

NEW LUMBER COMPANY

CONCERN CAPITALIZED AT \$75,000 TAKES OVER OREGON CITY MILL AND LUMBER CO.

Articles of incorporation of the Oregon City Lumber & Manufacturing Company have been filed in the office of County Clerk Greenman.

SPRINGWATER.

Mr. and Mrs. J. W. Lewellyn were on a visit to Salem. They celebrated Thanksgiving at the home of the latter's mother.

One of our teachers is quite ill with la grippe, so school had to be dismissed Thanksgiving evening.

The Y. P. C. E. had an interesting social Saturday evening.

The Dodge people had an entertainment besides the social part. They raised \$10 to buy books for the Sunday School.

In upper Springwater last Sunday Ed. Strunk and Miss Belle Howard were joined in matrimony.

Miss Mervie Park has been engaged to teach school near Sandy.

Mrs. Annie Tolson is quite ill, presumably with la grippe.

I was in the Enterprise of November 27 a communication by E. M. Gill about Senator C. W. Fulton and others going up and down trying to get Statement No. one's to stop.

I endorse every word he wrote. If our legislators go back on their word and signatures, it is doing more to make a Democratic state of Oregon than all the Democrats could say or do.

DODGE.

The entertainment at Dodge Saturday evening had a large crowd, which was well pleased with the program.

There was a wedding at J. Howard's of Dodge, last Sunday. Miss May Bell Howard and Ed. Strunk, of Garfield, were married.

Miss Myrtle M. Park, of Dodge has gone to Veljevoe district to commence her school, which starts December 1.

She has the promise of a six months' term, with assurance of a three months' term and will get \$40 per month.

F. Dibble, the Meadowbrook school teacher, was a visitor in Dodge Saturday and was in Springwater, getting some dental work done.

CLARKES.

Olive Withoe went to Portland to visit for a week.

Anna Grossmiller and Josephine Fully spent Thanksgiving in Portland.

Mr. Pully and family enjoyed a very pleasant visit from an old friend, Mrs. Clark of Idaho.

They are arranging for a Christmas tree at Clarkes M. E. church.

Mrs. Stella Graves is visiting her parents, Mr. and Mrs. Larkins.

Mr. and Mrs. J. E. Peck are intending to locate near Salem.

Don't go hungry as Mr. Force has a new supply of flour in.

Mr. and Mrs. Shepperd have returned from their visit.

Medicine That is Medicine.

"I have suffered a good deal with malaria and stomach complaints, but I have now found a remedy that keeps me well, and that remedy is Electric Bitters; a medicine that is medicine for stomach and liver troubles, and for run down conditions," says W. C. Kleister, of Halladay, Ark.

Electric Bitters purify and enrich the blood, tone up the nerves, and impart vigor and energy to the weak. Your money will be refunded if it fails to help you. 50c at Jones Drug Co.

The Road of Life.

Long is the road, and strange, and, oh, so full of change!

Now, straight and smooth, it reaches far away between fair fields and waving woods.

Now, boulder-strewn and difficult find steep, it turns to right or left or fades into mysterious gloom a step before.

Along this road earth's myriads pass. None backward turn.

But all, some swiftly, some with lagging feet, move on toward the unknown goal.

No one remembers where the path began, and no one knows where it shall end.

It may be in a desert dark and lone and full of fear, for aught the travelers know;

It may be at the open door of some fair, mirthful inn.

The wise ones question not of this. They go their way, making good cheer with jest and song and friendly aid.

Content are they to think that He who planned the course also ordained the goal.

DON'T HITCH YOUR HORSE IN THE RAIN—Get acquainted with E. W. Melton & Co., Complete House-furnishers. Use their free stable room.

Lousy cattle may be safely sprinkled with woodashes, rubbed with sulfur ointment or whale oil, or with petroleum emulsion.

The temperature of the cream in winter should be about 70 degrees, though from four to six degrees lower will be all right if a separator has been used.

Do not let the heifer form the habit of drying up as soon as cold weather begins. Give her plenty of good food, keep her warm and comfortable and she will develop into a profitable cow.

Don't guess at anything you do in the dairy line—know. That is the only safe rule. Scales, a thermometer, paper and pencil—these are the things that every dairymen ought to have close at hand all the time.

SHAKE INGREDIENTS IN A BOTTLE TO MIX TELLS HOW TO PREPARE A SIMPLE MIXTURE TO OVERCOME DISEASE.

To relieve the worst forms of Rheumatism, take a teaspoonful of the following mixture after each meal and at bedtime:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup of Sarsaparilla, three ounces.

These harmless ingredients can be obtained from our home druggists, and are easily mixed by shaking them well in a bottle. Relief is generally felt from the first few doses.

This prescription forces the clogged, inactive kidneys to filter and strain from the blood the poisonous waste matter—and uric acid—which causes Rheumatism.

As Rheumatism is not only the most painful and torturous disease, but dangerous to life, this simple recipe will be doubt be greatly valued by many sufferers here at home, who should at once prepare the mixture to get this relief.

It is said that a person who would take this prescription regularly, a dose or two daily, or even a few times a week, would never have serious Kidney or Urinary disorders or Rheumatism.

Cut this out and preserve it. Good Rheumatism prescriptions which really relieve are scarce, indeed, and when you need it, you want it badly.

Summons.

In the Circuit Court of the State of Oregon, for the County of Clackamas, Sheddick Rosebrook, Plaintiff,

vs. Eva Charlotte Rosebrook, Defendant.

To Eva Charlotte Rosebrook, the above named defendant:

In the name of the State of Oregon, you are hereby required to appear and answer the complaint against you herein on or before the 16th day of January, 1909, said day being after the expiration of six weeks from the first publication of this summons, and if you fail to so appear and answer, for want thereof, the plaintiff will apply to the Court for the relief prayed for in his complaint, viz.: for the dissolution of the bonds of matrimony existing between yourself and the plaintiff.

This summons is published by order of Hon. Thomas A. McBride, made and entered on the 31st day of November, 1908.

First publication on the 4th of December, 1908.

Last publication on the 15th of January, 1909.

Two Ways.

"When winter comes with its ice and snow, I'll sit in the house and dream," said Jo;

"I'll poke the fire till it blazes bright, And fill the room with a cheery light; And then as the sparks fly up and glow I'll think I'm out where the daisies grow"

Flat on my back in the long, soft grass, Watching the cloud ships swiftly pass. To dream is almost as nice, you know, As to have things happen," quoth lazy Jo.

"When it's cold and snowy," said Master Ned.

"I'm going to work in the barn and shed; I'll help my father fix up the plow,— It's broken so he can't use it now. The teeth in the harrow I'll have to mend, And lots of time on the tools I'll spend. It's good for muscles and blood to be At work with hammer and mallet," said he.

"And then when thee bluebirds begin to sing, Father and I will be ready for spring. It's a great deal better to work in the shed Than to loaf around in the house," quoth Ned.

Hints for Stock Owners.

One of the most costly leaks in the winter dairy is caused by compelling the cows to drink ice water from a trough in an unsheltered corner of the barnyard. It requires a good deal of feed to restore the animal heat to start the checked milk bow.

Do not neglect the colts and calves. An ill-kept yearling is bound to deteriorate into a stunted beast.

Do you every day pull soggy or frozen fodder from an exposed stack? Discouraging work, is it not, and poor eating for the stock. Resolve not to do it next winter.

When the roads get slippery have the horse shod up sharp. Many a horse has been spoiled by slipping on an icy road.

A long halter strap in the stable is a source of danger. It enables the horse to back out of the stall far enough to kick its stable mate.

Oats, wheat bran, linseed-meal, clover hay and roots are the best food for breeding ewes.

It is better not to breed any sheep less than two years old. Then you get better lambs and your ewes are apt to grow to a much larger size.

Sheep are dainty feeders. They will not eat hay that other creatures have munched over. They refuse grain taken from a ratty crib.

One may tell a tree by its bark, but it is difficult to tell a dog by its bite.
