LOCAL BRIEFS

Dr. L. G. Lee, Dentist, Rooms 17 and 18, Masonic Bldg. Melba Byron, of Tualatin, is visiting her aunt, Mrs. D. C. Ely. Mrs. Thomas F. Ryan and children left last week for a sojourn at Yaquina Bay.

Anyone wishing to see W. L. Block in reference to business call at the old stand. Anyone whom Mr. Block owes call and he will settle. Mrs. Charles Schwab and daughters, of Salem, who have been visiting Rev. and Mrs. H. P. Davis, left yesterday for their home.

Theodore Osmund and Henry Henningsen left Wednesday for a week's sojourn at Willhoit. Miss Margaret Mulvey has gone to Seattle for a week's visit with her brother, J. J. Mulvey.

Charles W. Riley was up from Riley Station on business Wednesday afternoon. W. A. Hoyman, a banker of Estacada, and E. W. Bartlett, an attorney of that city, were in town on business Tuesday.

Mr. and Mrs. Herman Amback, of Prineville, R. L. recently called on their old friends, Mr. and Mrs. L. O. Eaton, at Canemah. They had not seen each other for more than 20 years.

Miss Helen W. Gleason left Monday for Salem, where she will visit with friends for two weeks. G. J. Howell and family have joined the excursions to the hop yards for their summer outing.

Miss Bessie Kelly, after a visit with her brother, Roy, at Kildair, Hood River, has returned home. Miss Clara Deute will leave soon for Chicago, Ill., where she will visit with relatives for several months.

Mr. and Mrs. Trimble and family returned to Oregon City Wednesday, after an extended visit at Hill, California. Misses Cella and Bertha Goldsmith, who have been in San Francisco and Sacramento, for several weeks, have returned home.

Joe and Thomas Gerber, who have been rusticated at Government Camp enjoying the fishing of that section, have returned home. Mrs. Clyde G. Huntley and daughter Mildred, who have been spending the summer at Cannon Beach, returned home Tuesday.

The best results are obtained by buying Folger's Golden Gate Coffee—Whole Roast—and grinding it at home just before using. Mrs. Ethel Daly, who has been spending a few days with her parents, Mr. and Mrs. David Cautfield, left Tuesday for Newport, where she will remain for 10 days.

A. W. Cheney, Oren Cheney, O. A. Cheney and daughters, Misses Ethel and Edith, have returned from Wheatland, where they have been enjoying camp life for a few days on the farm of Willis Johnson. Mrs. Don Meldrum and two children will leave the latter part of the week for Baker City, where they will visit with Mrs. Meldrum's parents, for a month.

Mrs. Thomas Charman left Saturday for Seaside, Oregon, where she will spend a few weeks with her daughter, Mrs. J. P. Lovett, and family, who will also spend a few weeks at that resort. Word has been received from Frank Busch, who is making an extended trip in Europe, that he will arrive here in about three weeks. Mr. Busch, when writing last week, was in Dresden, and was having a most delightful time.

Mr. and Mrs. Meldrum McCown, of Medford, arrived in Oregon City Friday. After visiting for a few days they will go to Molalla, where they will visit at the old home of Mrs. McCown, who was formerly Miss Vaughan of that place. John S. Cople, of Nome, Alaska, has been the guest of Mr. and Mrs. E. Harrington, of Gladstone. Mr. Cople will visit the A. Y. P. exposition, and will be accompanied by his sisters-in-law, the Misses Harrington.

George A. Harding and son, Lloyd, left Tuesday for a week's visit to Puget Sound and British Columbia points. They will take in the exposition at Seattle and will visit Tacoma, Victoria, Vancouver and other places of interest. Melville Eastham, of Boston, Mass., was in Oregon City Monday visiting with relatives. Mr. Eastham, who is spending a few weeks with his mother, Mrs. Clara Morey, of Oswego, says that there is no place like Oregon for him.

Kenneth Stanton, E. J. Noble, Earl Walker, D. Woodward, Sam Roake, Don E. Meldrum, Charles Alexander formed a hunting and surveying party this week and left for Josephine County, where they will remain for a month. Miss Goldsmith's, the headquarters for latest styles in millinery. Grand display September 20 and following days.

HERE AND THERE.

Short Sleeves Are In Again—Wash Beltings In All Colors. The rumor that elbow sleeves were coming back into fashion instead of the long ones that clasp the wrists is for their home.

The latest arrival in the shops of linen is in a heavy weave with handsome pale tinted borders on white. One piece seen had a four inch border of Greek design in pale blue and brown. It sold for \$1.50 a yard.

TO CULL IMMIGRANTS

Missouri to Become a Pioneer in a Big Problem.

THE DISTRIBUTING OF ALIENS.

How the Bullion State Will Induce Foreigners of the Right Kind to Settle Within Her Confines—Value of the Scheme.

Missouri has decided to take its pick of the immigrants coming to the United States. Ever since Governor Hadley took his seat the state authorities have been pondering over ways and means to attract a desirable class of immigrants to build up the waste places and put more value into the farm holdings.

The Missouri State Society, of New York has also been working at the other end of the line to accomplish the same object. Last winter these same patriotic sons of Missouri, who make their homes in New York, but who have not lost interest in the welfare of their native state, suggested that if a live, energetic agent were stationed at Ellis island, where the great bulk of immigrants disembark, great good would be likely to come of it.

Now, after a conference with Commissioner Kiefe of the United States immigration bureau, Commissioner Curran of the Missouri immigration bureau has announced that the state board will establish an agency at the immigrant station at Ellis island. The purpose is to work in co-operation with the federal bureau in inducing as many immigrants as possible of the right kind to make their homes in Missouri.

Advantages of the State. This Missouri is to become a pioneer in solving the problem of distributing immigrants throughout the United States instead of leaving them to act upon their own resources without aid or assistance of a trustworthy kind. Two other states, Louisiana and South Carolina, have tried the plan and are much pleased with the results. This state is likely to be still more so, inasmuch as it can offer many advantages in climate, soil and social environment which are lacking in the semitropical gulf states.

Besides being centrally located, along the parallel of travel east and west, Missouri probably enjoys a greater diversity of soil and climate, both of the most favorable character, than any other state in the Union. With fertile grain producing lands in its center and northern counties, stock breeding and dairy farms of the northwest, rice, cotton and tobacco in the southwest and its unsurpassed fruit orchards and vineyards along the slopes of the Ozarks in the southwest, this state presents every advantage to the agricultural immigrant that could be desired, not to speak of the coal, iron, zinc, lead and other flourishing mining industries which extend from the extreme northwest to the southwestern borders.

affording employment at high wages to many thousands of sturdy workers. Many workmen in the coal mines of this state net upward of \$7 a day from eight hours of labor. Thus no industrious immigrant who settles in this state will have occasion to regret his choice so far as material prosperity is concerned, while from a social point of view no warmer hearted and more hospitable people can be found on earth than the native Missourians.

National Bureau to be Established. The federal authorities are said to be so much impressed with the Missouri idea of the state going directly to the source of supply to obtain the pick of the immigrants that they have decided to establish a national immigration bureau at Washington to direct immigrants to favorable locations throughout the United States and to gather information along this line for the benefit of states that may desire to take advantage of the opportunity to augment their population. This plan, if intelligently pursued, ought to go far to establish the much desired equilibrium of labor between the east and west which has been sought after for years alike by public officers in the bureau of immigration and private philanthropists. At least it cannot fail to lessen the tremendous congestion of aliens in the large cities of the east, which is fast becoming a menace to the welfare of the nation.—Kansas City Journal.

Pledged Always to be Spinners. With the corkscrew curl as the emblem of their society, eight Indiana girls recently organized a spinner club in the home of Mrs. Maurice Froham in Columbus, O. They took a solemn pledge they would never, so long as they lived, become married. Bernina Crater was elected supreme spinner. The other officers are vice supreme spinner, keeper of the tabby cat, keeper of the pool parrot, most high maker of fudge, keeper of the inner shrine and protectress of the sacred outh. The girls are Nellie Crater and Bernina Crater of Edinburg, Florence Deitz and Florence Miller of Madison, Ona Gore of Indianapolis, Katharine Harrell, Hattie Watts and Lulu Peterson of Columbus.

New Zionist Organization. A new Zionist organization, which will be in a sense an adjunct of the Federation of American Zionists, was recently formed in New York city. It is to be known as the Solomon Neumann Zion lodge, and its purpose is to aid Zionist institutions throughout the world with especial reference to the founding of more colonies in Palestine. Dr. Solomon Neumann was elected president.

Auction—L. H. Axtel will sell at public auction Monday, September 13, at his place three miles north of Canby, his herd of high grade Jersey cattle.

DISCOVERY OF WISCONSIN.

State Will Pay Tribute to Explorer at Celebration of the Event.

To mark the first visit of the white man to Wisconsin a celebration will be held at Green Bay, Wis., on Aug. 10, 11 and 12. It was 275 years ago this summer that this event happened. Jean Nicolet, an explorer who stood high in favor with Samuel de Champlain, then governor of New France, undertook the perilous task of tracing the region about the great lakes. He it was who went to the shores of Green Bay and was greeted by the Winnebago Indians, who were known as "the mysterious tribe of the wilderness."

Among other events that marked the intrepid explorer's visit to Wisconsin was the exploding of the theory that those who inhabited the region about the great lakes were of Chinese origin. In connection with the celebration planned there will be unveiled at Red Banks a beautiful bronze tablet and another on the site of several ancient forts. Many prominent men will take part in the exercises.

TO SILENCE CANNON.

Maxim Will Fit Large Bore Guns in Germany With Noiseless Device.

Hiram Percy Maxim, Jr., of Hartford, Conn., son of the inventor of the Maxim gun and himself the inventor of the noiseless gun, will begin fitting a cannon of large bore with a silencing device which he will exhibit in Germany when he returns to that country in October.

In a recent interview Mr. Maxim said that the experts abroad, especially in Germany, were as much impressed with the flashless feature as they were with the noiseless feature of the device. The silencer was tested officially in England, Austria, France and Germany, he said, and companies were organized to manufacture it under control of the American company. At Berlin, he said, a machine shot sixty-five shots a minute, with no flash and no noise save the whirring of the gun mechanism.

In Memory of Pocahontas. A statue of Pocahontas will soon be erected at Jamestown island, Virginia. William Orndway Partridge, the distinguished sculptor, has just completed the statue, which is of heroic size. Ten thousand dollars was contributed by popular subscription, most of the patriotic societies of the country contributing, chief among them being the Colonial Dames. The Pocahontas Memorial Society of America agitated the idea, and it is to this society that the completion of the statue is due.

Cabinet of One Man. Nicaragua, according to advices received in Washington from the American consul at Managua, has adopted a new policy in regard to its cabinet. The ministry has been reorganized and now consists of a minister general and two assistant secretaries. This shift in the policy of the Nicaraguan government is based on grounds of economy.

The Third Eye. Mrs. Annie Beant says that man has a "third eye," situated between his other two, but long neglected, which, if developed, would enable him to see many things that are now invisible to him. When your collar button, jumping from your neckband with a shriek, tells severely 'neath the dresser just for spite, and on bedded knee profanely you its sequestration seek, But discover that it's vanished out of sight, Then a third eye would be handy if it has the powers they say— Yes, a tertiary optic would be fine to put in play.

When you're looking up your wife and a book you cannot find To accommodate one eye you've overlooked; When she says in tones impatient: "Goodness gracious! Are you blind? It's the simplest gown and, oh, so plain— Is it hooked?" Would that third eye help you find the missing hooklet in the row? Then this new auxiliary lamp would be quite approp.

When the keyhole seems a-dancing and you can't undo the door, When you try to read time tables (as they're "wrote"); When you search your clothes for dollars and you can't find any more; When you've overlooked a blond hair on your coat— Yes, a third eye might assist you if you had one in your face. Yes, in ticklish situations such an orb would be in place. —Paul West in New York World.

Restoring the Cut Thread. Get a couple of pieces of thread about the same length. Roll one piece up and put it between the thumb and first finger low down so that it does not show. This should be done while out of the room. Walk in with the other piece in your hand and ask somebody to cut it into eight pieces. When he has done this burn the ends to show that it is in place. Then roll it up again and start talking to the people so as to take their attention away from what you are doing. Drop the cut piece and bring out the piece that was secured between your thumb and finger. Pull it out full length, and they will be astonished to see what they think is in pieces all in one.

Seeley's THE PEOPLES' STORE 9th and MAIN St.

GIRL'S OVERDRESS WITH GIMPEL

with colored embroidery are 25 cents a yard.

A lovely sunshade of tiffeta silk of a rare shade of lavender has a border of chiny lace to match.

The overdress that is made in semi-princess style is a pronounced favorite this summer. In the illustration it is of a pretty inexpensive wash material with the scalloped edges bound with plain cloth, while the gimpel is of tacked muslin. JUDIC CHOLLET.

This May Manton pattern is cut in sizes for girls of fourteen and sixteen years of age. Send 25 cents to this office, giving number 6327, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

CHIC STYLES. The Fancy For Lingerie Embroidered in Color—All Over Lace Stock. It is now quite the fad to have lingerie embroidered in pink and blue, according to fashion. The tub dress becomes quite a simple pattern when it can be unbuttoned from top to bottom, both back and front, and from shoulder seam to waist and laid flat on the ironing board. It is as easy to iron almost as a sheet, and there seems to be no reason why the most economical person should not have as many of them as she chooses.

All over embroidery stocks are worn this summer. These stocks are made high, but without points under the ears. Wide Irish crochet insertion is used for stocks on handsome white waists. It is bound at the sides and back and is not finished with lace, but with a narrow Irish crochet cord. The pattern shows the best of them, continue to urge the plaited skirt, but as yet few of them are to be seen in the shops, but exclusive dressmakers

FOUR PIECE SKIRT.

are turning them out for their patrons. The new plaited skirt rarely if ever carries the plait to the waist line. The skirt that provides a slight flare at the lower edge is one of the very latest to appear, and this model shows that feature at its best. It is slightly high waisted and close fitting over the hips, and the plaited panels give long becoming lines and at the same time they provide additional fullness. JUDIC CHOLLET.

This May Manton pattern is cut in sizes from 22 to 28 inch waist measure. Send 10 cents to this office, giving number 6327, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

A Sprained Ankle. As usually treated a sprained ankle will disable the injured person for a month or more, but by applying Chamberlain's Liniment and observing the directions with each bottle faithfully, a cure may, in most cases, be effected in less than one week's time. This liniment is a most remarkable preparation; try it for a sprain or a bruise, or when laid up with chronic or muscular rheumatism, and you are certain to be delighted with the prompt relief which it affords. For sale by Huntley Bros. Co.
