Captain Shaw was in McMinnville this week looking after his duties in connection with the G. A. R. of which he is Department Commander. The Milwaukee band decided to go to Canby Friday and attend the Clackamas County Fair, held at that place. Secretary Lee of the Fair Association, has assured the boys that their expenses will be met by the Association. A parade from the depot at Canby to the fair grounds will be a feature of the trip. Mr. Wetzel, the manager, says he will have at least twenty places for the occasion, and the Commercial Club will furnish badges, boosting Milwaukee, to any one desiring them.

The Commercial Club met Tuesday night and took steps urging the City Council to call a special election on or before October 6, for the purpose of revising the city charter, something that it is claimed should be attended to without delay, as besides minor discrepancies, the present charter allows but little latitude to the city government.

The Mothers and Teachers Club will meet at their usual place Friday, when Dr. Townley will entertain them by a brief address. Mr. Asher and party have returned from a short trip to the mountains. We are sorry to note that there are three cases of typhoid fever in our midst. We understand the water from this different source has been analyzed and also a number have taken their well water to Portland, but as yet have not found any of the water as being contaminated. Swept Over Niagara. This terrible calamity often happens because a careless boatman ignores the river's warnings, growing ripples and faster current. Nature's warnings are kind. More Than Enough is Too Much. To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. SPRING IS POLLUTED.

Typhoid Germs Found in Water On Indian Camp.

The existence of bacilli in the water from a spring on what is known as the Indian camp in the South end of the city is confirmed in a letter from Dr. R. C. Yonney, secretary of the State Board of Health, to Dr. J. W. Norris, county health officer, who secured samples of the water which were sent to Portland and an analysis made by Dr. Ralph Matson, the well known bacteriologist. There have been several cases of typhoid fever during the last two months and Dr. Norris suspected that the infection might have been due to the use of this water. The spring will be closed to the use of the public.

According to a statement made by an official of the Hawley Pulp & Paper Company, the water has not been used by any of the employees of the company for many months. When the mill was first placed in operation last winter the use of the water was common, but it was discontinued as soon as Mr. Hawley learned of the practice.
