The bequests and donations of the American people for the public good during the past year reach the astounding total of ninety-one millions of dollars. Of the donors Andrew Carnegie stands at the head with a total of gifts amounting to \$7,600,000. John D. Rockefeller comes next with a total of \$2,000,000 in round numbers. Mrs, Russell Sage taxes third place and her gifts amount to \$1,-559,000. Much of this money may be tainted, but it is assisting a great many worthy people to obtain education and a chance in the world.
