Estacada and Eastern Clackamas

ESTACADA. The rain Sunday evening turned in to snow about 11 o'clock and Monday morning the "beautiful" covered the ground to a depth of about six inches. Reports from the upper Garfield and Springfield countries say that they have about 12 inches. Ground Hog day, the 2nd, the sun shone brightly all day and the snow disappeared rapidly. Estacada and Boring have each a special car to accommodate the "annexationists" and the "new county" advocates who will be present at the Oak Grove meeting. Mr. Kilgore has purchased 20 acres of fruit land from Mr. Folsom. The Springfield locality is considered a fine fruit-bearing district and is rapidly coming to the front. R. O. Boswell and Cashier Heyman were in Portland on business during the week. Prof. James was in Oregon City Saturday looking up the data for the Commercial Club and other information relative to the new county which the citizens here are advocating. Oregon City's Commercial Club has started a query in this part of the county in appointing W. A. Dimick at the head of a committee to establish closer relations with the residents north of the Clackamas river. Will be established such relations to the benefit of the people or will be attempted to lay the foundation for his re-election to the legislature. The directors of the fruit growers' association met Saturday in the office of Bartlett and Heyman and were in session during the afternoon; it is possible that in the near future Mr. Shepard of Hood River, will lecture here and also one or more prominent professors from the Agricultural College.

SANDY. Mrs. Marshall, who has been on the sick list, is reported to be recovering. Wm. Stokes, president of the Fruit Growers' Association, was in the city Tuesday and reports much activity in the sale of fruit lands. J. C. Duns and Milt Marshall were in the city the first of the week. Mr. Marshall is the Isaac Walton of the Clackamas River, and Mr. Duns the Daniel Boone, of Eagle Creek woods. The local telephone company has been nearly put out of business for a few days. The heavy snow weighted down the wires and broke a number of poles. A large force has been busy making repairs and communication with the outside districts will soon be re-established. People of Sandy Monday morning were most gaily surprised on awaking to find one foot of snow covering the ground. Those who predicted an early spring had their hopes smashed asunder by the snow storm. Heaven gazes was the principal business of Sandy people last Friday at 5:20 when Comet A4 1910 was seen plainly by many people. M. V. Thomas and E. T. Bruns attended the county Pomona Orange meeting at Garfield. They report a grand time. They also succeeded in having the July Pomona County Orange meet at Sandy, the second Wednesday in July. A great time is anticipated at that date. The entertainment given at the M. E. Church was well attended. All report a good time. Another free entertainment and banquet social will be given in the near future. A grand masquerade ball will take place in town February 12. A cash prize of \$5 will be given to the best sustained character. Sandy people are considerably stirred up over the proposed annexation of all that north of the Clackamas river country to Multnomah County. Most everybody here is heartily in favor of it, especially this part of Clackamas is naturally a tributary to Portland and a mighty effort will be made to become a part of Multnomah. If they don't succeed, then an attempt will be made to form a new county of Cascade with Sandy (of course) the county seat. Quite a number of farmers have hauled their potatoes to the station, and are getting \$1.00 per hundred. Al Edwards has his property fenced out and will soon start to build his new house on Proctor Avenue, Sandy Land Co. addition. Mrs. E. M. Douglass has six families living in her building. There are a number of houses in town where two and three families live in. Many inquiries for land and town property are a Sandy every day. The Jones place, consisting of 120 acres, on Sandy bluff, was purchased by an eastern man, who will probably lay it out in small tracts for country homes. This place from the sandy bluff commands a grand panoramic view to be seen any where. People living on the Hood (Yew road) are going to straighten out and clear and grade and perhaps plank the east end of the road. About three miles of it is now in an awful condition, almost impassable, and should be cleared and graded at least. Many people have pledged volunteer work, and with what aid the county will give it is hoped to build that piece of road this coming summer. Mrs. Douglass is building an addition to her house. Lewis Hougham's new house is almost completed and is a handsome residence. Looks rather business-like for a single man. Maybe something is going to happen.

EAGLE CREEK. The Sandy Land Company has plotted additional property into lots and will soon have a new addition to Sandy on the market. T. D. Phelps is making extensive improvements on his four acres. Sand Land Company has a contract for clearing and grading all the principal streets in Sandy. Quite a number of timber cruisers are out estimating timber and a few more new saw mills may be located here very soon. Orange meets on Saturday, February 12, at 10 A. M. It will be an all-day session with a big oyster dinner; with plenty of cakes, pies, fruits, etc. All the bachelors are to bring a pie made by themselves. Not only that, but they must eat it too. A good time is expected. Mrs. C. Bruns has returned from Portland where she has been visiting relatives the past month. Mr. Coulman, a Portland man, has been visiting friends on Sandy. Elijah Coulman and his wife, who were recently married, made a hurried trip through town a few days ago. They did not stay long because old tin cans, cowbells, shot guns, etc., were to plentiful. Fishing, hunting and trapping is a great pastime for many of our citizens. Salmon are biting bite now and some dandies are frequently landed. There are also quite a few wild cats, lynx, coyotes, that are driven out by heavy snow in the mountains and are shot on sight. The dozen or more families that settled in the green timber 10 miles east of here won their point and are now making arrangements to prove up on their claims.

DOVER. with Mr. and Mrs. Walter Douglass last Thursday. Mr. and Mrs. John Sweeney, of Stevenson, Wash., spent Thursday at the home of Wesley Douglass. Mrs. Sweeney had been the guest of her daughter, Mrs. Will Douglass, for about two weeks, and Mr. Sweeney came on Wednesday evening, to accompany her home. Mr. and Mrs. Sweeney were accompanied as far as Portland by their daughter, Mrs. Will Douglass. A number of the people of our vicinity were on the special car going to Portland Friday evening to witness the boxing match between Jeffries and his trainer, Sam Berger. Phuss and Joe Cahill joined the Good Templars at Currinsville Friday evening. Morris did not go, because he had a sore toe. Mr. and Mrs. Ray Woodie made a brief business visit to Sandy last Saturday. Will Douglass was a Portland and Oregon City visitor last week. Elmer Douglass, who has been working for some time for the Sellwood Lumber Company, on Deep Creek, has resigned his position and has gone to Boring to work. Mr. and Mrs. Wesley Douglass entertained Mr. Hoover, Mr. and Mrs. Large and Mrs. R. B. Gibson at dinner Sunday. Miss Mary Crouch, of Portland, came out with her sister, Miss Muriel Crouch, teacher of District No. 50, on Sunday, and was her guest for a few days. Children Cry FOR FLETCHER'S CASTORIA

DOVER. when we please. Now if we wish to have an evening's drive or wish to get there on time, we have to go a foot. Dover has not yet installed her talking machines so we have to send our messages by wireless. The Dover Hotel was not able to accommodate all the people last Friday. Mr. C. A. Keith gave one man his supper and he roomed in the schoolhouse. Grandma DeShazer and her nephew are on the sick list this week. Dover is building two telephone lines—one to Sandy, the other to Estacada. Dover is on the boom. We had another one of those white winter coats of about ten or twelve inches last Monday morning. It was understood at a meeting of the telephone company at Eagle Creek that Estacada will connect its lines with Redland, which will then give us access to the Molalla lines. A meeting was held Monday night by the Company which is to build a line to Sandy, the depot of which will be given next week. Dover School Report. The following is the monthly report of Dover school district No. 82, for the month ending January 28, 1910: Number days taught during month, 29; whole number of days attendance, 280; number of days absence, 20; number of cases tardiness, 22; number pupils, neither absent or late, 15; average number of pupils belonging, 29; average daily attendance, 19; per cent of attendance, 95 per cent; number visits by parents, 4; number visits by members of school board, 3. Those neither absent nor tardy are as follows: Eleanor Bews, Edna DeShazer, Francis Donnellan, Lula Roberts, Riddle Roberts, Helen Keith, Iva Udell, Agnes Udell, George Roberts, Harold Miller, Jesse Cooper, Granville Cooper, Ralph Almert, Raymond DeShazer, Ralph DeShazer, GUY C. LARKINS, Teacher.

ASTHMA. Is a distressing disease. Dr. Bell's Pine-Tar-Honey relieves almost instantly. We guarantee it to give satisfaction. For sale by Jones Drug Co. FIRWOOD. A number of people attended the monthly meeting of the Mount Hood Fruit Growers' Association at Sandy, last Saturday and report a rousing time. Ten new members were taken in, and fifteen applicants, who will be taken in at the next meeting, February 26. Mr. Stucki came out from Portland Monday with a new horse. E. D. Hart went to Portland last week to visit the automobile show. The Firwood people are busy getting out telephones. B. F. Hart is building a bungalow on his ranch. John Sinclair came out from Portland Monday. A. Motell is now working on his ranch south of Firwood. Miss Mary Motell spent a few days visiting her folks the first of the week. Fred Black and Austin Milliron were transacting business in Portland this week. Over a foot of snow on the level gives the land clearers a rest for a few days. CROUP. Causes uneasy nights but if you will use Dr. Bell's Pine-Tar-Honey it will relieve in a few minutes. There is nothing better. Guaranteed by Jones Drug Co.
