#### SWEPT OVER NIAGARA.

This terrible calamity often happens because a careless boatman ignores the river's warnings, growing ripples and faster current. Nature's warnings are kind. That dull pain or ache in the back warns you the kidneys need attention if you would escape fatal maladies—Dropsy, Diabetes or Bright's disease. Take Electric Bitters at once and see Backache fly and all your best feelings return. "After long suffering from weak kidneys and lame back, one \$1.00 bottle wholly cured me," writes J. R. Blakenhip, of Belk, Tenn. Only 50c at Jones Drug Co.

The right of way is 30 feet wide and has been cleared, with the exception of the large timber, and a crew are now at work cutting the large trees.

The River Mill Company, operated by the Morris Brothers, near the city, is rushing its work and has about completed sawing the timbers for the Howe Truss bridge, which is being constructed across the Clackamas and is about finished. LOOK FOR THE RED SIGNS

A year. Braasch, of St. Johns, was in the city during the week, looking after his interests. Mr. Braasch informs us that he is making arrangements to take a two years' trip traveling in Europe.

The Townsend boys bagged three young geese at the reservoir Sunday morning. Saturday evening's storm drove the birds to the river and some good shooting was had until the storm abated.

A. Morrow has commenced the construction of a large barn for his increasing livery business.

John Stinemman has returned from an extended trip through the Middle States and reports an enjoyable time and better yet, glad to get back to Oregon.

R. F. Bullard and O. H. Schock have completed a deal with the P. Ry. & E. T. Co. for the right to raise the

waters in the Clackamas river in contemplation of the construction of a new power plant. Judge Dimick addressed the meeting of the Garfield Grange Saturday afternoon. The Judge is very solicitous as to the welfare of the primary and strongly opposed to the "conventional idea," which he says, will, if adopted, destroy the well-being of the district primary. The people should carefully guard their rights, preserve the referendum and reconstruct the initiative. The Legislative Solons of the last session would "set up and take notice" could they but hear the Judge give rehearsal of the various plots and schemes put through at the last session at the expense of the taxpayers. The Judge is a strong advocate of "women's rights," a clear and forceful speaker, and it would not be a surprise if he developed into a strong factor in the next gubernatorial race.

The apple growers are shipping their fruit to the cannery at Portland and are realizing a good price for their fruit. This provides a good market, at present, for the fruit and growers and farmers will watch the effect with a great deal of interest and will probably result in the tilling of numerous farms in this vicinity.

S. E. Wooster and William Stokes sold forty acres of land to E. S. Wilcox and forty acres to Mrs. Callwell. The lands will be set out to fruit trees.

C. C. Salling, who has twenty acres in fruit trees, was exhibiting some fine specimens of Northern Spy apples this week. Mr. Salling's orchard of young trees are mostly Spitzenbergs.

Some considerable excitement was raised in Estacada the past week by the council refusing to grant a liquor license. It appears that this district is strongly prohibition.

J. H. Telford is again at the desk as agent for the P. R. L. & P. Co. and we are pleased to see John back and hope he will remain.

The Garfield District was well to the front last week with a sensational divorce suit, a notable wedding and a speech by the Honorable County Judge.

William R. Stokes is unloading a car load of tiling and hauling it to

his fruit farm. This tiling, when put in place, will be a new departure with the land owners here and will make his orchard and farm one of the finest in the county. The fruit growers and farmers will watch the effect with a great deal of interest and will probably result in the tilling of numerous farms in this vicinity.
