**McLOUGHLIN HOME STAYS**

**HISTORIC HOUSE OF OREGON CITY'S FOUNDER WILL BE PRESERVED.**

**COUNCIL TAKES ACTION**

Structure Will Be Moved on Property Belonging to City—Legislature Will Be Asked to Help in Restoration.

The historic home of Dr. John McLoughlin, founder of Oregon City and the father of Oregon, will be saved. This much was conclusively decided Wednesday night at a meeting of the council, when every member of that body expressed himself heartily in favor of the preservation of the house where the old doctor lived when he was really the ruler of this territory. It has been tentatively decided to move the building from its present site, which will be used for manufacturing purposes by the Hawley Pulp & Paper Company, to the rear of the lots on Third and Main streets. The Main street front of this property is occupied by the Cataract Hose Company. Friends of the McLoughlin home project advance the idea that the result would be improved if the house was placed on the front lot, and the Hose Company building moved to the rear, and this feature may be determined later. The cost of moving the McLoughlin building will not be large and the council will attempt to defray the necessary expense, but if assistance is needed, it will be forthcoming from public spirited citizens. George H. Himes, secretary of the Oregon Historical Society, has promised to come to Oregon City and help along the good cause.

Ex-Mayor E. G. Canfield was present at Wednesday night's meeting and talked for some time in support of the home, and he will be one of the men to come forward with material assistance when it is needed. Representative J. U. Campbell suggested a resolution asking the Clackamas County delegation in the legislature to endeavor to secure an appropriation from the State to restore the building as the project has more than a local significance. Mr. Canfield, Rev. A. Hillebrand, George A. Harding, Mrs. Eva Emery Dye, H. L. Kelly, Dr. W. E. Carl and E. D. Kelly were appointed a committee to arouse interest and create interest not only among the people of Oregon City, but throughout the whole state.

The building is rented at the present time, and the idea has been advanced that after the removal of the house, the upper floor could still bring in a rental, and that the lower floor could be adapted for the use of the water commission, and other municipal purposes. It is a matter of great satisfaction that the historic structure will escape demolition and will finally be restored as a permanent memorial to the man to whom the existence of Oregon City is due.

## REFLECTIONS ON "THE ONE-TALENT-MAN"

"Wanted:--The Man Who Knows!"

"Into one he gave five talents, to another two and to another one; to every man according to his several ability."

**I**N EVERY Great City, in every busy mart, there's a sign out, "Wanted: The Man Who Knows!" Above the cinder-laden smoke-clouds it is written; at the top of a thousand and magnificent structures it appears, signaling to competence and ability and fitness. The message instills new hope in lagging ambition—rallies to renewed effort those who falter in the strife. Know this! There's a place waiting, position and honor, success, victory for "THE MAN WHO KNOWS."

There's no call for the ill-equipped man.

There's no place for the half-finished man. For the man who has increased and multiplied the talents given into his keeping, everywhere, there is a tempting offer. But there is no demand for the "One Talent Man."

There's a terrible battle waged for commercial supremacy. Within the ranks of the contending armies are legions of privates; the captains of industry are few.—There's a demand for men fitted to direct the movement of the World's energy. Wherever human effort is centered there's a sign out, "Wanted: The Man Who Knows!"

Our country calls to its young manhood—put on your armor for the fray! None can stand, at the beginning of life's battle, in the front rank. Let such place be ambition's goal. There's no glory, no triumph in the rear. Have you courage and determination? Have you the noble ambition that compels integrity? Knowledge you may acquire. Experience and training are within your reach. It is for you, young man, if you wish, to become "The Man Who Knows."

Every great manufacturing enterprise, every great transportation system, every great commercial industry moves from a vital spot—the office. The office is the heart that infuses life blood into organizations of men and money. Within the little compartment whose door bears the word "President" or "Manager", or "Superintendent" is centered a power that is reflected in every civilized portion of the world. These doors are closed to the thousand men who superintend the details of the immense enterprise—They all open to "The Man Who Knows." The President sends for him at a time of uncertainty. The manager calls him in a time of perplexity, the Superintendent consults him, heads of departments seek him—one day, at the head of this great organization, you find this "Man Who Knows."

NOTE.—The foregoing is intended to direct the thoughts of young men to greater possibilities. Too many have no motive in life—no objective point. Youth requires an awakening. Otherwise idle, thoughtless boyhood grows into useless, improvident manhood. It falls upon older heads to keep before the young people the rewards of industry, frugality, enterprise and integrity.

We have this to say to you who believe that the field of endeavor should be made large as possible: who believe that the user of manufactured goods be brought as close as possible to the manufacturer; who are willing to look into other avenues of profit besides 6 per cent. mortgage loans; who are broad minded enough to believe you can usually learn something from the "other fellow," even if you are a little more capable than he.

We are selling agents for the unsold portion of the stock of the corporation known as E. W. MELLIE & CO., a retail house-furnishing enterprise. This stock provides an investment for any amount from \$10 to \$500. Par value of stock is \$10 per share. It will pay 10 per cent. on the investment to start with and we believe it will pay 20 per cent. within the year.

If you will just go to the trouble of having a personal talk with us or of writing for particulars you will undoubtedly feel that you were repaid for your trouble. Investigate the proposition whether you do any thing more or not.
