Prominent Strawberry Growers of Canby.

Some of the finest berries that are

now in the markets are raised in Canby, and there is no doubt but that some of the finest berries that are raised in the state are here. R. S. Roe and C. J. Roth, two of the prominent strawberry growers of the county are disposing of their berries at good prices. These berries are eagerly sought for by merchants, here, in Oregon City and in Portland, and always command the highest market prices. Mr. Roth states that he will only have one-third of the crop this year to that of last year, this being on account of the extreme cold weather and late spring. The berries are of excellent quality, and he has now employed eight pickers daily, who receive one cent per box. Mr. Roe also has a force picking berries on his place. The berries are carefully picked and packed for the markets. Last year Mr. Roth shipped from his strawberry patch 470 crates of berries. On his place are the Clark Seedling, and Magoon. Mr. Roth states that he thinks the Clark Seedling gives more satisfaction both for table use and for preserving. The berries are firm and of rich flavor. There are six acres in berries on the Roth place, the vines of which receive the care

ful attention of the owner. Mr. Roe, who has a ten acre tract of land all of which is under cultivation shows what can be raised near Canby. The three acres of strawberries, of which there are many varieties including the Magoon, Lovett, Clark Seedling, Gandy and Big Robert, always find a ready market. The Big Robert and Gandy are of very large size and of luscious flavor. Mr. Roe has already shipped 600 pounds of strawberries to the markets in this city, Portland and Oregon City, and expects to ship many more before the close of the season, as many of the berries are of late variety. On the Roe place are all kinds of berries including the Hiansa, Phoenician, raspberry, black and red Logan. The Phoenician are bearing this year for the first time, and are considered a delicious berry, resembling the Logan berry. Mr. Roe has shipped 600 pounds of gooseberries to the Portland market, receiving six cents per pound for same.

Mr. Roe and Mr. Roth have worked faithfully to make their farms two of the most desirable in the county. Both men are active boosters, who believe in making farming a paying proposition and to encourage others to come here and engage in the farming industry. Each year Mr. Roe and Mr. Roth have taken an active interest in the exhibit of berries at the Clackamas County Fair Association met Sunday afternoon in the office of the secretary J. M. Lee. It was decided to build two stock barns for the exhibit of the stock, these to be 60x100 feet. The buildings will be near the pavilion, at the east end of the race track. The buildings will be constructed during the summer, and be ready for the fair.

The grandstand, recently completed, and the large exhibit building will be painted white, and a new high board fence, enclosing the 40 acre tract, will also be constructed. The work on which has already been commenced. It has been decided not to disturb the ground of the fair grounds, as the grass has taken on a rapid growth. The dust and sand were but features last year and much complaint was made by the visitors, who were compelled to travel in this while at the fair grounds. It is probable that the association will secure benches for this year's fair, as this was found lacking last year. If benches were placed in the grove near the exhibit building, this would be an ideal place for the visitors to rest and eat their lunches. All of the brush and obnoxious shrubbery will be removed this week.

The Fair Association has arranged to give \$1500 in cash for the races. The following schedule has been arranged, but it might be possible that a few changes will be made before the opening of the fair:

Thursday, September 29—Trotting, 2:30 class, best 2 in 3, \$150; pacing, 2:30 class, best 2 in 3, \$150; running, one-half mile dash, weight for age, \$50.

Friday, October 1—Farmers' trot, \$50 prize. Trotting, 2:16 class, one mile heats, 2 in 3, \$250; running, 5-8 mile dash, \$100.

Saturday, October 2—Trotting, 2:30 class, best 2 in 3, \$150; pacing, 2:15 class, best 2 in 3, \$250; running, one mile dash, weight for age, \$100.

There will be a two-mile relay race each day, the prize will be \$150.

City Council.

The city council met in regular session at the city hall on Monday evening. The mayor and one councilman were absent. Business of importance was brought up for discussion. The

bills amounting to \$65 were allowed, and the City Recorder authorized to pay same.

The main business of the meeting was the cow ordinance and fire engine, the latter which was recently brought here from Portland. It seems that fire engine, which was purchased from the A. G. Long Company of Portland, did not give satisfaction to some of the residents of the town, when a test was given on Main street last week. A huge brush heap was made on the street, and kerosene applied, and afterward lighted. The fire was extinguished by the engine, but not as readily as some thought it should. It is probable that a representative of the company will return to Canby and give another demonstration. It is a chemical fire engine No. 11, of double tank, each tank having a capacity of 25 gallons, cost \$750. The contract that was made was \$200 to be paid down and the balance on time at 6 per cent, 15 days after delivery and acceptance of the engine. The majority of the councilmen refused to accept it, and the recorder was ordered to notify the Long Company that the engine was not accepted.

The cow ordinance was next brought up and read for the second time, which was passed, but as the mayor was not present the ordinance was not signed by him. If Mayor Mitts should sign this, the law will go into effect 30 days after it is signed. Many people owning cattle in Canby are opposed to this and it is probable that steps will be taken by them to prevent it from operating. This also applies to chickens and geese. Several owners of property here will be notified as to the condition of their sidewalks, and new ones will have to be constructed.

The council adjourned to meet the first Monday in July.

"Six Sharps, One Flat."

"Six Sharps, One Flat," will be presented by Oregon City talent at the hall on Friday night under the auspices of the Canby Band. The play was last week presented at the Shively opera house in Oregon City, before a large and appreciative audience. It is probable that Canby will turn out and help the band boys. The young people will come to Canby by team, returning after the play. Among the specialties will be several choruses, whistling solo by Harold Swafford, and a skit by Philip J. Sinnott, the clever young comedian of Oregon City, and Carl Schram. The cast is as follows:

Mabel Maitland, one who reads and impersonates.....Eva Aldredge  
Dorothy Dean—one who sings.....Polly Perkins—who is a pianist  
Florence Cross  
Joyce Jocelyn—who is an artist.

W. C. T. U. NOTES.

Licensed Saloon.

Wishing to get a living without hard work, I have leased commodious rooms in Mr. Lovemoney's block, corner of Main Street and Perdido Lane (next door to the undertaker), where I shall continue my business of manufacturing drinkards, paupers, lunatics, beggars, criminals, and dead-beats for sober and industrious people to support. Backed up by the law, I shall add to the number of fatal accidents, of painful diseases, of disgraced quacks, of plots and murder. My liquors are warranted to rob some of life, many of reason; must of property, and all of true peace; to make fathers friends, wives widows, children orphans. I shall cause mothers to forget their infants; children to grow up in ignorance; young women to lose their priceless purity; young men to become loafers, swimmers, gamblers, skeptics, and "laid fellows of the baser sort." Lady customers supplied with beer as good as the best "home-brewed," which will not intoxicate them, but only make them slovenly, lazy, coarse and quarrelsome.

Boys and girls are the raw material out of which I make drunkards, etc. Parents may help in this good work by always sending their children to buy the beer. On two hours' notice I agree to put husbands in condition to reel home, break the furniture, beat their wives, kick their children; beat also mechanics to spoil their work, be discharged and become tramps.

If one of my regular customers should be trying to reform, I will, for a few pennies, take pleasure in inducing him again to take just one glass and start again on the road to hell. The money which he has been wasting on bread and books for his children will buy luxuries for ME. And when his money is gone I will permit him to run in debt and collect the bill by attaching his wages.

Orders promptly filled for fevers, scrofula, consumption or delirium tremens. In short, I agree to help bring upon all my customers in this world debt, disgrace, disease, despair and death; and in the next world the death that never dies. I have closed my ears to God's warning voice. (Hab. 2:12-15) "We have made a covenant with death, and have hell as we are at agreement." I have paid for my license and have a right to bring all the above evils upon my friends for the sake of gain.

Note:—Some have suggested that I display outside the door specimens of my art—but that would blockade the street. A fine assortment of my manufactured wrecks may be seen inside, or at the station house every morning, in the poorhouse, in the asylums, in the prisons and on the gallows.

The Milwaukee team was strongest in batting which greatly helped them in winning the game. The game next Sunday will probably be with Sonny Side on the Milwaukee grounds.
