

Patriotism

The stomech is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsis. The confirmed dyspeptio "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder.

A sound stomach makes for good citizenship as well as for health and happiness.

Diseases of the stomach and other organs of digestion and

In quality they have no equal. The best of materials throughout is one of their strong characteristics. When it comes to the question of style, we have never seen garments from any other maker which possess these artistic lines and which so strongly appeal to the young man, who demands every feature of fashion.
