NEWS OF THE COUNTY

MULINO.

1909 has brought a little winter along after all, this being the coldest weather we remember in many years. It would be an impossibility to get a half dozen people to agree on the temperature of the past cold winters. The average Oregonian's memory is rather short lived.

Mulinoites are enjoying fine sleighing this week. It is great sport for the young people especially. The hill back of Mrs. Churchill's is a scene of activity these days. The young folks have a regular toboggan slide there and go flying down over the snow on all kinds of sleds, and some of them without sleds as they get dumped off in the snow and are unable to stop.

Professor Baldwin, of the Macbrack school, spent Saturday and Sunday at Mr. Wallace's home enjoying the sport, coasting with the boys. Miss Myrtle Craig and sister, Mabel of Clackamas Heights, are spending a few days at Mr. Wallace's home. Johnny Erickson left Saturday for Corvallis, to attend school at the Agricultural college.

Mr. Waldron, our stage driver, comes out in a sleigh. He does not carry very many passengers this cold weather. William Wallace, of this place, died at 4 o'clock Tuesday morning, and was buried at Oregon City, Wednesday. Last night was the coldest of the season, the temperature going six below zero.

The Canby mail carrier passed through our burg Sunday for the first time since the snow fell.

BEAVER LAKE.

News is scarce, but snow is plentiful—20 inches with the thermometer at 15 above.

Ben Wade was doing business in Scott's Mills one day last week. C. F. Early, foreman of the Ogle Mountain mines, is stopping in our midst during the blizzard.

The dance at Ed Wyland's last Friday night was a grand success. The light fantastic was tripped till a late hour. Sawing wood and feeding stock are the principal chores now-a-days.

LOGAN.

Oh! The snow, the beautiful snow. Darn the stuff, why don't it go. The problem, at this writing, is to keep apples, potatoes, canned fruit, hands and toes from freezing and some did not solve it in time. This morning, the 12th, the thermometer showed 2 degrees below zero. Lamps, stoves, blankets, sacks and numerous other things are brought into use. Wood piles melt away fast, and the farmers' friends of the feathered tribe are dying fast, chickens are prisoners.

Mr. and Mrs. Gustav Fischer have another son at their home. Gus says he is raising soldiers to fight the Japs. A Swales has returned from a two weeks' visit with his two daughters who live down the Columbia.

Folger's Golden Gate Coffee

Just Coffee, but perfect Coffee.

Your grocer will grind it—better if ground at home—not too fine.

COLTON.

The thermometer points to $\frac{1}{2}$ degree below zero, two feet of snow is something unknown in this part of Oregon for quite a number of years. Damage is done by the snow in the neighborhood in breaking down roofs by its weight. Quite a lot of damage is also done on telephone lines. Cattle ranchers and farmers are busy looking for their cattle.

U. S. Dix was butchering hogs last Monday. George Gardner of Oregon City, is at Colton for a short visit. Mr. Laferrey, of Estacada was visiting at F. Counterman's last week. He started for Estacada Friday and had a hard time getting through the snow with his cart.

Born, to Mr. and Mrs. Oscar Hult, a son, last week. J. Putz helped Mr. Bergreen butcher hogs.

When the snow melts, high waters are looked for, which Mr. Snodgrass will make good use of in driving his bolts.

STAFFORD.

It has been a blizzard week since Tuesday, the 5th. On that day it blew a gale all day, reminding Dakota residents of old times, when they had to hang to their hats with one hand and to the earth with the other, to keep from being blown off into space. It snowed too, and has been adding more or less every day or night since, until at least a foot deep lies upon the ground and in places drifted to three feet or more, and Saturday night about two inches of the beautiful fell. There was a clear, bright sunshine Sunday afternoon, but mercury only climbed to 22, so we had no thaw. On Friday night it registered at Mr. Gage's, who keeps the record for the Bureau at Portland, two degrees above and since the native Webfooters have become a little used to it, sleighs, mostly home made, begin to fly about.

Mr. Aerni, whose day for town is Wednesday of each week, did not go till Friday last week.

People are putting stoves or lanterns into their cellars to guard against freezing.

Powls stay disconsolately in their scratching pens, not knowing what to make of the snow, and if one ventures to fly a few feet it settles in the treacherous whiteness, and would stay till it froze stiff if not carried back to safety.

Mrs. Mays, with her son and daughter, spent Sunday afternoon at Mr. Gage's.

Mr. Freeman and two children are visiting with her sister, Mrs. George Aden, of Frog Pond. The two Mrs. Gage drove to Oswego Saturday to attend Grange, and being well wrapped and eastern born and bred, they suffered no hardship.

We have just heard that the mercury at Gage's went down to two degrees below Monday night, the 11th, being four degrees colder than Friday night.

Mr. Thomas and Mr. Toedeman went to town Tuesday with a load of hogs. Miss Julia Weddle returned last week Monday from Jefferson, where she spent the holidays with relatives.

MEADOWBROOK.

With 18 inches of snow and two above, the people are getting along fine.

Professor Dibble has completed his school after spending the holidays with his best girl at Walton. Not much doing for excitement. Everybody is rather tender hearted, or footed, do not know which.

Mr. Hall and Mr. Boncher made a business trip to town last week to have a trip through the snow. I suppose.

ELLIOTT PRAIRIE.

The snow is only 18 inches deep on Elliott Prairie with a hard frozen crust about nine inches down. Everybody in the vicinity has built or is building a sleigh as they now expect to have use for it for at least six weeks. George Laffer with his two-horse open "shay" stopped at Blair's Sunday and from there went to Elliott Prairie church.

Dorian Todd was out sleighriding Sunday with the young ladies from across the river. Harry Garret was visiting Nellie Blasser Sunday.

Nellie Hinkle and husband are visiting in this neighborhood. There was no debate Friday evening owing to the absence of the president, vice-president and secretary; though there was a number stopped there that were out sleigh riding.

All the schools have been closed on account of the intense cold. Mr. Brown is taking advantage of the president, vice-president and secretary; though there was a number stopped there that were out sleigh riding.

REDLAND.

Every one is sleighing in Redland this week, in spite of the cold weather.

Elmer Hitchman came out in a sleigh from Portland to visit Mr. Hubbert's family.

The barn on the Campbell place collapsed from the weight of snow on the roof; also a barn of Mrs. Stone's. Mr. Hooper is building a large addition to his house.

Born to Gus Fisher and wife, a 7½ pound boy, Wednesday, January 6.

A. L. Allen found a little girl's white scarf on the road near Green Point. Owner can have same if they will leave word at Larson's store, or send postal to A. L. Allen, Route 2.

TEAZEL CREEK.

Yes, we all love the beautiful, but we would like to get rid of the beautiful snow just now. We would prefer the welcome sight of the gentle rain and mud and it would seem like dear old Oregon then.

There was no church last Sunday at Teazel Creek on account of so many windows being broken by some person or persons which makes it too cold to warm up with one stove. Jesse Barb is reported better this week. His many friends will be glad to see him out again.

Mr. and Mrs. Melton and Rachel spent Sunday at the home of Francis Quinn.

Stockmen are looking blue, especially those with plenty of stock and a scarcity of feed, but we will say eat, drink and be merry, for tomorrow a Chinook may come.

MOUNTAIN VIEW.

The cold weather still continues. It is cold weather every morning. Two inches of snow fell again Tuesday evening. Cow bells for sleigh bells are heard in all directions.

There is a great deal of sickness here at present. The children are having chicken pox and there is one case of whooping cough. Grandma Molloy is still on the sick list.

Grandma Bullard and Mrs. Frank Bullard are suffering with hard colds. Mrs. Parish is sick this week. Dr. Strickland is in attendance. Louis May and baby, of Sellwood, spent two days last week here with his parents.

Mrs. Della Gotterberg took a sleigh ride out to Mt. Pleasant Monday to visit with relatives.

Miss Hazel Francis went to Chehalis, Wash. last week and will visit there and at Ballard, Wash., among relatives.

CLARKES.

It looks like Klondike at present. We have two feet of snow in Clarkes and Sunday night was the coldest night we had. Some are enjoying sleigh rides and some want rain again. This is the coldest winter we have had for years.

The M. E. Church people had their basket social last Saturday evening. Mr. Marshall was hauling hay last week.

Mr. Marquardt was in town last week Wednesday on business.

Frank and Harry Bilmer took a load of spuds to town last Friday and returned Sunday.

Our mail was delayed for a few days on account of the snow. The carrier could hardly travel.

STONE.

The 12th inst. the thermometer registered two degrees below zero and it is reported that on Arthur's Prairie at Mr. Hagerman's, it registered 10 degrees below zero within a distance of less than three miles. The cold snap will be of long duration and has prevented us from getting out of the house to enjoy the cold spell.

MOLALLA.

"Our cows" has had 18 inches of snow fall, with the mercury playing about zero on the morning of the 11th and 12th, which is inclined to send memory back along the cycles of time to the '90's, '80's and '61 and '62, when our nation was engaged in an unpleasantness that none of us desire to see occur again. Same may be said by many in regard to such doings of the morning of the Molalle Valley. When the storm came, on people seemed bewildered and disposed to hole up for the winter, but the low, hue and cry of the likewise astonished and hungry stock soon put their owners on the move to pass out the feed that they had in store for just such emergencies. Then all the old sleds were looked over (sorry looking things some of them were, too), new ones were improvised of various designs. By this time girls became much interested and expectant, and in a degree sleighriding became an assured thing, then as it colder grew the unusual pleasure grew old very fast, but so long as it lasts we are determined to wear it out since it only comes our way about once in ten years.

Mr. Larson while sawing wood for Ralph Holman decided to adjourn for the snow storm.

Professor Dibble and R. L. Orem went hunting Saturday, but came home without any deer, which they were looking for.

School was out Monday. Professor Dibble bid his scholars all good bye and went home to kill a cougar if he could find one.

The school attendance was quite small during the snow.

JOHN W. THOMAS, DENTIST. Molalla Mondays.

Estacada and Eastern Clackamas

ESTACADA.

Miss Gertrude Morro, who has been visiting with friends and relatives in Portland, during the last week, returned home Monday.

Mrs. L. C. Parker and daughter, Mrs. Florence, arrived Monday from Los Angeles, Cal., to visit Mrs. Parker's son, T. W. Parker, who recently purchased the G. L. Dix property. They intend to make Estacada their home.

Mrs. W. R. Stenell and two children arrived Monday from Jacksonville, Or., to join Mr. Stenell, who came here about ten days ago. Mr. Stenell recently purchased property in this vicinity.

The mail carrier has been unable to make his rounds this week owing to the inclemency of the weather.

Harry Groff and Tom Spinnett, who have been in North Yakima for about a month returned last week. They have been setting out fruit trees on their land which they recently purchased at that place.

George Shultz was in Barton Sunday visiting with the Jud family, but owing to the cold weather he was unable to get home until Monday afternoon.

The cold weather has had very little effect on the school as it has been kept open every day with the exception of the first and second grades which have been closed during the morning sessions.

Mr. Townsend, who formerly ran a meat market here, will again open up a shop. Mr. Townsend has been connected with a store shop in Portland for the past year.

Ed Hunt is building a boat, which he intends to use during the high water. It is generally expected, that if the snow goes off with a heavy rain there will be a flood.

A Morrow is doing a great business with his cutters these days. They are in great demand as there are very few in this section of the country.

EAGLE CREEK.

Snow, snow, snow, is the order of the day. This is very unusual weather for old Weirfoot. The thermometer registered 2 below zero on the hill Tuesday morning, the 12th. We hope it will soon moderate.

On New Year's eve a surprise party was given on Mr. and Mrs. Ray Woodie, and they were greatly surprised. About 25 persons were present and spent a pleasant evening together.

Miss Myrtle Woodie returned to Portland to resume her studies, after spending the holidays at home.

Dick Gibson butchered five hogs Saturday.

Mr. and Mrs. John Palfrey, of Hope, North Dakota, came to Eagle Creek last week to make his brother, E. L. Palfrey and family, a visit. As it gets so much colder in their home state than it ever gets here, this cold snap will not have much effect upon them.

Mr. and Mrs. Jess Douglas returned to Portland Sunday on their return to their home at Wrentham, Or., after making their relatives a visit of over two weeks' duration.

Miss Bina Douglas accompanied her brother Jess and his wife to Eagle Creek, Sunday.

Ed Douglas attended the dance at Barton Saturday night.

Miss Elsie Hats and Mrs. R. B. Gibson called on Mrs. Wesley Douglas Sunday evening.

Mrs. Wesley Douglas made a brief business visit to Eagle Creek on Monday.

FIRWOOD.

Everybody had a jolly time at the basket social entertainment Saturday evening. Several sleighing parties came from Sandy. Plenty of occasion for mirth, while the Coons held the floor. There seemed to be some attraction for traps, who certainly showed they had had some experience in that line. Little Ruth DeShazer set a good example, in speaking, for those much older than herself. The determination to have an organ for the next meeting was shown in the liberal bidding on the baskets. The lowest priced basket being \$2.50. The total receipts of the evening were \$50.25. Many who had planned on attending were kept home on account of the snow. Much credit is due A. G. Bornstedt, of Sandy, who auctioneered the baskets. No one could have done better. Mr. E. D. Hart, in behalf of the association, went to Portland Monday morning, to secure an organ. He has had considerable experience with musical instruments. A business meeting and debate will be held on January 23 at the Firwood Hall. "Resolved, that the Public Schools should adopt a course in Agricultural training." A short literary programme will be rendered. Come every body.

Anton Malar and Albert were out with their sleigh, jingling bells to attract the young ladies' attention.

Miss Laura Milliron, who has been spending the past three months with her parents at Pasadena, Cal., has returned to Firwood. Her many friends are glad to see her back.

J. Kiesecker is spending a few days with his folks at Firwood.

Miss Nina Heacock, the Firwood school teacher, expects to be able to resume her work in another week.

Harvey Kohres is spending the week with his folks at Dover.

DAMASCUS AND ROCK CREEK. Nothing doing. Even the thermometers have their ups and downs, but down to a very cold degree now.

The Gresham mail carrier does not come at all on account of snow drifting 25 feet near Gus Richey's at Eymore. Most of the people are tied up, wires broken and only mail from Clackamas route. Those who have good sleds are out, and there is a great many enjoying the snow while it lasts. Some are attending church at Sunnyside, going with their sleighs; only a few attending school.

Dimas has a photograph gallery, and is located at Mr. Bidler's house. The photographer does good work. Call and have your pictures taken. Lots of people sit for a photograph and then won't stand for it. He also enlarges pictures.

DODGE.

Mr. Editor, you ought to be out here to see our country. We have 24 inches of snow. The trees are loaded so the limbs are breaking even off of the large fir trees.

Mr. Haylett and Ernest Jenuisaki brought out some cattle from the mountains Sunday, the 6th.

E. Lacey and son were out hunting cattle the 10th.

We have had the biggest snow storm in this section of country we have had for 24 years. It keeps most of the farmers busy nowadays doing chores and getting wood to keep warm.

J. W. Howard, of Dodge, is keeping fire in his cellar to keep things from freezing.

Ernest Boylan's cow has come in from the mountains. It was at I. M. Park's place the 7th with some of E. Dibble's cattle.
