STAFFORD.

We had a freeze Thursday, Friday and Saturday nights, the mercury going down to 15 above on Friday night, and Sunday morning Stafford wakened to a world of beauty, every bush, tree, leaf or spear of grass covered with a pure tracery of white frost, which did not all disappear until the afternoon. Although the sun shone brightly Friday, Saturday and Sunday, the air was crisp and bracing. Some plants left on porches got nipped, but not killed.

Our people have been frost-bound—three frosts hand-running for three nights and the frost did not all thaw either. Last Sunday evening the rain commenced and Monday found the roads ice-bound. On our way to Oregon City we met two teams going to Mungoway & Little's saw mill for lumber. We invited them to go back; their horses being poorly shod, would hardly pull the empty wagon without a load of lumber, so they turned back.

The company has purchased the majority part of Mrs. Mary Dickens' 200 acre tract of land and expects to sell it in acreage tracts of from 10 or more acres, as purchasers may want. We hope that this company may prosper in this undertaking. They are paying 20 cents an hour for laborers. After the middle of this week the work will stop till after New Years. There is plenty of room for lots of people in Clackamas County. Last Summer there were parties here in Oregon looking up land for a colony and they went to Southern California and went back home again and one of their managers told your correspondent that these parties would be back to Oregon about Christmas to look at Oregon and stated that these parties did not like Southern California, as it was too dry and hot. Let them come and settle in the Oregon Country, especially in old Clackamas County.

The first order of business was the revision of the Bellinger and Cotton's annotated code which was found to be sadly out of joint. The next order of business was the consideration and revision of the Oregon road law (it is expected that it will be revised shortly) to adjust it to the needs of the people of the district, but before this could be done, it was found that the parliamentary rules would not conform to the occasion and the matter was referred to a noted parliamentarian who finally convinced the people that he had forgotten to bring his book, but by reference to a few former rulings recurred in the minds of the people of Molalla, the meeting once more regained its equilibrium and proceeded to vote the three-mill tax.

Dead district No. 22 held a very interesting meeting at the city hall Saturday, December 19, for the purpose of voting a three-mill tax. The first order of business was the revision of the Bellinger and Cotton's annotated code which was found to be sadly out of joint. The next order of business was the consideration and revision of the Oregon road law (it is expected that it will be revised shortly) to adjust it to the needs of the people of the district, but before this could be done, it was found that the parliamentary rules would not conform to the occasion and the matter was referred to a noted parliamentarian who finally convinced the people that he had forgotten to bring his book, but by reference to a few former rulings recurred in the minds of the people of Molalla, the meeting once more regained its equilibrium and proceeded to vote the three-mill tax.

Down at Sunday school where the big boys go to study the children of Abraham, it is customary to respond to the roll-call by attending a school, but by reference to a few former rulings recurred in the minds of the people of Molalla, the meeting once more regained its equilibrium and proceeded to vote the three-mill tax.
