, '02.

Fence and Anchorposts.
Fence posts and anchorposts painted with your Avenarius Carbolineum in 1892 are today as sound as new while my neighbors replaced them three times since then. Against vermin among poultry it is excellent.
JOHN DITTMER, Grant, Neb., Dec. 9, '05.

Sills, Hogpens.
Sills below my catsheds and hogpens painted with Avenarius Carbolineum are as good as when put in, and fence posts to which it is applied last very well in sandy soil.
MOOSE ISLAND FARM, W. H. Niemackel, Prop., Herman, Minn., Dec. 4, '02.

As A Barn Paint.
I painted my house roof with 3 coats Avenarius Carbolineum in 1892 and the shingles today lay as perfect as when new. Fenceposts painted at the same time are absolutely sound today. It is also an excellent remedy against vermin.
HENRY METZLER, Shumway, Ills., Nov. 28, '05.

As a Roof Paint.
I painted my house roof with 3 coats Avenarius Carbolineum in 1892 and the shingles today lay as perfect as when new. Fenceposts painted at the same time are absolutely sound today. It is also an excellent remedy against vermin.
HENRY METZLER, Shumway, Ills., Nov. 28, '05.

Protects Woodwork.
Avenarius Carbolineum completely protects woodwork against rot, this is my personal experience covering 12 years.
CARL A. WIEBKE, R. F. D. 1, Cullman, Ala., Nov. 28, '05.

Protects Woodwork.
I examined some woodwork painted with Avenarius Carbolineum 12 years ago and find same in excellent condition.
W. C. MARTINDALE, Roan, Ind.

On Posts.
Posts below a shed painted with Avenarius Carbolineum some 5 years ago are in such a good state of preservation that this induces me to enclose herewith another order.
CLAREMONT LAND & HRG. CO., Englewood, Kas., C. D. Perry, Pres.

Preserves Watertanks, Shingles.
After 12 years I can state that Avenarius Carbolineum protects woodwork against rot especially watertanks; shingles painted with it do not warp; against vermin it is the best remedy I know of.
FRED OCKER, Glenville, Nebr., Nov. 26, '05.

We used nothing but Avenarius Carbolineum in our poultry business to kill mites. One coat of it applied with a brush does the work for five or six years. This liquid is worth \$10 a gallon to any poultry breeder as a labor saver. It is also a splendid disinfectant, costs no more than common paint and covers more. We are never without it.
B. F. HISLOP, Breeder of Fancy Poultry, Milford, Ill.

It is now 15 years since I used your Avenarius Carbolineum and as I obtained best results with it both as a protective coating for woodwork against vermin I always keep it on hand and recommend it on every occasion.
CARL HELMICH, Route 4, Sebawaing, Mich., Nov. 23, 1905.

Addressed to The Cosgrove Co., our Le Sueur, Minn., agents:
Sirs:—A year ago this spring my poultry house became so infested with lice as to be uninhabitable for man, or hen. My entire family struck on gathering eggs, or doing anything else about the place. The setting eggs would be fairly speckled with red mites and half of the setting hens gave up their jobs. The poultry house is very large, fifty feet long, fourteen feet wide and nine feet high and there were "millions" in it. One would get the little red and white mites all over him as he went into the hen house. I got from you some Avenarius Carbolineum and painted the roosts, nest, front steps and perches with it and the result of the appli-

cation was that the Avenarius Carbolineum drove every mite and bug and louse to death or flight within a week and there have been no more of them in the poultry house since. It solved the lice question at once and forever. It is the most remarkable thing of the kind that I or anyone else ever saw. You ought to rename it "The Modern St. Patrick." No one that uses this Avenarius Carbolineum in his hen house will ever have any trouble any more with lice, or red mites or white mites, or anything of the kind.
Thankfully,
ORA J. PARKER, City Attorney, Le Sueur, Minn.

Your Avenarius Carbolineum is one of the best remedies for purposes you advertise it for and even more. I have not a hen louse on my place since I used it, while formerly vermin plagued the life out of my hens, and me too. I painted also my apple trees with it last fall and no rabbit touches them since.
NATH. T. JOHNSON, Shaner, Okla.

It is now over seven years since I first used your Avenarius Carbolineum in one of my chicken houses and I have not seen a mite in it since. Mind you, this is with one application and not a dozen or more.
It is wonderful how it does penetrate into the wood and cedar posts which I tried it appear to be perfectly sound today.
Avenarius Carbolineum has no equal as a mite exterminator. They cannot live where it is used.
CHARLES ARNOLD, Breeder of Exhibition White Wyandottes exclusively, Leland, Ill., Dec. 6, 1905.

Three years ago I purchased a sample of your Avenarius Carbolineum and as I find it satisfactory I would

like now to buy it by the barrel. Please quote prices.
PAW PAW POULTRY FARM, T. C. Kiser, Prop., Route 3, Butler Ind., Dec. 20, 1905.

I used Avenarius Carbolineum since years to paint the trunks of my fruit trees and find that it prevents ants and other vermin on the trees and I can recommend it to any one as the most reliable for this particular purpose.
I use the Avenarius Carbolineum as follows:
I slaken 10 pounds of lime and mix it with about a quart of Avenarius Carbolineum as long as the lime is hot and immediately make use of it generally in November and March of each year.
F. GROEGER, Riley, Ind., Dec. 1905.

I used Avenarius Carbolineum since years to paint bee hives and to prevent ants and other vermin in same and the result has always been good without exception.
GEO. FR. SCHUESSLER, Lewisburg, Ky., Nov. 25, 1905.

I am very well satisfied with your Avenarius Carbolineum, it helps against all vermin and I also find it excellent for its other purposes.
E. SCHWALBE, Jonesboro, Texas, Dec. 7, 1905.

I think your Avenarius Carbolineum the finest poultry spray that has ever been put on the market. I bought a five-gallon can two years ago, and it kept the whole ranch free from mites. I did try several other preparations before, but found that it was only by continually applying them I could keep down the mites, but one application of your Avenarius Carbolineum lasts for years.
LEITH LEGHORN POULTRY YARD, C. B. Carrington, Prop., Haywards, Cal.

Further Uses of AVENARIUS CARBOLINEUM
Horses, mice, rats, ants, will not gnaw on wood painted with Avenarius Carbolineum, it will drive away ants everywhere even from beehives.
The weevil will not damage contents of corncribs, etc., painted.
Sprayed or painted to the interior of barns, hogpens, etc., it is a strong disinfectant, preventing contagion and disease.
Reasonable care should be taken that animals do not come in contact with freshly painted woodwork.
Mixed equally with lard or castorol it is excellent on barb wire cuts and rubbed into the hair of horses, etc., twice a week, it will exterminate bodyvermin and keep away flies.
USE ON FRUIT TREES
Applied alone or mixed with lime during fall to tree trunks, it will exterminate the San Jose scale and all other noxious insects and rejuvenate the bark.
Applied during summer it will cure cankerous growth, blight, mildew, fungus, black-knot, etc.
Never apply it to roots or foliage, but only to tree trunks of live trees.
COVERING CAPACITY
One gallon Avenarius Carbolineum covers
350 square feet on dressed lumber }
350 square feet on rough lumber } is required
100 square feet on shingle roofs } for the
25 fenceposts } second coat.

For Sale by FRANK BUSCH, Oregon City
