Prof. Howard Eccles went to Albany on business Sunday.

Headgates Stand Flood. The headgates of the canal at Meadowbrook and at Canby have stood the floods of the Molalla river well, which proves that the work done by the competent engineers and workmen was satisfactory. The Molalla river in its highest stages is a treacherous stream, and much fear was expressed when the work was first started that the headgates would not be able to stand the pressure. Much satisfaction is given by the company for the workmanship, and as soon as the weather permits work will be continued on the remainder of the canal and power house.

Creamery in Operation. Canby can now boast of having one of the best and up-to-date equipped creameries in the state, the machinery of this enterprise having been started into operation on Tuesday afternoon, and before evening several hundred pounds of butter had been manufactured. Ralph Allingham, one of the best posted men in this line, of the Corvallis Creamery Company, has had charge of the installing of the machinery since the close of the county fair. The exhibit at the fair was in his and C. H. Pease's charge. Mr. Allingham, who has made many friends since his stay in this city, will be relieved by J. C. Kaupisch, who has already rented a home here for his family, and will probably arrive the latter part of the week.

Many of Canby's residents have already commenced the use of the Corvallis Creamery butter, the enterprise in this city being a branch of the former. The Bernoser building, where the factory is established, has been thoroughly renovated and placed in order. Cream is daily arriving, and the company will be able to handle all that comes in. With this new enterprise, the cannery, the power house, water works and the nitrogen plant, Canby is fast coming to the front as a manufacturing town and within a few years to come, there will be many more manufacturers settle here.

Services at M. E. Church. Services will be held both morning and evening at the Methodist church, Rev. Creesy officiating. All are invited to these services.

Canby Gun Club Meets. The Canby Gun Club met Sunday, but again the rain drove most of them to shelter; only four participated. The following scores were made out of a possible 25: Batsy, 18; Patch, 16; White, 15; Sandness, 14; Fellows, 5.

Work to Commence on Waterworks. The work on the Canby waterworks will be started this week, weather permitting, and will be in operation some time this winter. The work will be pushed along at a rapid rate. It will have an underground tank pressure system, and will be one of the latest and up-to-date water systems in the Pacific Northwest, the cost of which will be about \$15,000.

Nitrogen Plant to be Installed. The Canby Canal Company, through its manager, M. J. Lee, has made arrangements for the erection of a nitrogen plant in this city, which will be used for the reclaiming of the soil of the lands in the Willamette Valley. This will be the only enterprise of its kind in the Northwest. Several of these plants will soon appear in some of the Eastern sections. The Canal Company has not yet decided upon a building site. It is thought that the soil can be reclaimed for from \$1 to \$2 an acre. Mr. Lee is giving the matter a careful study, and thinks that it can be successfully carried out.

Redland. Rain, rain! Will it ever stop? The Misses Ada and Emma Brock gave a party to a few of the young people of Redland last Friday evening. All report a good time.

Eugene, youngest son of Mr. and Mrs. Bonney, got his fingers quite badly hurt in the cog-wheels of the wringer last week. He was taken to Dr. Mount and had them dressed and is now getting along nicely.

WHAT IS HYOMEI? You Have Heard About the Catarrh Cure Huntley Bros. Co. Guarantees.

Hyomei is a wonderful antiseptic, so powerful that it promptly destroys germ life, yet its action on the mucous membrane is extremely soothing and healing. It relieves catarrh in five minutes; it cures in a few weeks or money back.

It is made chiefly of eucalyptus and eucalyptol taken from the eucalyptus forests of inland Australia. The medical profession knows that eucalyptus is an absolutely certain germ destroyer, and with the active principles of eucalyptus as a base Hyomei is made more efficient, pleasant and quick acting by the addition of Thymol, an antiseptic and disinfectant largely employed in the Listerian System. Gualacol and other important medicinal agents are also included in the Hyomei formula, which, without doubt, is the greatest destroyer of catarrh germs the world has ever known.

Hyomei is a powerful, penetrating antiseptic that is pleasant to use. It does not contain a particle of cocaine, opium or any habit-forming or injurious drug.

No drying the stomach when you use Hyomei. Just breathe it in through the small inhaler that comes with each outfit. Sold by leading druggists everywhere and in Oregon City by Huntley Bros. Co. \$1.00 for complete outfit.

ALLEN GRANTED NON-SUIT. Trial of Case in Circuit Court Comes to Sudden Termination.

The trial of the suit of Denton vs. Allen came to a sudden termination early Wednesday afternoon, when, upon motion of the defendant's attorney, George C. Brownell, Judge Campbell granted a non-suit in the case. The action was one for damages said to have been caused by the misrepresentation of the title to a piece of land.

The suit of Cook vs. Gilbert, which was set for trial on Wednesday, has been settled out of court by Attorneys George C. Brownell and Harvey E. Cross.

The trial of the case of O. W. Eastham & Company against James M. Tracy is being heard before a jury in the Circuit Court. This is a suit for commissions on the sale of real estate, in which O. W. Eastham & Company acted as agent for Tracy in the sale of his farm.

MCKEE PLACED ON PAROLE. Former School Superintendent Given an Opportunity to Reform.

Walton C. McKee, who pleaded guilty to two of the charges against him Saturday morning, received his sentence at the hands of Circuit Judge Campbell. He was sentenced to one year in the county jail, but was paroled on good behavior and must report to the court every month until his term has expired. A very affecting scene took place in the court room when the court recalled the excellent reputation the defendant had borne in Oregon City. It is stated that McKee will resume his labors in Portland, where he has been employed as bookkeeper for the Portland Gas Company.

GREGORY IS INDICTED. Trial Set For November 19 in the Circuit Court.

An indictment has been returned by the grand jury against August H. Gregory, who is charged with assault with a dangerous weapon. Gregory has been released on his own recognizance. His indictment is the result

of an attack he made last Spring on Water Ballist Hall. Gregory was fishing at Willamette Falls, and Ballist attempted to arrest him on a charge of illegal fishing. He struck the Ballist over the head with an oar, inflicting a painful wound. The trial is set for Friday, November 19.

J. E. SMITH PLEADS GUILTY. Extenuating Circumstances Enter Case—Judge Gives Parole.

In the Justice Court Tuesday J. E. Smith entered a plea of guilty to the theft of an electrical testing device and was sentenced to pay a fine of \$20 by Judge Samson, who paroled Smith. The charge was larceny by bailment. It appears from the statement of C. Schuebel, attorney for Smith, that the latter had a claim against D. A. Dillman, to whom the device belonged and that Smith sold the instrument without knowing the grave character of his act. Smith was indicted by the grand jury on another charge of larceny by bailment and was arrested by Sheriff Beale Monday afternoon. He spent the same night in jail, after making a futile effort to obtain bail. This indictment was dismissed in the Circuit Court. The whole affair was caused through a disagreement over money transac-

tions between Dillman and Dillman, the former being in Dillman's employ on a woodsaw. Smith has a family and was several weeks ago employed by the grocery firm of Larson & Co.

PARSONS GETS A VERDICT. Jury Awards Him \$112.95 For Extras on Gladstone School Building.

The jury in the suit of F. M. Parsons against the Gladstone school district late Tuesday night agreed upon a verdict for Parsons for \$112.95. The school district will have to pay the costs of the trial which lasted two entire days. Parsons & Varney were given the contract for the construction of the Gladstone school house last year and while the building was being erected Varney sold out to Parsons, who claimed extras amounting to \$482. This claim was denied by the directors of the school district. Harvey E. Cross, William LaSalle and E. P. Carter and Parsons took the matter into court. It is stated that the directors agreed to pay him \$150, and if this is the case the result of the suit is rather a barren victory for the contractor. Parsons is a resident of St. John, and he built the addition to the Eastham school building in Oregon City last year. His case was in charge of George C. Brownell, Gordon E. Hayes and Kollinger & Zollinger. The school district was represented by Attorneys Cross & Hammond.

One Year Term For Ernst. Sigmund Ernst has been sentenced to one year in the penitentiary on a charge of larceny by embezzlement. Ernst was arrested several weeks ago by Constable Miles and has been an inmate of the county jail ever since. He is accused of collecting \$75 for the Continental Casualty Company, of which he was agent, and diverting the money to his own use. Ernst has served a term in the state penitentiary.

Sues to Recover \$1000. Edward T. Taggart, as trustee, has filed a suit in the Circuit Court against Herbert A. Stowe, Allen D. Chase and D. D. Coffey to recover \$1000, which amount was loaned to Stowe by Taggart, who was given a chattel mortgage on stock, grain and farming implements. The complaint declares that in October of this year Chase purchased the property from Stowe and assumed the note and mortgage.
