### SPLITTING NUISANCE.

Hawking and Spitting is Caused by Catarrh Germs.

If the local authorities want to stop the disgusting habit of spitting mucus on the sidewalks, they had better instruct the people as to the best method of killing the catarrh germs and curing catarrh.

You can easily tell by reading the symptoms below whether you have catarrh or not.

Offensive breath, frequent sneezing, discharge from nose, stoppage of the nose, huskiness of the voice, tickling in throat, droppings in throat, a cough, pain in chest, loss of strength, variable appetite, spasms of coughing, low spirited at times, raising of mucus, difficulty in breathing, loss of vital force.

Huntley Bros. Co. has a sensible remedy (money back if it fails) for catarrh, called Hyomel, which is a vaporized air so antiseptic that when it is breathed over the inflamed and germ-infested membrane, it kills all germ life and cures catarrh.

The price, including hard rubber inhaler, is only \$1.00, and money back if it doesn't cure. Extra bottles, 50 cents.

I have tried almost every catarrh cure on the market without benefit. Have been using Hyomel for one week and feel like a new man already."—Wm. V. Goodie, Newark, Ohio, June 21, 1909, Oct. 15-29.

With the many mills around this section of the country where men are constantly exposed to accidents, such an enterprise would be of benefit.
