

BOUNDARIES IN QUESTION

PEOPLE OF GLADSTONE HAVE A REAL LIVE ISSUE BEFORE THEM.

MEET ON NEXT MONDAY

Acres Property is Bane of Discussion By Members of Improvement Association.

The proposed incorporation of Gladstone is gradually becoming a real live issue and next Monday evening the Gladstone Improvement Club will hold a meeting in the assembly hall of the school house to discuss the proposed boundaries. As now set forth in the charter the boundaries embrace all of the Cason claim, which includes the territory on the east side of the track of the Portland Railway, Light & Power Company and the south half of the Rineason claim east of the county road. There will be an amendment offered to take in the acreage of Thomas F. Ryan, L. A. Read, Mrs. Anna G. Hayes, J. Beaulieu, Peter Rineason and others. This amendment will also be drawn to take in the south half of Meldrum, as now platted. Another amendment will be offered to strike out all of the acreage on both sides of the track, including Gladstone Park. This movement, however, does not eliminate the south half of Meldrum. The improvement club Monday night determined and agreed upon the provisions of the charter, with the exception of the boundaries and the sewer districts. It has not yet been determined whether there will be one district or more, and this matter will also come up next Monday night, when a lively and interesting meeting is promised.

WILLIAMS BROS. WILL APPEAL.

Judge McBride Declares Their Stable to be a Nuisance.

Williams Bros. have filed a notice of appeal from the decision of the Circuit Court of Clackamas County in the suit instituted against them by Mrs. Charlotte Templeton, who succeeded in having a barn adjoining her property declared a nuisance. Williams Bros. conduct a transfer business and they stable their horses in the barn that is located on Fifth street between Washington and John Adams streets, next to the residence property of Mrs. Templeton. The case was one of the last to be decided by Judge McBride just before his elevation to the Supreme bench, and he allowed the transfer firm six months to remove their stable from the property. State Senator Hodges appears for Mrs. Templeton, and the appellants are represented by Dimick & Dimick.

STONE.

This is the third day of the gentle rain and there is plenty of water in the Clackamas river and Clear creek to run three or four electric plants down the Clackamas river the other day and found it booming, with logs and drift wood running freely. While there a patch of corn was observed, the height of which was at least eight feet, bearing splendid, well filled ears.

Hallowe'en pranks were played quite freely Monday night. Many things were moved from their locations and turned topsy turvy. It looked as though Mr. Hurricane had been loose during the night, and one native after surveying the damage said he knew a man by the name of Dinky Case, but he was no such man as Hurricane.

If the boys who played the pranks the other night were compelled to go through with all they did then they would declare it was too much like work.

Oregon does certainly do herself proud. Green grass, flowers in bloom and the weather mild as a spring day, all in November. Oregon forever, and Clackamas County the choicest part.
