

# Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half a million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as to what fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.

### TEAR DOWN THE BILL BOARDS.

There are a few people in the city who have mustered up sufficient public spirit to act upon the suggestion of S. P. Davis, secretary of the publicity department of the Oregon City Commercial Club, to make their individual property presentable and attractive by having the weeds and rank grass cleaned away. Mr. Davis rightly believes that this should be done everywhere, as hundreds of tourists visit this city every week and they are always impressed with the cleanliness and beauty of any city. Oregon City probably has more natural scenic attractions than any other town in the Northwest and a little industry and pride on the part of its property owners and occupants of homes will do much to assist the appearance of things. The next movement should be for the city council to completely root out and abolish the bill boards for there is no greater obstacle to civic beauty than those offensive and glaring signs.

German residents of the state are to take part in large numbers in the celebration of German Day at Seattle, August 19. Work has been started in Portland on what will be the biggest and most complete cereal mill on the Coast. Joy riders have been put under a ban by the Portland Automobile Club and steps were taken at a meeting held this week to do away with reckless motorists. Recent killings by autos on speedways about the city by the class of drivers known as joy riders have caused the Automobile Club to start a campaign to restrict dare-devil automobile speeding. Resolutions were passed at the meeting and members of the club are going to do everything they can to put a stop to speeding on public roads.

Contracts were let during the past week for double tracking the Northern Pacific line between Kalama and Tacoma. Between Kalama and Portland a double track already exists. The additional track is being laid to provide for the common use of the Northern Pacific line by the Union Pacific between Portland and the Puget Sound cities. The work is expected to be completed within six months at a cost of about \$1,600,000.

## Starting a Business For Yourself

It is unreasonable for a young man to think that he can set himself up in business without some capital to invest in the enterprise. Perhaps this lack of capital has been the cause of your working for some one else instead of yourself these many years. If so, it is high time that you began to accumulate a fund for the purpose of establishing yourself in some good paying business.

An account with this bank will afford you a convenient, safe and an ideal method of putting your surplus sums where they will grow into a fund, that in time, may make possible your business success.

## CHINAMAN ROBBED AND ASSAULTED

TWO MARION COUNTY BOYS GET INTO TROUBLE AND LAND IN JAIL.

Two Marion County boys, Carl Long and Johnny Fields, are lodged in jail at Salem as the result of a little funny work indulged in last Friday at Donald. While under the influence of liquor the boys assaulted a Chinaman commonly known as "Old Chop," beating him up very badly. His money was taken, about three dollars in all. The boys leaving their victim senseless on the ground, started for the threshing outfit of the Kester Bros., where they expected to get work, but a quarrel arose over the division of the spoils and in the fight ensued young Long got the worst of it and started for Hubbard to have Field put under arrest. Sheriff Minn to having already been notified of the crime committed at Donald by the boys was ready for them and took the pair into custody. At the preliminary hearing their bonds were fixed at \$1,000 each in default of which they were lodged in jail.

Young Fields bore a good reputation around his home and his being mixed up in this scrape came as a surprise to all who knew him.

Long, on the other hand, has done time in jail already for a similar scrape. About three years ago he clubbed Henry Cameron into insensibility, was found guilty and served four months at Salem. The boys are about 23 or 24 years of age.

The Chinaman is a center of a hop yard of Rome Jackson and is generally accorded as a harmless celestial.

\$600 AN ACRE IS PRICE.

Big Returns From Fruit Lands In Southern Oregon.

The crop from twelve acres of peach orchard was recently sold by E. W. Shattuck, of Grants Pass, for \$600 per acre, on the trees. The contracting firm does the harvesting. Seventy-two hundred dollars is not a bad income from only 12 acres of land, and goes to show what advantages can be realized by systematic methods in orchard farming.

Advance ideas and methods are being more generally known and used each year and the results are that the producer is marketing a product that fully meets the requirements of the most exacting consumer. Oregon as a whole offers better inducements to the scientific orchardist than any other state in the union and as a fruit producing country can not be excelled.
