## STAFFORD.

Your correspondent feels just now like shouting for sunny Oregon, as contrasted with rain-soaked California, only the weather of Oregon is liable to change before these from get into print, and we will all forget the sun ever shone.

Flows are busy turning the brown soil in various places in and about Stafford; hop yards are being cleaned, poles reset where necessary and the ground prepared for the plow and training of vines in season.

Stafford is something like Egypt of old. The surrounding country comes not exactly to buy corn, but almost ever other commodity. John Wanner came to Seedlings to buy hay, L. Davidson came to Wilkins to buy wheat, J. L. Smith, mill man at Tualatin bought oats of Will Schatz, and then it goes down the line, to say nothing of the hundreds of dozens of eggs transported to Portland every week.

## YOU PROVE IT!

An invitation to all owners of cylinder machines—Columbia and others.

We could argue the quality of Columbia Indestructible Cylinder Records until a year from now—but what good would it do if you could not prove it for yourself by coming into our store and seeing and hearing it? We could print a whole newspaper every day about the special and original Columbia processes of manufacture—and get nowhere at all if the Records did not bear the evidence.

## COLUMBIA INDESTRUCTIBLE CYLINDER RECORDS

won't break, no matter how roughly they are used, they won't wear out, no matter how often they are played. Moreover, their tone is far purer, clearer, more brilliant than that of any other cylinder record made. Don't merely take our word for it—come inside our store and listen. Cost 35 cents!
