Mr. MacMillan is a California pioneer, and has been in poor health for about a year and came to Oregon with the hope that the trip and change of air and climate would prove beneficial to his health. The village of Wilsonville has had no big celebration since the advent of the electric car line, and is consequently looking forward to a large crowd coming over the new line to help celebrate the glorious Fourth and incidentally take in the fresh country air, glance at our green fields and beautiful surroundings. This grand celebration will take place on Saturday, July 3. The enterprising town of Canby will have to keep busy, if she expects to have the first Union District High School in Clackamas County, because Wilsonville people have been talking of a union high school for some time. Such a movement would be of inestimable value to the people of Wilsonville and the surrounding country and if the districts co-operate, which they undoubtedly will do in the near future, the high school here will be assured. The farmers near Wilsonville are a progressive, wide-awake set of men and in the matter of being up-to-date citizens, are always "Johnny on the spot."

MACKSBURG.
Still the good weather continues, but two or three days of good rain

would benefit the crops a whole lot. Some of the fall grain looks good while some is in a bad condition. The spring grain is all looking fine while there is only about a half a stand of hops. J. W. Williams was in Portland over Friday and Saturday. Mr. Williams is preparing to open up his confectionery store in a short time. Leonard Wehner is able to be up and around again as he was seen in our burg one day last week. Our local blacksmith says he has almost more to do now than he can handle conveniently. STONE.
This is the 7th day of the sixth month, and a beautiful day. Mr. Crater, our near neighbor, wheeled to our sanctum in a wheelbarrow a 24 box crate of Clackamas County strawberries. These berries are the finest we have seen this season. They are equal to any Hood River berries we have seen this season. The Mumpower and Griffith Sawmill Company haul logs a spell and then saw a spell and hitch on to the planer and the shavings come off the boards. The electric plant outfit company is drilling here in the Clackamas River to find a better foundation. It is hoped that the company will find a good foundation for their power plant. Last Sunday there were 16 automobiles stopped in Judge Hayes' outing grove, east of Clear Creek bridge and took a pleasure rest. One large auto had seven persons in the car. Several hacks and buggies also had a pleasant rest. The Clackamas Station chicken and egg and pig trader is around on time this week and is quite willing to take every chicken and egg and even has taken in one pig and stuck the pig in a chicken coop. The amount of cash distributed to the patrons here is \$93.06. When we get our wireless telegraph station and our electric plant, store, it will be quite an improvement and then we will not have to go to Oregon City, or Portland. We can stay at home and saw wood and such things. The Clear Creek Creamery butter maker has plenty of work to keep him from getting lazy nowadays, and some of the cream handlers have to be on the go late and early. A serious epidemic of measles among children and youths interferes greatly with business and pleasure. Next Sabbath is the time set for Children's Day in the churches. An effort will be made to carry on the service in the Congregational church. Rev. J. L. Jones, who has somewhat recovered from his recent illness will preach in the morning at 11 o'clock. The "English Tea" given by Mrs. Hargreaves and Mrs. Jennings, at the home of the latter last week Thursday, was a very enjoyable affair and heartily appreciated by the Ladies Aid of the Congregational church, for whose benefit it was given.
