From Washington comes the report that the wife of the President is emulating the example of Mrs. Longworth, daughter of ex-President Roosevelt, and is taking daily lessons in the management and control of an electric runaway which has been purchased recently.

The anthracite miners' convention has adopted a resolution asking President Taft to appoint a commission to arbitrate differences. The resolution looks to arbitration as a final solution, if the men and their employers cannot agree, and such a commission would be similar to the one appointed by President Roosevelt in 1902.

An emergency military supply depot is soon to be established on Corregidor Island, at the entrance to Manila Bay, and an appropriation of \$250,000 is available for the erection of quarters, commissary, and medical stores and other buildings to be included in the depot. This is an excellent site from a military standpoint, as its remoteness from the mainland imparts to it the necessary quality of protection in time of war.

On April 1 the last of the army of Cuban pacification left Havana on the Cuban transports McClellan and Sumner, and now "Cuba Libre." Judge Magoon, until recently Governor of Cuba, has no hesitation in declaring that the Cubans are capable of self-government, and that the great majority are peace-loving, sober, industrious, law-abiding citizens, inspired by the love of family and of country. Time will tell.

Consideration of amendments to the Payne tariff bill by the Ways and Means Committee began this week and it is reported from an authoritative source, that the committee expects to report not less than two hundred amendments to the bill. This is about fifty less than were carried in the Dingley bill when it was considered for the second time by the committee. Doubtless the great majority of these amendments will be merely formal and of no importance so far as the country is concerned.

The maximum-minimum tariff plan in the Payne bill seems to meet with less opposition in Washington than when the bill was first introduced. Unquestionably the country wants tariff rates lowered generally and any arrangement which would involve applying maximum rates, except in an emergency, would meet with approval. The minimum both of protection and revenue should be clearly established, and the temporary application of the maximum rates to a small part of our importations should be treated as an accidental enlargement both of protection and revenue and as in no sense a "retaliatory measure."

President Taft has made it clear to the leaders of Congress that he will engage in no controversies over specific duties in the tariff bill, though he adheres in his position that he will deem it to be his duty to veto the Payne bill if the Senate deprives it of its revisionary features. The President, also, has let it become known that if the tariff bill gives promise of inadequate revenue, Congress may hear from him with a forceful recommendation of some form of income tax. He has already gone to the length of having the Attorney General prepare a bill providing for a tax of two per cent on the dividends of

Increasing Knowledge May Prolong Earth's Career.

By Professor EDWARD L. NICHOLS of Cornell University.
THE end of the world has long been a favorite subject of speculation. The ancients and our forefathers of the middle ages were pleased to imagine some sudden final disaster, as by fire. Science in our own day furnishes a basis for a MORE DEFINITE FORECAST. Sudden catastrophe is still by no means precluded, for astronomers have occasionally witnessed outbursts in other regions of the universe which may have produced profound changes throughout neighborhoods like our solar system and have brought to some tragic end life on planets like the earth. With the development of the doctrine of energy has come the CONVICTION OF AN END OF THE WORLD, inevitable as the death of the individual is inevitable. In neither case, however, is the duration of activity FIXED.

BIOLOGISTS ARE BEGINNING TO INTIMATE, AND, IT WOULD SEEM, WITH GROWING CONFIDENCE, THE POSSIBILITY, REMOTE, BUT THINKABLE, OF CONSIDERABLE EXTENSION OF THE TERM OF BODILY LIFE. EQUALLY CONCEIVABLE IS IT THAT THE RACE, IF IT BECOME SUFFICIENTLY WISE BEFORE OLD AGE OVERTAKES IT, MAY SO MODIFY AND CONTROL THE CONDITIONS OF LIFE AS TO GREATLY PROLONG ITS CAREER.

Acting Together, Japan and America Can Hold Dominion Over Pacific.

By Governor JAMES N. GILLET of California.
TODAY the relations between the United States and Japan are very friendly. Both are great powers among the nations of the world. Both stand in a position geographically to DOMINATE AND CONTROL THE COMMERCE OF THE PACIFIC.

ACTING TOGETHER THEY CAN DICTATE THE POLICIES WHICH OTHER NATIONS MUST PURSUE IN THE FAR EAST AND CAN PRESERVE THE TRADE THERE. AS FRIENDLY ALLIES MANY BENEFITS WILL INURE TO BOTH NATIONS AND A GREAT COMMERCE CAN BE CARRIED ON BETWEEN THEM TO THE ADVANTAGE OF OUR PEOPLE, BUT AS ENEMIES THE COMMERCE OF BOTH CAN BE DRIVEN FROM THE OCEAN.

Every reason, therefore, exists why there should continue between Japan and our government the most friendly relations. It is the expressed wish of each nation that this shall be

certain corporations. Evidently Mr. Taft takes seriously his pledge and that of the Republican platform to revise the schedules in the interest of the whole people and will see to it that there is an equitable readjustment in accordance with changed conditions.

The "Budget Committee," composed of three members of the cabinet, with the Secretary of the Treasury as the chairman, recently created by the President is certainly an innovation in the federal government and one which will meet with general approval. This committee is to supervise all estimates for federal expense before they are submitted to Congress, with the object of so cutting them as to bring them within the limits of the estimated revenues for the same fiscal year. President Taft manifests every sympathy with the avowed aim of Congress to curtail the federal expenses so as to restore that prosperity which the Treasury has enjoyed until quite recently. Another step in the same direction is the Senate committee on the expenditures of the executive departments, recently appointed, and which has for its chief purpose the curtailment of the appropriations so that they may be brought within the limit of estimated revenues. "Will Congress really prove willing to exercise that self-restraint which is the first essential to economy?"

THE HOME CIRCLE

The Beauty of Plain Living.
We love to see people live well, says a thoughtful writer, and to dress respectfully, and enjoy themselves, but there is a happy mean in all these things, and when that is passed in the direction of extravagance, the people distress and enslave themselves and diminish their ability to do good. For the sake of keeping up the styles, people live far above their income, harass themselves with debt, wear themselves out, and keep themselves in a constant nervous strain by giving fashionable dinners, fashionably entertaining, and making fashionable calls. How much better is a plain, quiet, Christian home where all is peace and cordiality, the neighbors heartily welcome to come and go at will, and freed from the pestering, senseless conventionalities of fashionable life! Why should our earthly darknesses from both worlds bring a warmth which is essential to life in the vegetable kingdom. There is a convincing and vivifying power in soul sunshine; for, as has been well said, men and women, youth and children, seek the friendship of the sunbeams, and all social circles we come cheerfulness. A sunny face is an open pleasure to hearts and homes. If it burdens are lightened, care dispelled, sorrow banished, and hope made to reign triumphant where fear and doubt, and despondency held high their banners, will only tend to enfeeble your own joys heightened, by your perennial, heaven-lighted, sunny face.

The Lips.
Many women bite their lips just before entering a drawing room so that they will become a pretty red. They make a great mistake when doing this, for, besides the fact that the color thus produced lasts but a moment, biting makes the lips tender and predisposes them to chapping. If the lips are naturally dry and cracked, rub them slightly at night with equal parts of water and glycerine. Do not pass the tongue over the lips. It is contrary to the law of good breeding, and the moisture is injurious. Ever blisters are most disagreeable. If they appear, touch them lightly with powdered alum and they will soon be cured. To preserve pretty lips, constant smirking should be avoided, also grimacing and all bad habits of the mouth (many persons screw up the mouth and push out the lips in speaking).

Baby's Weight.
A 1 year old baby should weigh 20 1/2 pounds. If healthy, the gain should be just six pounds the next year. At 2 the weight should be 31 pounds, and at 3, 35 pounds. The normal baby will weigh 41 pounds at 5, and 45 pounds at the age of 6 years. During the next four years—up to 10—the weight should be 43 1/2, 51 1/2, 60 and 64 1/2 pounds. If baby has kept close to his average the chances for continued good health are bright.

Sunshine.
Sunshine in the lives and souls of people is just as potent in the realm of home as the sunshine that drives darkness from both worlds and brings that warmth which is essential to life in the vegetable kingdom. There is a convincing and vivifying power in soul sunshine; for, as has been well said, men and women, youth and children, seek the friendship of the sunbeams, and all social circles we come cheerfulness. A sunny face is an open pleasure to hearts and homes. If it burdens are lightened, care dispelled, sorrow banished, and hope made to reign triumphant where fear and doubt, and despondency held high their banners, will only tend to enfeeble your own joys heightened, by your perennial, heaven-lighted, sunny face.

What to Forget.
If you would increase your happiness and prolong your life, forget your neighbor's fault. Forget all the slanders you ever heard. Forget the temptations. Forget the faultfinding, and only remember the good points which make you fond of them. Forget all personal quarrels or histories you may have heard by accident, and which, if repeated, would seem a thousand times worse than they are. Blot out, as far as possible, all the disagreeableness of life; they will come, but will only grow larger when you remember them, and the constant thought of the acts of meanness, or worse still, malice, will only tend to make you more familiar with them. Obliterate everything disagreeable from yesterday, start out with a clean sheet today, and write upon it for sweet memory's sake only those things which are lovely and lovable.

Tea Biscuits.
One cup of warm sweet milk, in which is melted one teaspoon of lard and one tablespoon of butter. To this add two tablespoons of sugar, one-half teaspoon salt and one half yeast cake dissolved in a little lukewarm water. Into this sift one and one-half pints of bread flour; mix well and let rise five or six hours. Form into biscuits, place in pan, let rise one hour in warm place, wipe over with milk and bake fifteen or twenty minutes in hot oven.

Creole Kisses.
Beat together 1 pound of very fine confectioner's sugar and the whites of six eggs for fifteen minutes. At the end of that time add one teaspoonful of cream of tartar, then beat some more, not stopping until the mixture will stand alone. Now add one teaspoonful of vanilla and one cupful of chopped nuts of any kind, although hickory nuts are the best, and bake in a thin layer. When baked, cut in to narrow strips and roll them, still hot, over small sticks.

Entire Wheat Bread.
Dissolve one tablespoon of butter in one cup warm water and add one cup milk. Let it become lukewarm and add one-half yeast cake, dissolved in one-fourth cup lukewarm water, scant teaspoon of salt and two tablespoons of sugar. To this add three pints of entire wheat flour; mix well and let rise over night. In morning knead, form into loaves and raise in pan.

Advice of a Novelist.
A girl who was fond of scribbling stories once asked a well-known novelist how she could succeed, and the novelist answered: "Oh, when you're writing something, just imagine everybody else did it—some one you hate—and go for it without mercy. Then set to and write it over again; indeed write it again and again, always repeating the ruthless criticism part of the programme."

Erectness of Carriage.
To hold herself well has now become indispensable to the woman or girl who wishes to make a creditable figure in the world of smartness. Lounging is completely out of date. The directoire style put it entirely out of court. The adoption of the low bodice line for ordinary day wear, with filling in of transparent chiffon, net or lace, imperatively demands that the shoulders be held well back.

Don't Worry.
Don't mope around and worry. Don't think the end is near; There's nothing going to come along That's worth a single frown; We take our days too gloomy; We make our wheat all chaff; There won't be any trouble— Just laugh.

Care of Water Bags.
After filling a rubber water bottle with hot water press the sides of same before you screw on the top. In so doing all the steam comes out and there will be no danger of the bottle ripping, no matter how hot the water.

Carrots with Onion.
Slice fine enough carrots for five or six people; add three large onions sliced and a scant teaspoonful of salt; boil three quarters of an hour, then strain; add two tablespoonsful of butter, one tablespoonful of flour; salt and pepper, mix thoroughly and chop fine.

Sad but True.
What this country needs is not more protection or more free trade, but more machinery. There are said to be twenty-seven hairpin factories running night and day in this country and they can't make hairpins fast enough to keep the hair out of the butter.—Judge.

Columbia Records

YOU PROVE IT!
An invitation to all owners of cylinder machines—Columbia and others.

We could argue the quality of Columbia Indestructible Cylinder Records until a year from now—but what good would it do if you could not prove it for yourself by coming into our store and seeing and hearing it? We could print a whole newspaper every day about the special and original Columbia processes of manufacture—and get nowhere at all if the Records did not bear the evidence.

COLUMBIA INDESTRUCTIBLE CYLINDER RECORDS

Won't break, no matter how roughly they are used, they won't wear out, no matter how often they are played. Moreover, their tone is far purer, clearer, more brilliant than that of any other cylinder record made. Don't merely take our word for it—come inside our store and listen. Cost 35 cents!

Class Reunion to be Held at Jefferson Medical College.

Dr. M. C. Strickland is in receipt of an invitation to a class reunion at the Jefferson Medical College, from which he graduated just 29 years ago, April 4, 1909. The time set for the reunion will be about the time the American Medical Association meets in Atlantic City. Jefferson Medical College is one of the leading medical colleges in the East, and many of Dr. Strickland's college chums will gather on the day of the reunion.

Five Rooms for Attorney Hedges.
Attorney J. E. Hedges, who is occupying office rooms in the Wehndard Building, is having the rooms renovated and will occupy in all five office rooms, including those recently vacated by Attorney Franklin T. Griffith. Mr. Hedges will have the office refurnished, which when completed will make one of the most convenient and attractive office rooms in the city.

Sheriff Has Busy Time.
Monday was a busy day in the sheriff's office, as that was the last day for the flat payments and half payments of Clackamas County taxes. Over 175 people called during the day and paid their taxes, thus escaping the 10 per cent penalty and one per cent interest. An additional one per cent will be added to all delinquent taxes.

Have your standard and live up to it. Set that standard according to your own income and your own judgment. This trying to live up to the standard of others is what destroys the happiness of many households. Families with an income of \$1000 a year make a desperate effort to live up to the standard of those with \$1,500 and those with \$2000 a year. We have such a foolish fear of what our neighbors will do or think, or say. We have not the moral force to fix our own standard and live up to it as we ought. The courage of one conviction, the independence of one's sense of what is best for one's individual self and family are valuable possessions of this age of artificially and striving for effect.
Happiness is a perfume that one cannot shed upon another without a few drops falling one's self.
