The marshal must be commended for strict attention to his duty in impounding stray cattle and horses found upon the streets of the town which meets with the approval of all citizens.

The council, during the past year, acting on the request of Mothers' and Teachers' Club fitted up the lower room of the town hall for a library and reading room. This is the beginning of a complete public library and also a place where the youth of our town can spend their evenings.

The regular meeting of the city council was held in the council chamber on Tuesday evening. The meeting was called to order by Mayor Treib.

The minutes of the previous regular and special meetings were read and proved as read.

A petition from the Beaverton-Willamette Railway Company was read and ordered placed on file.

The proposed ordinance No. 31 was read and ordered posted in the manner prescribed by the charter.

The following resolution was read and upon motion was passed by the

Council: Resolved, That the street committee be and hereby is authorized and directed to arrange for the improvement of the Foster road from Main street, a distance southerly of 700 feet more or less.

The following bills read and ordered paid: Milwaukee Printery \$13.30, Portland Railway Light & Power Company .55, Portland Railway, Light & Power Company 37.23, A. H. Dowling, postage .25, Pacific Coast Stamp Works (dog tags) 2.30, P. C. Harlow, Sr., lumber 4.25.

The mayor's message to the council was read and applauded by members of the council and citizens present, demonstrating that he was in line with the upbuilding of Milwaukee. One citizen present stating that the message would bear printing in the daily papers of the city of Portland.

On motion the bond of the treasurer was accepted by the council. On motion the meeting adjourned.

Following is Mayor Streib's annual report, which is a good showing made by the present administration:

Mayor Streib's Annual Report. No City tax collected during 1909. No poll tax collected during 1909. Receipts, Liquor licenses \$1200.00, Road money 1287.67, Hall rent 67.75, Curialia ads 110.00, Police court 48.05.

Total \$2810.47, Money on hand Jan. 1, 1909 403.50, \$3213.97.

Disbursements—Roads and Crosswalks \$731.14, Lights 521.41, City Hall fixtures, Ins., Improvements, Election expenses, etc. 735.11, Poll tax refund 27.00, Police court costs 30.35, Miscellaneous expenses 38.90.

Total \$2083.91, On hand Jan. 1, 1910 \$1130.06, January 1, 1909, the present administration went into office pledged to carry out the following platform:

1. Abolishing the Poll Tax. At the first meeting of the newly elected council on January 12, 1909, the council voted to refrain from collecting the poll tax for 1909, and the same action should be taken this year.

2. More street lights. In this connection I can state the Portland Railway, Light & Power Company, after refusing for the last year and a half to install more street lights unless the town entered into a 5 year contract on terms laid down by the company, has finally accepted the terms of the franchise and will in the course of this month put up five additional street lights.

3. Better streets and sidewalks. According to the annual report the town spent \$731.14 on streets, this amount largely was expended in making permanent fills and doing away with bridges also opening and grading new streets. A share went to putting in crosswalks and keeping the streets in passable condition. A year ago it was suggested that the establishing of grades and streets be delayed until the Southern Pacific railroad had built its track through the town. I think during the coming summer this work ought to be undertaken as the company will then have called its line completed.

4. Encourage the opening of New streets. During the year several new streets have been opened and the council has materially helped in making them open to travel. Sidewalks and streets are necessary for the town's growth, and the property owners should give the council every assistance in this direction.

5. Annexing Additional Territory to the town. At the election held December 6, Lewelling Park was annexed by popular vote and is now a part of Milwaukee.

6. Enforcement of the Stock Law. The Marshal must be commended for strict attention to his duty in impounding stray cattle and horses found upon the streets of the town which meets with the approval of all citizens.

7. Procuring a depot. The officials of the Southern Pacific Railroad have agreed to build a depot as soon as the new line is completed. The plans have been accepted by the council and I have no doubt that the depot will prove a great benefit to the town.

8. The council, during the past year, acting on the request of Mothers' and Teachers' Club fitted up the lower room of the town hall for a library and reading room. This is the beginning of a complete public library and also a place where the youth of our town can spend their evenings.

9. The five cent fare case. I am glad to announce that this suit is won and Milwaukee after three years of litigation before the Railroad Commission and courts, has been victorious in this case. On December 21st last the Supreme Court without a dissenting opinion decided that the Portland Railway, Light & Power Co. was guilty of unjust discrimination against Milwaukee and that under the circumstances the Court declared that five cents with transfers to be a just and reasonable rate.

The following resolution was read and upon motion was passed by the

decision will on any material be reversed.

Assembly.

Supt. Twomey addressed the students at Assembly, Wednesday, on the subject of the "Value of a Higher Education." He treated the matter under the heads of the power gained by study, civic efficiency, the courtesy which should come as a result of mental training, and of the pecuniary advantage it affords.

The latter consideration he treated for the reason that it is a very much discussed question. He showed by statistics that the man with a college training has a decided advantage over the man who has not, in ability to command good pay for his work.

MOLALLA. At this time of the year our rural mail carriers are having the struggle of their lives to make the "rounds" facing all kinds of weather with cold feet and numb fingers. Inasmuch as "Uncle Sam" is doing all his work for the convenience of the rural people, we should all strive to assist "him" in his great work by complying with the following suggestions as set forth in circular letter to postmasters by the Fourth Assistant Postmaster General, dated Dec. 10, 1909:

"From a recent count made by rural carriers in one of our counties in the State of New York of coins deposited by patrons in their boxes for the purchase of stamp supplies, it was found that each carrier in the county was collecting an average of 115 one-cent coins each week. This average applied to all the routes in operation throughout the country would give the enormous total of about 300,000,000 one-cent coins. As most of these coins are deposited loose in boxes, it is desirable that you and the rural carriers, in a tactful and polite way, put forth your best efforts to induce patrons to provide themselves with stamp supplies in advance of their needs, and to equip their boxes with suitable coin-holding receptacles. It should be explained to patrons that the picking of loose coins from boxes not only results in needless hardship and suffering to carriers in winter weather, delays the delivery and collection of the mails, but frequently results in actual money loss to the carriers, for if in collecting coins from boxes, they drop them into the snow or on the ground without recovery, they are required to replace the amount out of their own funds."

Now just have a little talk with your rural "Uncle Sam" the next convenient opportunity about arranging to cut out of this coin collecting from your mail box.

JOHN W. THOMAS, DENTIST. Molalla Mondays.
